REGULAR AGENDA

1. Public Comments and Discussion of and Deliberation Upon Those Comments:
   No vote may be taken upon a matter raised under this item of the agenda until
   the matter itself has been specifically included on an agenda as an item upon
   which action will be taken. (NRS 241.020)

   There was no public comment.

2. Discipline for Possible Actions:
   A. Michelle Badten, R.Ph    (11-092A-RPH-S)
   B. Kenton Crowley, R.Ph    (11-092B-RPH-S)
   C. Timothy Brown, R.Ph    (11-092C-RPH-S)
   D. Pathway Specialty Compounds    (11-092-PH-S)

   This matter was continued to the April 18, 2012 Board meeting.

3. Intent to Act Upon an Emergency Regulation For Possible Action – Amendment
   of Nevada Administrative Code 453.510 Schedule 1. Because of abuse of un-
   regulated products containing synthetic cannabinoids being sold in head shops,
law enforcement has requested that the Board of Pharmacy to schedule AM-2210, JWH-081, JWH-122, JWH-250, JWH-210 and AM-694 to Schedule 1.

President Foster advised that there were letters of support for this amendment from the Attorney General’s Office, the Washoe County Sheriff’s office and the Las Vegas Metropolitan Police Department.

There was telephone testimony and President Foster swore them in.

Dr. Bill Anderson, toxicologist for the crime lab at the Washoe County Sheriff’s office, and Carrie Hewart, also from the Washoe County crime lab, appeared by telephone and were sworn by President Foster prior to answering questions or offering testimony.

Dr. Anderson described many of the pharmacologic and clinical effects, such as paranoia and mental instability, that have been seen because of the use and abuse of synthetic cannabinoids.

David Gouldthorp, Tracy Birch, Ailee Burnett and Bruce Gentner, Las Vegas Metro Police Department Forensic Lab, appeared and were sworn by President Foster prior to answering questions or offering testimony.

They discussed the difference in the reactions different people have depending on how much and which of the synthetic cannabinoids they have used. Also, the difference in the different brands as to how they are compounded. They advised that Channel 8 reported a death of someone that used Spice, experienced psychotic behavior then killed himself.

Bruce Gentner reported that there is an increase in manufacturing and distribution in Southern Nevada and investigators in Northern Nevada are also seeing an increase.

Tracy Birch noted that youth have the perception that if these synthetic drugs are legal they should not be harmful, even though they do not know what they are taking or how much is considered “safe”.

Ailee Burnett noted that a year and a half ago there were only a few compounds available, however as the law changes so do the compounds making it difficult to keep up.

Mr. Gentner stated that he attended a Drug Expo in Las Vegas last week and found that these products are being marketed as relaxation or energy products. They are that blatant to actually have a Drug Expo with all these products displayed with tips on how to market them.

Board Action:

Motion: Kam Gandhi moved to approve the Emergency Regulation as presented and to direct staff to take it to Governor Sandoval for signature.

Posted 4/27/2012
Second: Russ Smith

Action: Passed Unanimously

President Foster signed the Emergency Regulation and directed Board staff to take it to Governor Sandoval.

4. Public Comments and Discussion of and Deliberation Upon Those Comments: No vote may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action will be taken. (NRS 241.020)

William Locke appeared and was sworn by President Foster prior to answering questions or offering testimony.

Carolyn Cramer advised the Board that Mr. Locke and Hales 50 Kirman Pharmacy had admitted to the facts in the two Notices of Intended Action and Accusations and she had prepared a Stipulated Agreement that Mr. Locke signed. Ms. Cramer recommended that the Board impose discipline upon Mr. Locke in the form of a fine of $500.00 for the violation in the First Cause of Action in Case Number 11-098-N in which a prescription for Risperidone was refilled twice without authorization, a fine of $500.00 for the violation in the First Cause of Action in Case Number 11-100-N in which Mr. Locke filled a patient’s prescription incorrectly on the patient’s word alone without authorization from the prescribing physician, a fine of $250.00 for the violation of the Second Cause of Action in Case Number 11-100-N in falsely claiming that a prescription had been transferred with incorrect prescriber and dosage information, and a fine of $250.00 for the violation in the Third Cause of Action in Case Number 11-100-N in creating a false document to support the transfer, for a total of $1,500.00. The discipline imposed upon Hale’s 50 Kirman Pharmacy will be one year probation and participation in the Your Success Rx program. Hale’s will also pay the fees and costs in this matter in the amount of $1,045.00.

Carolyn Cramer advised the Board that this matter was originally scheduled for July 14, 2010, continued to October 2010 however Ms. Heathcock did not appear on either date for hearing. Ms. Heathcock worked unlicensed for approximately 205 days without having renewed her PT registration. Ms. Heathcock’s registration was revoked at the October 2010 Board meeting and she is now present to request reinstatement.

Ms. Heathcock explained that she thought she had renewed her registration and would not lie for the sake of a $40.00 registration fee and loss of her license. She explained that her license that expired was hanging on the wall in the pharmacy and she was not trying to falsify anything. Ms. Heathcock explained that she had personal issues, was
commuting between Las Vegas and Pahrump daily, her mother was seriously ill and she was helping with her care and she is a single mom raising her son. She indicated that she worked for Walgreens for eleven years and she would never intentionally do anything to jeopardize her job.

Russ Smith disclosed that he works for Walgreens but has no knowledge of this issue.

**Board Action:**

She also indicated that they have a good system in place and recommended that the application for out of state wholesaler be granted to Harvard Third Party Logistics.

Mr. Rubin stated that they have no patients in Nevada at this time however they go to trade shows to develop relationships to obtain patients. They fill patient specific prescriptions and ship direct to the patient. They do not sell to doctor’s offices. She indicated that she had a DUI, paid a fine, went to DUI school and fulfilled all of the requirements of the court. When asked if the California Board was aware of her DUI she indicated that they were aware and that she is a registered Intern in California.

F. Activities Report

WORKSHOP

12. Proposed Regulation Amendment Workshop

A. Amendment of Nevada Administrative Code 639.753 Declination of pharmacist to fill prescription.

Carolyn Cramer explained to the Board that she wrote language that was succinct and covers the intent of the regulation and it would not change the original language to incite the abortion issue again.

Liz Macmenamin appeared and presented language that RAN and the industry would like to see made rather than what Board staff had written. The Board, Board staff and Ms. Macmenamin reviewed the proposed changes RAN presented item by item. Mr. Pinson advised that using the words “initially” and “shall” in sections 1 and 2 brings the language back to what the Board had already indicated they did not want to see. It would mandate that a pharmacist must fill a prescription. Ms. Macmenamin indicated
that was not her intent, was not married to the word, and it could be removed from the language.

Dan Luce, representing Walgreens, would like to see 1(b), “The filling of the prescription would be potentially harmful to the medical health of the patient;” removed. He indicated that the other changes RAN brought forth, such as changing the word “may” to “shall”, is not appropriate and feels it should remain “may” to allow the pharmacist to use his professional judgment to fill a prescription.

Ms. Macmenamin indicated that she would check with their legal counsel, Josh Hicks, to see if it would be acceptable to leave the word “may” in the language as is. She indicated that RAN is firm on removing 3(b), “Not potentially harmful to the medical health of the patient” from the existing language.

Adam Porath appeared and supported the language the Board’s staff presented. He does not support the language RAN proposed and wants to see 1(b) left in so a pharmacist does not have to fill a prescription he knows will harm a patient.

Ken Bender appeared and suggested the language in 1(b) be left in, amending it to read, “The filling of the prescription would be potentially harmful [present imminent harm] to the [medical health of the] patient.” After discussion, the Board thought that would be a good compromise.

Elisa Cafferata appeared, representing Planned Parenthood, and indicated that they would like to see the words “medical health of the patient” left in 1(b).

Larry Matheis, representing the Medical Association, indicated he thought the original language is good the way it stands. He indicated that he was not sure the Legislative Counsel Bureau would allow liability language to be added. Mr. Matheis warned that making major changes to the original language could cause unintended consequences. He also feels that the “imminent harm” suggestion is more precise than “potential harm” but would suggest the Board keep “medical health” in the language.

