FROM: Nevada State Board of Pharmacy Inspector

SUBJECT: Self-Assessment Inspection Process

The Board of Pharmacy’s established self-assessment inspection process provides management opportunity to review the standards by which the board inspects your operation. The process recognizes you as the responsible person to implement and review policies and procedures necessary to provide a quality standard of pharmaceutical services. An inspection evaluation form must be obtained from the website to self assess compliance with Nevada pharmacy law. An inspector will review the form with you and inspect your facility during the month listed on your Inspection Notice.

The procedure involves the following:

1. At the minimum, print and fill out the self-assessment inspection form found on the website under your designated license type. We cannot evaluate or help you if we don’t know what you don’t know. Retain the form and have it readily available in a packet so if you are not present when an inspector arrives, your staff can have it available.

2. An inspector will conduct a review of your operation. Observations, along with your findings, will assure understanding and compliance with Nevada law.

   Failure to fill out the inspection report suggests either you are not concerned with knowing the law or complying with it.

   This plan has been established as a cooperative approach to annual inspections. We would appreciate any input you may have on this joint review procedure.