After discussion, the Board directed staff to bring the language back to Workshop after the language in 1(b) is changed to reflect “imminent harm” as discussed, take the word “initially” out of section 1 and 2 of RAN’s language and incorporate number 4 into number 3.

Mr. Luce reappeared and advised the Board that he supports the imminent harm language.

B. **Amendment of Nevada Administrative Code 639.7105** Electronic transmission of prescriptions listed in schedule II.

Ken Whitamore and Pete Palmer appeared to answer questions regarding the SureScripts electronic prescribing system. Mr. Whitamore was given a copy of the proposed language that would require a system to be able to capture specific data.
before allowing CII prescriptions to be electronically transmitted. He indicated that there really weren’t fields that would state specific requirements such as the controlled substance registration number, date of the last physical examination by the patient and a diagnosis code. Mr. Whitamore did indicate that they do have the capability of turning off the prescriber’s privileges if they are suspected of transmitting unlawful prescriptions. Mr. Palmer indicated that there would have to be enhancements to the current SureScripts software to allow for the requirements in the proposed language.

Liz Macmenamin asked if the Nevada Board was trying to set a new standard and she was told that they were to ensure patient safety.

It was noted that the DEA had still not announced a final ruling on the certification entities.

Dan Luce advised the Board that other states had tried to require diagnosis codes, however the attempt had failed throughout the country.

Dennis McAllister, representing Medco Health Solutions and a member of the Arizona Board of Pharmacy, highly recommended that the Board not delay the regulatory process and approve electronic prescribing of CII’s.

President Foster asked SureScripts for information on timelines for them to make the necessary software changes to include the proposed requirements in this amendment.

The Board’s staff was directed to bring the language back after they obtained more information.

C. **Amendment of Nevada Administrative Code 453.510** Schedule I.

Because of abuse of un-regulated products containing synthetic cannabinoids being sold in head shops, law enforcement has requested that the Board of Pharmacy to schedule AM-2201, JWH-081, JWH-122, JWH-250, JWH-210 and AM-694 to Schedule 1.

Mr. Pinson noted that this language was adopted as an emergency regulation amendment at a special meeting held on February 28th. He drove it down to Governor Sandoval’s office for signature and it was time stamped by the Secretary of State’s office on February 29th. The Board has 120 days to complete the process, beginning with this Workshop and a final Public Hearing for it to become permanent, but it is effective now.

Carrie Heward and Bill Anderson appeared to support adding the synthetic cannabinoids compounds listed in Schedule I because of the serious harmful effects they are seeing when people use these products.

Larry Matheis came forward and supports the addition of these compounds to Schedule I.
Liz Macmenamin noted for the record that RAN supports this language.

**Board Action:**

**Motion:** Russ Smith moved to go forward to Public Hearing with the language as presented.

**Second:** Cheryl Blomstrom

**Action:** Passed Unanimously

13. **Next Board Meeting:**

Re: Cystic Fibrosis Pharmacy Out-of-State Application
April 19, 2012 Board Meeting

Dear Ms Nally:

We are in receipt of your letter requesting appearance of our Pharmacist on April 19, 2012 Board Meeting to discuss our application for out-of-state licensure.

In reviewing the terms of your application, we noted the language “if the applicant … (c) is applying for the licensure of a pharmacy located outside the state that will be shipping compounded products into this state.”

These terms do not apply to us because we do not prepare compounded products for out-of-state delivery. Therefore, we will not need to appear at your Board meeting.

We look forward to your review and final approval of our application for shipment of non-parenteral drugs to patients in the state of Nevada.

If you require further information, please feel free to contact us.

Sincerely,

Susan Maret, CPC

NEVADA STATE BOARD OF PHARMACY,

       Petitioner,

       v.

      CAMERINA N. GAMBOA, RPH.
      Certificate of Registration No. 16995

      Respondent.

______________________________

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and make the following that will serve as both a Notice of Intended Action under Nevada Revised Statutes (NRS) 233B.127(3) and as an Accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Camerina N. Gamboa is a registered pharmacist with the Board.

II.

On or about September 28, 2011, the Nevada State Board of Pharmacy received notification from Richard Mazzoni, Director of Regulatory Compliance for CVS Caremark, that Respondent Gamboa had been terminated from employment from CVS #3172, located at 4391 East Washington Avenue in Las Vegas, Nevada.

III.

On September 20, 2011, CVS District Pharmacy Supervisor Jody Lewis and Candace Garvey, CVS Loss Prevention, interviewed Ms. Gamboa regarding two early refills of Soma for a CVS pharmacy patient. Ms. Gamboa admitted in her written statement that she refilled a prescription early because the patient indicated that he would not have the money when the prescription would normally be filled. Ms. Gamboa
not only filled the prescription once, but filled it a second time two days later. Ms. Gamboa refilled this prescription twice, knowing that the prescription had expired and that she had not contacted the prescriber for authorization to refill. In her written statement, Ms. Gamboa attributed the fills to not paying enough attention.

IV.

On September 28, 2011, Ms. Lewis and Ms. Garvey again interviewed Ms. Gamboa. At this meeting, Ms. Gamboa admitted to reducing the price of the controlled substance for the CVS patient that she filled and dispensed the expired prescriptions to because she had misquoted the price to the patient. She then charged him a price closer to the price she had quoted rather than the actual store price for the medication.

V.

During this interview, Ms. Gamboa was asked if she had filled a controlled substance prescription for hydrocodone 10/500 tablets for her mother that was also expired. Ms. Gamboa admitted that she had, but that her mother had given her prescriptions for medications which she put in her purse and forgot about. She did not think to call her mother's physician to get a new prescription for the hydrocodone. Ms. Gamboa also admitted that she had re-filled her mother's hydrocodone 10/500 expired prescription with more tablets than were prescribed. Ms. Gamboa admitted that she had taken two prescriptions out of the store without paying for them. She indicated in her written statement that she picked up four or five medications for her mother, however did not realize that two more non-controlled substance medications were in the bag that she had not paid for. Ms. Gamboa stated that she intended to pay for them when she returned to work after she discovered that she had more prescriptions than she had paid for.
FIRST CAUSE OF ACTION

VI.

In filling a prescription for a CVS patient twice for a controlled substance which Ms. Gamboa knew to be expired and without obtaining physician authorization, Ms. Gamboa violated Nevada Revised Statutes (NRS) 453.331(1)(d), 453.336(1) 639.210(1), (4), and/or (12) and/or Nevada Administrative Code (NAC) 639.945(1)(h) and/or (i).

SECOND CAUSE OF ACTION

VII.

In filling a controlled substance prescription that had expired for her mother and refilling it with more medication than was initially prescribed without obtaining a new prescription from her mother’s physician, Ms. Gamboa violated NRS 453.331(1)(d), 453.336(1) and/or 639.210(1), (4) and/or (12) and/or NAC 639.945(1)(h) and/or (i).

THIRD CAUSE OF ACTION

VIII.

In removing two prescriptions for dangerous drugs from the pharmacy for her mother that she did not pay for, Ms. Gamboa violated NRS 639.210(1), (4) and/or (12) and/or NAC 639.945(1)(h) and/or (i).

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of the Respondent.

Signed this 11th day of December, 2011.

Nevada State Board of Pharmacy

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

SOTHY HIM, R.PH
Certificate of Registration No. 15426

JASON WILLIAMSON, R.PH
Certificate of Registration No. 17474

WALGREENS #07841
Certificate of Registration No. PH01942

Respondents.

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of
the Nevada State Board of Pharmacy, and makes the following that will serve as both a
notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an
accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter and these
Respondents because Respondent Sothy Him, RPh, (Certificate Number 15426) and
Jason Williamson, RPh, (Certificate Number 17474) are registered pharmacists with the
Board and Respondent Walgreens #07841 is a pharmacy licensed by the Board,
located at 10510 Southern Highlands Parkway, Las Vegas, Nevada.

II.

On or about May 3rd, 2010 Ms. W picked up a prescription from Walgreens
#07841 for her daughter, Patient H. Approximately two months previous to May 3rd,
2010, Patient H was diagnosed with depression and anxiety and was prescribed
fluoxetine. Ms. W took the medication she received from the pharmacy home to her
daughter and Patient H continued her therapy as directed by her physician.
III.

After taking the medication she was given, Patient H became lethargic and had difficulty focusing to the point that her grades began to suffer. Ms. W made an appointment to visit Patient H’s psychiatrist on May 18th, 2010 to discuss the side effects of her medication.

IV.

On May 16th, 2010 a message was left on Ms. W’s telephone recorder from the pharmacy indicating that there had been an error made on Patient H’s prescription. Since the pharmacy was closed by the time Ms. W received the message, she contacted the pharmacy the following day and was advised that her daughter’s medication had been mixed with temazepam, a sedative/hypnotic.

V.

During the investigation of this matter it was learned that Jason Williamson was the responsible pharmacist for verification of Patient H’s prescription. It was determined that this was a Baker Cell filling error and that two different drugs were filled in the same Cell, Baker Cell #27. Until this error was brought to Mr. Williamson’s attention, prescriptions were still being filled from Baker Cell #27. Mr. Williamson immediately went to Cell #27 and found temazepam 30 mg. capsules mixed in with fluoxetine 20 mg. capsules. Mr. Williamson tried to determine the number of prescriptions that had the potential to be contaminated and identified 20 such patients. He contacted pharmacy manager Sothy Him. Mr. Williamson was not satisfied with Mr. Him’s direction in dealing with this serious matter, so Mr. Williamson made telephone calls to the patients that he identified as having contaminated medication advising them to stop taking their fluoxetine capsules and return their prescriptions to the pharmacy as soon as possible. He also completed incident reports for every patient that had received contaminated fluoxetine 20 mg. capsules, notified their physicians of the error and quarantined all returned medication. Mr. Williamson also contacted Walgreens District Pharmacy Supervisor, Holly Priewe advising her of the mass mis-fill.

VI.

At the time of this error Sothy Him was responsible for filling the Baker Cells. There was no log maintained in the pharmacy indicating lot numbers or expiration dates.
of the medication contained in the Baker Cells. Labeling of the Baker Cells was not up to date with the trade name, manufacturer, strength, expiration date, lot number and the initials of the pharmacist who placed or verified the medication placed into the device. Stock bottles of fluoxetine 20 mg. capsules and temazepam 30 mg. capsules are both manufactured by Sandoz and the stock containers look identical. It was found that the temazepam 30 mg. capsules may have been stored in the wrong location and unintentionally placed in Baker Cell #27 where fluoxetine 20 mg. capsules were stored.

VII.

In written statements by several pharmacy staff members it was indicated that Sothy Him was the person responsible for filling the Baker Cell device. Only in his absence was another pharmacist allowed to complete that task and never a pharmaceutical technician. Mr. Him was overheard telling patients returning their medications to the pharmacy that one of the technicians filled the Baker Cell and just did not pay attention, and since this error occurred he would not allow technicians to fill the Baker Cells to avoid this from happening again. In Mr. Him’s written statement, he regretted the error happened, however did not take responsibility for the incident.

FIRST CAUSE OF ACTION

VIII.

By verifying and dispensing temazepam 30 mg. capsules that were not prescribed for Patient H among her fluoxetine 20 mg. capsules, Mr. Williamson violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(i).

SECOND CAUSE OF ACTION

IX.

By failing to maintain a log or labeling the Baker Cell device drawers with the required information or have Policies and Procedures in place to address these requirements, Mr. Him violated NRS 639.210(4) and/or NAC 639.725 and/or 639.945(1)(i).

THIRD CAUSE OF ACTION

X.

In owning and operating the pharmacy in which Mr. Him and Mr. Williamson
committed the above violations, Walgreens #07841 violated NRS 639.210(4) and/or NAC 639.945(1)(i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of the Respondent.

Signed this 15th day of December, 2011.

Larry L. Pinson, Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements regarding your certificate of registration. 8. As to Paragraph VIII, First Cause of Action, respondent JASON WILLIAMSON does not contest these assertions at this time on lack of knowledge or recollection of this allegation. Respondent asserts in Respondent's defense and in mitigation the following factors that support this response:

   Pharmacist Williamson asserts that he was not responsible for the filling and validation of the baker cells. Upon information and belief, the procedures and policies of Walgreens are clear as to Baker Cell logs or labeling requirements as well obligations of the pharmacist for verification of medications used to refill Baker Cell. Walgreens Policies and Procedures are also clear regarding verifying and dispensing of medications to patients as well as obligations of the pharmacist for accuracy. It is believed the inattentiveness of the Pharmacist by not verifying what medications were dispensed contributed to this error. It is also believed the inaction of the Pharmacist by not maintaining a log or labeling the Baker Cell device drawers with the required information as per Walgreen’s Policies and Procedures contributed to the errors. At all times, Walgreens has had in place Policies and Procedures to address these requirements. As to Walgreens, the systems, Policies, and Procedures to catch such errors are in place and have proven effective over time. As such, Walgreens has fulfilled its licensing obligations.

WHEREFORE, Respondent(s) request a hearing on this matter to determine what transpired and the factual circumstances surrounding the alleged incidents, so as to address mitigating circumstances, as well as to receive direction to take corrective actions to avoid such an incident from occurring in the future. IN THE ALTERNATIVE, and as the Board may agree, Respondent(s) will attempt to come to a Stipulated Agreement of Action with the Board’s Staff prior to any hearing and make a presentation to the Board regarding an agreed course of corrective action and where necessary disciplinary action.

Certificate of Registration No: #15858 Case No. 11-092B-RPH-S

PATHWAY SPECIALITY COMPOUNDS, 
Certificate of Registration No: PH02590, Case No. 11-092-PH-S

Respondents.

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondents Michelle Badten, Kenton Crowley and Timothy Brown are pharmacists licensed by the Board and Respondent Pathway Specialty Compounds (Pathway) is a pharmacy licensed by the Board, located at 2560 E. Sunset Rd., #120, in Las Vegas, Nevada. At all times relevant to this matter, Respondent Brown was the managing pharmacist for Pathway.
II.

On October 14, 2011, a complaint was filed with the Nevada State Board of Pharmacy by Tony Frederick from the Southern Nevada Health District, Office of Epidemiology. The complaint was based on a report filed by Dr. Fleming Fuller Royal, M.D., H.M.D, who reported nine of his patients presented themselves sick after receiving calcium gluconate intravenously at Dr. Royal’s practice, the Nevada Clinic. Dr. Royal had reported that three of his patients had gone to the hospital for treatment, with two being admitted to the hospital and one being treated at the emergency room and released. The remaining patients were treated as outpatients.

III.

Dr. Royal had treated one patient with calcium gluconate intravenously on September 26, 2011 and the eight other patients on September 27, 2011. The calcium gluconate that Dr. Royal had administered intravenously had been compounded by and obtained from Pathway. Dr. Royal reported that on September 28, 2011, the nine patients presented themselves to him sick, all having similar symptoms such as nausea, chills, diarrhea, weakness, aches and fever. Dr. Royal diagnosed all nine patients as having “IV Sepsis.” Dr. Royal reported the incident to Pathway and Respondent Crowley obtained three vials of 100 ml preservative-free calcium gluconate. Dr. Royal reported that one vial compounded and provided by Pathway had been used and that two other vials were sealed and unused. Dr. Royal stated that the one used vial and one of the sealed vials were sent to Clinical Pathology Laboratories and that both the used and the unused vials tested positive for Gram Negative Bacilli. A specific microorganism was not identified in the testing. Once Dr. Royal was certain that the source of the contamination had come from Pathway, as both the sealed and
opened vials were infected, he returned to Pathway and obtained one of the unopened 100 ml vials of calcium gluconate so he could have it tested to learn the specific bacteria within the vials. Dr. Royal shipped the vial to an out-of-state laboratory for further testing, but the vial broke in transit and it was not able to be tested.

IV.

Board Staff questioned Respondent Brown who stated that the calcium gluconate provided by Pathway to Dr. Royal was found to be contaminated. Respondent Brown told Board Staff that Pathway recovered three 100 ml vials of calcium gluconate from Dr. Royal’s office: two of the vials were sealed and unopened and one was opened and almost empty. Respondent Brown confirmed that Pathway had sent one open vial and one unopened vial to Clinical Pathology Laboratories to be tested and showed Board Staff the results that showed both vials tested positive for Gram Negative Bacilli. Respondent Brown stated that the calcium gluconate powder that was used to compound the calcium gluconate for Dr. Royal was obtained from Letco and that Respondent Crowley was involved in the compounding of the products.

V.

Respondent Brown was told by Respondent Crowley that the calcium gluconate that was provided to Dr. Royal was compounded in 100 ml preservative-free vials. Respondent Brown stated that Respondent Crowley could not provide him with a reason why 100 ml preservative-free vials were sent to Dr. Royal. Respondent Brown reported to Board Staff that Respondent Crowley told him that Dr. Royal intended to administer 10 ml doses drawn from each vial so as to serve at least 10 patients per 100 ml vial. Respondent Brown stated that it was his opinion that a
preservative-free 100 ml vial should be used for a single use only and not multi-dose. Respondent Brown stated that he was not aware that these vials were being compounded for Dr. Royal until the contamination was discovered.

VI.

Board Staff contacted Renee Swain, RN, a nurse employed at the Nevada Clinic to understand how the 100 ml vials of the compounded calcium gluconate were used to treat the patients at the Nevada Clinic. Nurse Swain admitted that she did not know that the 100 ml vials of calcium gluconate were preservative-free and should only have been used as single dose vials. Nurse Swain stated that she had routinely used other preservative-free injectables for multi-dose use.

VII.

Board Staff contacted Respondent Crowley who said it was Nurse Swain who would typically contact him telephonically to order the compounded products that would be administered at the Nevada Clinic. Respondent Crowley stated that he always provided preservative-free vials to Dr. Royal. When asked why he would provide Dr. Royal with preservative-free multi-dose vials and not single-use vials, Mr. Crowley said he was simply filling the order that had been requested by the clinic. Respondent Crowley was not aware if the Nevada Clinic had the proper equipment to make sterile use of the multi-dose vials.

VIII.

Respondent Crowley explained to Board Staff that he had a discussion with Alex Hendrix, PT, regarding the compounding of the calcium gluconate and the difficulties with compounding the 5% and 10% calcium gluconate solutions because the product always precipitated out, usually within 24 hours of making the product. Respondent
Crowley stated that there was a shortage of calcium gluconate and at one point he attempted to compound the calcium gluconate based on an urgent request from Dr. Royal. Respondent Crowley stated that at least three 100 ml vials were made and provided to Dr. Royal but added he could not recall if he was the pharmacist who delivered the product to the Nevada Clinic. Respondent Crowley said that several days after the product had been delivered to the Nevada Clinic, Pathway got a telephone call from the Nevada Clinic regarding adverse reactions that patients were having to the calcium gluconate. Respondent Crowley stated that he went to the Nevada Clinic and met with Dr. Royal and took three vials back to Pathway, one opened and two unopened, and the one open vial and one of the unopened vials were sent in for testing. Respondent Crowley reported to Board Staff that both vials tested positive for Gram Negative Bacillus. In his written statement to Board Staff, Respondent Crowley acknowledged that he must have been the pharmacist who delivered the three vials of calcium gluconate to the Nevada Clinic.

IX.

Mr. Hendrix stated to Board Staff that he began working as a pharmaceutical technician at Pathway in March of 2011, and in April of 2011 calcium gluconate became unavailable. Mr. Hendrix recalled that Respondent Crowley presented him with the work sheet for calcium gluconate but the product was never successfully compounded. The calcium gluconate used was purchased from Letco and did not indicate on the label that it was intended for use by injection. Mr. Hendrix told Board Staff that Respondent Crowley had researched why the compounding had failed, and Respondent Crowley discovered that they had been using the wrong ingredients to compound the calcium gluconate. Respondent Crowley discovered that calcium
gluconate USP anhydrous for injections and calcium saccharate were the products needed, whereas the calcium gluconate he had obtained from Letco and had been using was a dietary supplement intended for oral dosing. In May 2011, both of the correct products were ordered from PCCA. According to Mr. Hendrix, Respondent Crowley wrote on the calcium gluconate from Letco, "Do not use for injection". Mr. Hendrix told Board Staff that later, the correct form of calcium gluconate again became unavailable and the correct ingredient that had been obtained from PCCA was on back order.

X.

Mr. Hendrix stated to Board Staff that he overheard the conversation between Respondent Crowley and Nurse Swain making the order for the calcium gluconate for the Nevada Clinic. According to Mr. Hendrix, Respondent Crowley contacted Letco and obtained instructions from Letco to bring the calcium gluconate almost to a boil which would cause the powder to liquify. Thereafter, Mr. Crowley directed Mr. Hendrix to compound the calcium gluconate using the calcium gluconate from Letco on which Respondent Crowley had earlier written, "Do not use for injection." Alex Hendrix stated he pulled the work sheet for the calcium gluconate and entered the information into the computer system.

XI.

Board Staff learned from Respondent Brown that when a lot number was entered into the Pathway computer system, it would change all the history (lot numbers) within the system for any of that specific product previously compounded. Respondent Brown stated when Mr. Hendrix pulled up the worksheet; he failed to check the lot
number and also failed to manually record the proper lot number on the worksheet. Respondent Brown further stated the approving pharmacist should have caught the discrepancy at the time the product was approved.

XII.

On September 21, 2011, Mr. Hendrix compounded the calcium gluconate 100 ml vials for the Nevada Clinic using the Letco calcium gluconate ingredient that was not intended for injectable use. Mr. Hendrix spent seven hours heating the product in order for it to clear. According to Mr. Hendrix, when he told Respondent Crowley the product had cleared, it made Respondent Crowley very happy. Mr. Hendrix told Respondent Crowley that they should wait a few days before using the product to see if the product would actually stay in solution. Mr. Hendrix stated that after the product had cooled to room temperature, he filtered it and labeled the 100 ml vials. Mr. Hendrix stated that the worksheet he made up was for 1,000 ml but he ended up with only 800 ml because he had spilled part of the solution.

When Board Staff asked where in the pharmacy Mr. Hendrix had compounded the calcium gluconate, he indicated an area in the pharmacy that had been previously inspected by Board Staff on August 30, 2011 and was found not to be compliant with Nevada law with respect to sterile compounding and advised not to be used for sterile compounding. Then Mr. Hendrix stated that he left for the day and when he saw the vials he had compounded the following day, he observed three of the 100 ml vials were missing. It was Mr. Hendrix’s opinion that Respondent Crowley was the only person who could have delivered the three 100 ml vials of calcium gluconate to the Nevada Clinic.
XIII.

Respondent Badten confirmed to Board Staff that she heard Respondent Crowley direct Mr. Hendrix to compound the calcium gluconate around September 20, 2011 and that she had been the pharmacist to verify the compounded product. Ms. Badten recalled that Mr. Hendrix had compounded the calcium gluconate as directed by Mr. Crowley and had documented the directions given to him by Mr. Crowley on how to compound the product. Ms. Badten stated Mr. Hendrix produced three 100 ml vials for her to verify and she checked the math on the worksheet, verified that the labels matched what was on the formula log, checked that the consistency was clear, and then she signed the log sheet. Ms. Badten also recalled Mr. Hendrix telling Mr. Crowley that they should wait a few days before using the product to see if the product remained in solution. Ms. Badten stated that at no time did she see the raw products used in the compounded product, nor did she see them at the time she reviewed the three vials and the compounding worksheet for verification.

Pursuant to an uncodified regulation that became effective on September 18, 2008 identified by the Legislative Counsel Bureau as R035-06 (hereinafter R035-06), Section 15 defines “High-risk sterile compounded drug product” to mean a sterile compounded drug which is compounded by a pharmacist or a pharmaceutical technician and satisfies the requirements set forth in section 45 of this regulation. Section 45 of R035-06 states that a compounded drug product is a high-risk sterile compounded drug product if the compounded drug product is required to be sterile for its effective administration, the sterile compounded drug product is contaminated with or at a high risk of becoming contaminated with infectious microorganisms and if one or more of the ingredients or devices used in the compounding process are
non-sterile or one or more of the ingredients or devices used in the compounding process were sterile but were exposed or are suspected of having been exposed for more than 1 hour to an air quality inferior to an ISO Class 5 environment. In this case, the calcium gluconate product compounded at Mr. Crowley’s direction by Mr. Hendrix and verified later by Ms. Badten was a high-risk sterile product pursuant to Section 45 of R035-06.

Section 47 of R-35-06 requires that all sterile high-risk products must be batch tested, meaning that before the product can be administered to a patient it must be tested for sterility and endotoxins. Board Staff’s investigation revealed that the batch of calcium gluconate that was eventually provided by Mr. Crowley to Dr. Royal for administration by Dr. Royal to his patients had not been batch tested.

FIRST CAUSE OF ACTION

XIV.

In using an ingredient in the compounded calcium gluconate injectable that was labeled as a dietary supplement for oral use (not for compounding in an injectable form), Mr. Crowley violated NRS 639.210(4) and/or (12) and NAC 639.945(1)(a).

SECOND CAUSE OF ACTION

XV.

In failing to batch test the calcium gluconate prior to providing the product to Dr. Royal for administration to patients, Mr. Crowley, Mr. Brown, Ms. Badten, and Pathway violated NRS 639.210(4) and/or (12) and Section 47 of R035-06 and/or NAC 639.945(1)(i).
THIRD CAUSE OF ACTION

XVI.

In compounding calcium gluconate product in 100 ml preservative-free vials to be sold to a physician’s office for multi-dose use, Mr. Crowley and Pathway violated NRS 639.210(4) and/or (12) and NAC 639.945(1)(a) and/or (i)

FOURTH CAUSE OF ACTION

XVII.

In failing to keep accurate records reflecting the products and method of preparation for the compounded calcium gluconate, Mr. Brown and Pathway violated NRS 639.210(4) and/or (15) and/or Section 31 of R035-06 and/or NAC 639.914 and/or 639.945(i).

FIFTH CAUSE OF ACTION

XVIII.

In compounding the calcium gluconate, a high-risk sterile product, in an area of the pharmacy that Board Staff had previously indicated could not be used for that purpose until it complied with Section 36 of R035-06, Mr. Brown, Mr. Crowley and Pathway violated NRS 639.210(4) and/or NAC R035-06, Sec. 36 and NAC 639.945(1)(i).

SIXTH CAUSE OF ACTION

XIX.

In failing to verify the correctness of the entirety of the compounding of the calcium gluconate as prepared and presented to her by Mr. Hendrix, especially where the label would have reasonably indicated that the order might be incorrect, Ms. Badten violated NRS 639.210(4) and/or NAC 639.245(2)(b) and (c), and/or NAC 639.467(3),
and/or 639.945(1)(i).

SEVENTH CAUSE OF ACTION

XX.

In owning and operating the pharmacy in which all of the above factual allegations and legal violations occurred, Pathway violated NRS 639.210(4) and NAC 639.945(1)(i) and (2) and/or all other legal violations alleged in the First through Sixth Causes of Action.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of the Respondents.

2. That, in answer to the Notice of Intended Action and Accusation, he admits, denies and alleges as follows:

First Cause of Action: False, the label on the bottle of Calcium Gluconate Anhydrous, USP, does not state anything to the fact that it is only for dietary supplements. The statement and conclusion is not factual and miss-represented by this Action.

Second Cause of Action: False, I personally used the Letco broth media used for Injectable batch testing for this product. A process was put in place to obtain the correct test media for this particular product.

Fourth Cause of Action: No Comment

Case #’s 11-092A-RPH-S, 11-092B-RPH-S, 11-092C-RPH-S, 11-092-PH-S

First: No objection

Second: Object on the grounds that there was no requirement to batch test the Calcium Myself, Ms. Badten and Pathway Pharmacy had no obligation to batch test the product as USP 797 clearly excludes under these circumstances. There was no violation of NRS 639.310(4), NAC 639.945 or R035.36. Additionally, Pathways has a policy and practice for proper batch testing as required under USP 797. Documentation of Policy and procedure as well as log were provided to inspectors. However, Mr. Crowley by removing these items from the pharmacy with the knowledge that they would be used in such a manner as to be for multi-use without disclosing that, is guilty of unprofessional behavior.

Third: The transaction was handled at every step by Mr. Crowley acting completely outside the authority and established Policies and Procedures of Pathway Pharmacy.

Fourth: As explained to the Board inspectors, our software program precludes the changing of any one product without changing the entire electronic history of that product’s compounding logs. As this particular compounding was to be an ‘experiment’ based on information received by wholesaler it was not certain it would work. A new formula was not generated. This product was not to be used until it was known that it would successfully stay in solution. At that time a new formula would be created. Mr. Crowley by absconding with the product without anyone else’s knowledge and not giving an appropriate settling out period is solely guilty of this violation.

Fifth: Object on multiple grounds. Product was not compounded in an unapproved area of the pharmacy. Only the filtration stage was done in the cleanroom in question and we had received approval to do sterile transfers in that room. Additionally, the area was restricted from high risk compounding base on a misinterpretation of USP 797 on behalf of the Board Inspectors. The required buffer area referred to in USP 797 refers to the class 7 room wherein the class 5 hood resides. This clause was included to prohibit the practice of many hospitals and mom and pop shops of having a class 5 hood in the middle of a non sterile room. We also provided documentation that area immediately outside cleanroom meets class 8 standards, the only requirement for an anteroom.

Sixth: Object to statement, “where the label would have reasonably indicated that the order might be incorrect.

Seventh: Pathway has strict policies and procedures in place regarding the compounding of medications that are in compliance with USP 795 and 797 standards. Mr. Crowley not only refused to comply with these standards, he threatened and intimidated others into non compliance. He is delusional and convinced others that he was on owner of the pharmacy. He used deception, volatile outbursts, verbal and even physical abuse to get his way. His behavior is solely behind every cause of action. The Board is well aware of Mr. Crowley’s non-compliance to rules and inability to exercise good judgment for any period of time. I am sure that they can also be sympathetic to our giving Mr. Crowley more chances than he deserved. As long as Mr. Crowley is allowed to practice pharmacy, he will be a jeopardy to the public, his employers, co workers and himself.
In Summary

As Pathway had the Policies and Procedures in place and under Mr Brown’s leadership were being introduced and enforced, the problem lay solely in Mr Crowley’s rogue behavior. Whether out of spite or malice or plain recklessness, Mr. Crowley refused to follow the rules and threatened and intimidated other employees when they did. The solution was to remove Mr Crowley from service. It is with great respect and admiration that I applaud the Board in enforcing this higher level of standards for compounding pharmacy practice. Perhaps a bit overdue, as I sat on the committee which reviewed USP 797 and worked on incorporating it into all pharmacy practices back in 2007. The standards were originally to have taken effect in 2008. At Pathway pharmacy we strive to be a model compounding pharmacy and have and will continue to cooperate with the Board of Pharmacy in all matters pertaining to meeting this end.

NOTICE OF INTENDED ACTION AND ACCUSATION

Case Number 09-108-MDEG-S

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Western Home Care is a medical device, equipment and gas provider licensed by the Board, located at 4035 East Post Road, Las Vegas, Nevada.

II.

On or about November 19, 2009 Board staff received a complaint from Rita and John Perrini. Dr. George Tu ordered an oxygen concentrator for Mr. Perrini from Western Home Care to treat sleep apnea. Board staff identified differences in the date sequence of events received from Ms. Perrini and what was found during the investigation by Board staff. The sequence of events used in this document are derived from the dates Board staff determined to be correct. Western Home Care employee, Al Lecther, delivered Invacare oxygen concentrator #05LF017030 on July 18, 2008. On
July 29, 2008, Torrey Tracy, an employee of Western Home Care, serviced the oxygen concentrator in the Perrini’s home. On December 23, 2008 Ms. Perrini contacted Western Home Care and alleged that Mr. Perrini was ill and asked that someone service Mr. Perrini’s oxygen concentrator. Mr. Lechter went to the Perrini’s home on December 26, 2008 to service the oxygen concentrator. Mr. Lechter found the air flow to be below the standard 92% and proceeded to check the filters. Mr. Lechter discovered that the internal air filters were dirty and he replaced them. He also noticed that the oxygen concentrator had not been serviced since July, 2008. Ms. Perrini telephoned Western Home Care on January 26, 2009 and requested a new oxygen concentrator for Mr. Perrini because she alleged that Mr. Perrini’s condition had worsened and she feared the dirty filters found in the oxygen concentrator they have in their home may have been the cause of her husband’s illness. On January 29, 2009, Mr. Lechter picked up the Invacare oxygen concentrator #05LF017030 and replaced it with Invacare oxygen concentrator #IPX041880846.

III.

During the investigation of this matter, Board staff requested records for the two oxygen concentrators from Heath Hairr, the facility administrator and respiratory therapist for Western Home Care. It was determined that oxygen concentrators in Western Home Care’s stock were purchased from Invacare, however Western Home Care did not purchase oxygen concentrator IPX041880846 from Invacare. Records from Invacare indicate that oxygen concentrator #IPX041880846 was sold to accompany in Ohio or Florida and Mr. Hairr was uncertain how it got into their stock.
IV.

Board staff reviewed the Concentrator Maintenance/Tracking Record for oxygen concentrator #IPX041880846. Board staff compared the maintenance/tracking record with the Rental Item History Report for oxygen concentrator #IPX041880846. The records did not match from November 10, 2008 through January 13, 2009. The rental report showed that oxygen concentrator #IPX041880846 had been rented to two different patients between those dates and the maintenance/tracking report did not reflect proper service during this timeframe. On November 6, 2008 the hours of use on the maintenance/tracking record for oxygen concentrator #IPX041880846 was 5111. This oxygen concentrator was rented to Patient 1 on November 10, 2008 and returned to Western Home Care on November 25, 2008. Oxygen concentrator #IPX041880846 was then rented again to Patient 2 on December 4, 2008. The maintenance/tracking record did not indicate that the oxygen concentrator was returned on November 25, 2008 or serviced before it was rented again on December 4, 2008. Oxygen concentrator #IPX041880846 was returned from Patient 2 on January 13, 2009. The maintenance/tracking record indicated that on January 15, 2009 there were 5348 hours of use. Oxygen concentrator #IPX041880846 was delivered to Mr. Perrini on January 29, 2009 and the sticker on the oxygen concentrator indicated there were 5111 hours of use on #IPX041880846 even though Western Home Care maintenance/tracking record or January 15, 2009 show 5348 hours of use.

V.

Board staff was provided with a copy of Western Home Care’s Concentrator Maintenance/Tracking Record for oxygen concentrator #05LF017030 that was provided to Ms. Perrini’s attorney by Ms. Perrini. Board staff also requested a copy of Western
Home Care's Concentrator Maintenance/Tracking Record for oxygen concentrator #05LF017030 from Mr. Hairr. On the attorney's copy, under the Filter Replaced section for 7/9/08 there is a "dash" in the space which would indicate that the filter had not been replaced. On Board staff's copy of the same entry there is a "y" in the space which would indicate that the filter had been replaced.

VI.

Board staff was provided with two copies of identical clinical notes by Western Home Care that reflected the service provided for oxygen concentrator #05LF017030 in the Perrini's home. One is clearly dated "12-26-09", however on the second copy, the date appears to have been altered from "08" to "09".

FIRST CAUSE OF ACTION

VII.

By failing to keep accurate maintenance records, Western Home Care violated NRS 639.210(4) and/or NAC 639.945(1)(i) and/or (2).

SECOND CAUSE OF ACTION

VIII.

By providing equipment that had not been verified or checked to be free of defects and operating within the specifications of the manufacturer, and not modified in any way that would jeopardize the effectiveness or safety of the equipment, Western Home Care violated NRS 639.210(4) and/or NAC 639.945(1)(i) and/or 639.6954(2) and/or 639.6941(1)(a) and/or (2).
THIRD CAUSE OF ACTION

IX.

By providing two identical sets of documents with two different sets of dates to Board staff as part of this investigation, Western Home Care violated NRS 639.210(4) and/or NAC 639.945(1)(h) and/or 639.6941(1)(a).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the licenses or registrations of the Respondents.

Signed this 15\textsuperscript{th} day of March, 2012.

Petitioner, ORDER DENYING REQUEST FOR REINSTatement

v. Case No. 08-035-PT-S

SHAMIKA R. BANKS, P.T., Certificate of Registration #PT07533

Respondent.

This matter was originally heard by the Nevada State Board of Pharmacy
(hereinafter Board) at its regular meeting on July 16, 2008 in Las Vegas, Nevada. The
Board was represented by Louis Ling, General Counsel, and Ms. Banks did not appear
and represent herself. On August 14, 2008, the Board issued Findings of Fact,
Conclusions of Law, and Order. The Board’s Order revoked Ms. Banks pharmaceutical
technician registration and banned her from employment in any business registered by
the Board in any capacity until she had been reinstated by the Board and that she
return her registration certificate within 10 days of her receipt of the Order and her
failure to do so results in a fine of $1,000 per day until the registration certificate is
received by the Board office. At the time of the Board’s order it was known that Ms.
Banks had been taken into custody by the North Las Vegas Police Department but the
results of that was unknown.

On December 30, 2010, Ms. Banks sent an email requesting an appearance
before the Board seeking reinstatement of her pharmaceutical technician registration.
Pursuant to NRS 639.257, a hearing was held on Ms. Banks’ request for reinstatement
on January 12, 2011. At the January 12, 2011 hearing, Ms. Banks attempted to explain
that she had gone to court and was put on two years’ probation, remanded to a court
ordered treatment program, including substance abuse classes. Ms. Banks indicated that she is currently working for Allstate Insurance as a file clerk. Ms. Banks had no information on the treatment program she completed or of sentencing information from the court to verify her assertions. When the Board questioned Ms. Banks about the court ordered treatment program she denied she had a substance abuse problem and seemed confused. Ms. Banks testified that she had been dependent on hydrocodone but she was not anymore. Ms. Banks was advised that if she wanted her pharmaceutical technician registration reinstated she would need to provide the Board with documentation of her court order and completion of the substance abuse program that she completed before the Board could make a decision on her reinstatement.

Based upon Ms. Banks presentation and demeanor at the hearing on January 12, 2011, we find that reinstatement of Ms. Banks' pharmaceutical technician registration is not in the public interest at this time. Too many issues regarding Ms. Banks court order and the substance abuse treatment program she completed remain unknown or unaddressed for this Board to adjudge Ms. Banks to be competent and safe to serve the public at this time. Though Ms. Banks did appear and testified without the documentation from the court and substance abuse treatment provider it does not yet appear that the Board can judge her to be truthful and honest in her statements. Consequently, we hereby decline to reinstate Ms. Banks pharmaceutical technician registration PT07533. Ms. Banks may apply again for reinstatement when she determines that she has resolved or addressed the Board's concerns.

SHAMIKA R. BANKS, P.T.,

Case No. 08-035-PT-S

Respondent.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on July 16, 2008, in Las Vegas, Nevada. The Board was represented by Louis Ling, General Counsel to the Board. Though the Board's records show that Ms. Banks received the Notice of Intended Action and Accusation in this matter, Respondent Shamika R. Banks did not appear at the hearing of this matter. Based on the presentation of Board Staff and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On June 3, 2008, Board Staff was notified that Ms. Banks had been terminated from her employment as a pharmaceutical technician at Walgreens #5814, located at 1445 West Craig Road, Las Vegas, Nevada. In a voluntary written statement she provided to Walgreens' loss prevention personnel, Ms. Banks admitted that she had originally made up a prescription for a fictitious patient she called "Maria Lopez," chosen because it was a common name. Ms. Banks admitted that she had illegally added refills to the fictitious prescription. Ms. Banks asked pharmaceutical technician Rasel-Lian Pablo to add a refill to the "Maria Lopez" prescription for 180 dosage units of
hydrocodone 10/500 that had no refills, and she told Mr. Pablo that she would pay him $40.00 to do this.

2. When the fictitious prescription was picked up, the identification of the person picking it up did not match the name on the prescription. It was determined that the person picking up the prescription was a friend of Ms. Banks as there was no “Maria Lopez.” The following day, Ms. Banks drove her car through the drive-up window at Walgreens #5814 and gave Mr. Pablo the $40.00 she had promised to pay him.

3. After Ms. Banks was terminated, she was taken into custody by the North Las Vegas Police Department. As of the date of the hearing of this matter, it was undetermined what the result of Ms. Banks’ arrest was.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Ms. Banks is a pharmaceutical technician registered by the Board.

2. In obtaining controlled substances for a friend, namely 180 dosage units of hydrocodone 10/500, without a lawful prescription, Ms. Banks violated NRS 453.331(1)(d), 453.336(1), 453.338(1), 639.210(1), (4), and (12) and NAC 639.945(1)(g) and (h).

ORDER

Based upon the foregoing, the Board imposes the following discipline:

1. Ms. Banks’ pharmaceutical technician registration (PT07533) is revoked. Ms. Banks may not be employed in any business registered by the Board in any capacity unless and until her registration as a pharmaceutical technician has been reinstated.
2. Ms. Banks shall return to the Board's Reno office her registration certificate within 10 days of her receipt of this Order. Her failure to do so will result in a fine of $1,000 per day until the registration certificate is received by the Board office.

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

CYNTHIA BLAKE, P.T.,
Certificate of Registration #PT00182,

Case No. 03-027-PT-S

Respondent.

THIS MATTER was heard by the Nevada State Board of Pharmacy (hereinafter Board) at its regular meeting on October 15, 2003 in Reno, Nevada. The Board was represented by Louis Ling, General Counsel to the Board. Respondent Cynthia Blake did not appear at the hearing. Based on the presentation of the General Counsel and the public records in the possession and control of the Board, the Board issues the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. Board staff demonstrated that Ms. Blake had been properly served with the Notice of Intended Action and Accusation in this matter and that she had responded to Board staff after receiving it. No explanation was tendered for Ms. Blake’s absence, nor did she request a continuation of the matter. Board staff presented the testimony of Geri Raj, managing pharmacist for Kmart #3592. Based upon the testimony of Ms. Raj and the presentation by the General Counsel, the Board finds the following to be the facts of this matter.

2. On March 28, 2003, Board staff received a notice that Ms. Blake had been terminated from her employment as a pharmaceutical technician from Kmart #3592.
3. Ms. Raj testified regarding the basis for Ms. Blake's termination was that on February 18, 2003, Dr. Nacer Abelsayed had contacted the managing pharmacist for Kmart #3592 to inquire from whom his patient, MB, was getting prescriptions for Lortab. Ms. Raj checked the pharmacy's computer and found that MB's prescription had been filled five times between December 2002 and February 2003. Dr. Abelsayed had indicated his concern because neither he nor any member of his staff had approved refills of Patient MB's Lortab prescriptions. When Dr. Abelsayed asked Mr. Raj to pull the hard copy of the prescription, Ms. Raj was unable to located any hard copy of the prescription.

4. As a result of her call with Dr. Abelsayed, Ms. Raj spoke with Ms. Blake regarding MB's Lortab prescriptions. Ms. Blake admitted to Ms. Raj that she, Ms. Blake, had filled one of MB's prescriptions on February 13, 2003 without having the hard copy based upon MB's representation that she would bring the hard copy with her when she picked up the prescription. MB did not bring the prescription with her, so no hard copy was ever received for that prescription and placed into the pharmacy's records. Ms. Blake dispensed the prescription to MB without ringing the transaction through the pharmacy's cash register. Ms. Raj detailed her efforts to work with Ms. Blake to find the missing prescriptions and to otherwise resolve the concerns raised by Dr. Abelsayed, but ultimately Ms. Raj was unable to resolve the concerns. Ms. Raj identified five prescriptions for controlled substances where the pharmacy's records show that Ms. Blake was responsible for the orders for which no written order could be located and which Dr. Abelsayed disavowed.
CONCLUSIONS OF LAW

1. The Board has jurisdiction over this matter because Ms. Blake is a pharmaceutical technician registered by the Board.

2. In creating five false and fraudulent prescriptions for controlled substances for MB without authorization of MB's physician, Ms. Blake violated NRS 453.321(1), 453.331(1)(f), and 639.210(4) and (12) and NAC 639.945(1)(g), (h), and (i).

3. In being repeatedly negligent as evidenced by the prior disciplinary action against Ms. Blake, Ms. Blake violated NRS 639.210(4) and (16) and NAC 639.945(1)(d).

ORDER

Based upon the foregoing, the Board hereby orders the following:

1. Ms. Blake's pharmaceutical technician's registration (#PT00182) is revoked. Ms. Blake may not be employed in any business or facility licensed by this Board in any capacity unless and until her registration as a pharmaceutical technician has been reinstated.

2. Ms. Blake shall return to the Board's Reno office her wallet card within 10 days of her receipt of this Order. Her failure to do so will result in a fine of $1,000 per day until the wallet card is received by the Board office.

Signed and effective this 13th day of November, 2003.

Re: Request for Reconsideration of Medco’s PVSV Process

Dear Ms. Cramer:

This firm represents USW Local 675, which represents pharmacists employed by Medco Health Solutions, Inc. Medco pharmacists have serious concerns regarding Medco’s Pharmacist Validation System Verification (“PVSV”) process, which was approved by the Nevada Board of Pharmacy in September 2011. I write to request that the Board reopen the matter for reconsideration at another Board meeting at which Medco pharmacists may be permitted to offer testimony regarding the PVSV process.

Medco pharmacists object to use of the PVSV process to fill prescriptions because (1) it is not a “computerized system” within the meaning of Nevada’s Administrative Code and Revised Statutes, and (2) it involves the preparing, packaging, and labeling of prescription drugs by pharmaceutical technicians without supervision or final inspection by a pharmacist, in violation of applicable statutes and regulations.

Despite Medco’s representations to the Board that its PVSV process is merely “an extension of its automated process,” it is not. The PVSV process is a manual system of filling prescriptions, which uses pharmaceutical technicians instead of automated technology. By Medco’s own admission, the PVSV process uses a “technician pick process,” which requires a technician to:
• Scan the bar code on the literature pack;
• Verify the name, strength, and expiration date of the product;
• Scan the bar code on the product and print the patient label;
• Check the patient label and verify the drug name, strength, quantity, and expiration date;
• Apply the label to the product; and
• Scan the bar code on the patient label to complete the process.

Although Medco represented to the Board that, as the final step in the PVSV process, “the pharmacist completes the product verification for the technician-picked products,” see PowerPoint slides attached, that is not the case. Medco’s PVSV process does not involve direct supervision of technicians or final verification of technician-picked products by a pharmacist.

As you know, Nevada’s Administrative Code imposes certain limitations on the duties that pharmaceutical technicians may perform. NAC 639.245 allows pharmaceutical technicians to prepare, package, compound, and label prescription drugs as long as they are directly supervised by a pharmacist and the pharmacist inspects the final product. This is consistent with other regulations which govern the use of computerized systems to fill prescriptions. NAC 639.940 through 943 permit the use of “an automated device operated by a computer” to dispense prescription drugs. Clearly, Medco’s PVSV process, which uses pharmaceutical technicians to fill prescriptions, does not satisfy the criteria for a computerized system.

Medco pharmacists have a vested interest in ensuring that any process used to fill prescriptions complies with applicable statutes and regulations because, pursuant to NAC 639.252, pharmacists – and not pharmaceutical technicians – are ultimately responsible for all filled prescriptions. In addition, it bears noting that any pharmacy that requires or allows a pharmacist to use the services of a pharmaceutical technician in violation of applicable regulations may be subject to disciplinary action. NAC 639.260.

Therefore, we respectfully request that the Board reopen the matter of Medco’s PVSV process for reconsideration at the next Board meeting and permit Medco pharmacists to offer testimony regarding their objections to the PVSV process. Please contact me if you have any questions. Thank you in advance for your consideration.

Very truly yours,

MEDCO COMPUTER-ASSISTED DISPENSING SYSTEM (PVSV)

Pursuant to NAC 639.940 through NAC 639.943, Medco Health Solutions Pharmacy in Las Vegas has approached staff with a request for approval of their PVSV system, which is essentially an extension of their automation process. The intent of these regulations is to allow technological improvement in automated systems.

Pursuant to NAC 639.9405 (Authority to use system) at staff's request, and in keeping in compliance with the regulations, Medco conducted a metrics study (over 700,000 dispenses) to verify accuracy of the system and has demonstrated the system for staff. Details of the metrics follow.

It is staff's opinion that the Medco PVSV system meets the intent of our regulations and that it has verified accuracy through metrics. A Medco representative will be present to answer any questions that the Board may have with respect to the system.

Dear State Board of Pharmacy,

My name is Earl Anthony Mertz, and throughout my 36 years in the profession of pharmacy, I have worked closely with many of California's finest pharmacists. I consider Jin Hong to be one of the most compassionate, knowledgeable, and honest members of our profession. For the whole time that Jin and I have been friends and have worked together, he has always showed respect for his fellow employees and patients, was never late for work, or presented a bad attitude. After 11 years time, I have come to know him well and I would strongly support him for licensure as a pharmacist.

In and out of the pharmacy, Jin conducts himself with integrity. He can be counted on not just to work hard, but to represent the profession of pharmacy in a positive light. I know of numerous occasions where patients have specifically mentioned what a joy it was to have Jin as their pharmacist. In fact, even to this day, many of the senior citizens of the first Walgreens pharmacy he started at still ask for him by name. His fluency in English, Spanish, Asian languages and his respectful and caring nature had a lasting impression on the older patients of the diverse community of Van Nuys, California. He is an extremely talented pharmacist with excellent communication skills and a strong moral compass.

For these reasons, I have no hesitation in recommending Jin Hong for licensure as a pharmacist.

If you would need any further details about Jin Hong, please do not hesitate to contact me.

Sincerely,

Earl A Mertz

Dear State Board of Pharmacy,

I have had the pleasure of knowing Jin Hong RPH for over two years since he started working at Your Drug Store Inc. in December of 2009. Jin was our full time staff pharmacist at Your Drug Store Inc. overseeing a large staff of clerks and technicians.

Jin Hong was one of the best pharmacists the store has ever seen in its thirty years. I consistently sought his critical analysis in pharmacy operations. Demonstrating astonishing initiative and motivation, Jin helped to re-engineer our company. Pharmacy software and security were modernized, workflow became streamlined. His efforts greatly increased productivity and happiness among our employees.

Jin routinely performed more than what was required for the position. He often worked weekends to meet emergency medication needs of our contracted skilled nursing facilities. Frustrated or hostile patients concerns were always calmly addressed. Whether he was educating younger or older patients, his patient consultations were extremely professional and caring. If any pharmacy should have the opportunity of hiring Jin, they would be very fortunate to gain an excellent pharmacist.

I continue to have a great friendship with Jin, and can say with absolute certainty that he is a good man. He is a good man that has made past mistakes unrelated to the profession of pharmacy. My entire family, William P. Altmiller RPH (my grandfather), William A. Altmiller RPH (my father), and I have worked with Jin and have never seen his previous mistakes affect his performance as a knowledgeable and compassionate pharmacist.

My family and I fully support Jin Hong. We highly recommend Jin Hong RPH for pharmacist licensure. He is a true asset to the profession of Pharmacy.

If you have any questions please contact me, William T. Altmiller RPH, at your convenience. I would be happy to discuss any questions you may have.

Sincerely,

Dear State Board of Pharmacy,

In the past I have made several mistakes.

In May 16th, 2006, I was convicted of a felony unlawful sex with a minor. It was a mistake for which I am very ashamed and will never repeat. I am not on parole or probation. I am not a registered sex offender.

In February 28th, 2008, I was convicted of a misdemeanor DUI. It was a mistake for which I am very ashamed and will never repeat. I am not on parole or probation. I no longer drink alcohol.

These previous mistakes have not affected my ability to perform as a pharmacist. I have included 2 letters of recommendation vouching for my moral character and performance as a pharmacist.

Thank you for your consideration of my application.

Question 3:

Robert L. Wilbur, Pharm.D., CPh, was the subject of an administrative complaint as the result of a routine pharmacy inspection of International Surgical Med Pharmacy, a community pharmacy, on August 15, 2001 (Case No. 2001-10799). Mr. Wilbur had been contracted by this pharmacy, through HealthCare Consultants Pharmacy Staffing Company, as a consultant to oversee the recasting of their business model and was acting as Pharmacy Manager during this period. At the time of the inspection, the pharmacy was undergoing remodeling and not conducting business. Due to the construction activities, the required signage was not properly posted, the pharmacy computer system was disconnected, and pharmacy paperwork and files were stored. No medications were in the facility and no prescriptions had been filled during this period. The Department of Health inspector viewed these occurrences as deficiencies since the pharmacy was considered “Active”. As a result Mr. Wilbur was found, as Pharmacy Manager, to be in violation of Chapters 456 and 465 Florida Statutes. Mr. Wilbur received an administrative fine of $1000 and required to attend a continuing education course reviewing Florida Pharmacy rules and laws. These terms were satisfied and his license returned to “Clear” in October 2003.

Please see attached Stipulation and Final Order.

DISCUSSION AND DETERMINATION – APRIL 2012

COUNSELING ON OTC MEDICATIONS

The question has been raised as to the “legality” of a pharmaceutical technician or pharmacy clerk making recommendations or suggestions to patients with regard to OTC medications. Empirically, the pharmacist, who has the proper training and education as well as access to their patient’s medication profiles, is the one who should be engaged in this activity, however given the fact that the Board of Pharmacy has no jurisdiction over OTC medications, does it violate any statute or regulation when a PT or clerk advises a patient? Further, who has jurisdiction over the thousands of stores who handle OTC medications, from convenience stores, to hotel gift shops, to grocery stores without pharmacies? Is it ok for an attendant at a gas station with a convenience store to advise a customer on an OTC medication, but not for a PT who works in a pharmacy?

The reality of the OTC world includes the facts that more and more previously Rx medications are going OTC; the FDA is considering releasing even more as a result of MTM by pharmacists; and OTC medications can be just as significant as legend drugs with respect to drug/drug interactions, drug/disease interactions, side effects, allergies and the like. Further, what about the liability aspect? Would a pharmacy tech or clerk be held to a higher standard than the convenience store clerk simply because they are in a pharmacy? Since this activity is not addressed in law, possibly store policy is the answer.

Re: Emergency Scheduling of Synthetic Cannabinoids  

Dear Mr. Pinson:

I am writing this letter in support of the proposed emergency scheduling of additional synthetic cannabinoid substances which were identified in the letter to you from LVMPD Sheriff Douglas C. Gillespie. For reference, Sheriff Gillespie’s letter was dated January 25, 2012, and identified the following substances for consideration; AM-2201, JWH-081, JWH-122, JWH-250, JWH-210 and AM0694.

As a reminder, the Department of Public Safety - Investigation Division supervises narcotic task forces throughout the State of Nevada which are comprised of participating members from federal, county and local police departments. These narcotic task forces primarily focus on criminal investigations concerning illicit and prescription controlled substance violations.

The sale and distribution of these synthetic cannabinoid products by vendors in Nevada implies a false sense of safety to potential users, especially young adults or children. My discussion with allied law enforcement agencies and information from within our agency suggests that synthetic cannabinoid products have caused illness and death to our citizens.

In closing, I strongly support legislation that protects our citizens from harm and reduces the unscrupulous profits generated from the sale of these harmful products. Failure to schedule these produces will hinder law enforcement efforts and result in further harm to our citizens.

Sincerely,

Elizabeth Conboy, Chief  
Investigation Division
