4. Request for Removal of Probation

Craig W. Moon, R.Ph.

Craig Moon appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Mr. Edwards explained that Mr. Moon's Nevada pharmacist license is currently on probation for violations related to disciplinary action taken against his Wisconsin pharmacist license. Mr. Moon currently resides in New Jersey. The New Jersey Board of Pharmacy (New Jersey Board) will not grant reciprocation of his pharmacist license until the probationary status of his Nevada license is removed, or he has successfully retaken the NAPLEX and New Jersey law examinations. Mr. Moon is requesting that the probationary status of his Nevada license be lifted.

In June 2007, the Nevada Board adopted a Stipulation and Order (Order) in Case 07-026-RPH-O to parallel the Wisconsin Board of Pharmacy's December 6, 2006, Final Decision and Order regarding Mr. Moon (Case No. LS0601191PHM). Mr. Moon was accused of working under the influence of alcohol while practicing as the managing pharmacist at a Wal-Mart store in Tomah, Wisconsin. The Wisconsin Board suspended Mr. Moon's pharmacist license for an indefinite period of time. Mr. Moon was ordered to participate in a drug and alcohol treatment program acceptable to the Wisconsin Board for a period of time to monitor his progress before he could apply for a stay of his suspension. In the June 2007 Order, Mr. Moon's Nevada license was placed on probation with conditions to include that he may not work in Nevada unless he appears before the Board, and provide the Board with written evidence that his license is no longer suspended in Wisconsin.

Mr. Moon allowed his Wisconsin pharmacist license to expire in June 2008. He had not fully complied with the Wisconsin Order prior to the expiration of his license. Mr. Moon said that the Wisconsin Board found him noncompliant with the Order as he utilized the Professional Assistance Program of New Jersey (PAPNJ) for drug screening, and not FirstLab, which was located forty miles from his home, as ordered by the Wisconsin Board. He utilized PAPNJ without the approval of the Wisconsin Board. The Wisconsin Board did not accept the drug and alcohol results from PAPNJ.

Mr. Moon said that he has not practiced pharmacy in seven years, but has completed up to forty plus continuing education hours annually. He addressed questions regarding two additional disciplinary actions taken against his Wisconsin pharmacist license in 1986 and 1997.

A lengthy Board discussion ensued including concerns regarding Mr. Moon's clinical competency. Board Staff informed the Board that NABP has a test available, the Pharmacist Assessment for Remediation Evaluation (PARE), which is an assessment tool that the boards of pharmacy may use when making decisions to determine if a pharmacist meets the standard of practice.
Board Action:

Motion: Leo Basch motioned to approve removing the probationary status of Craig Moon's pharmacist license pending Mr. Moon's successful passing of the PARE examination.

Second: No Second was offered.

Action: Motion Failed

Board discussion ensued regarding imposing additional conditions.

Board Action:

Motion: Leo Basch motioned to approve lifting the probationary status of Craig Moon's Nevada pharmacist license pending the successful passing of the PARE test within one-hundred and eighty (180) days.

Mr. Moon will be required to meet the following conditions to practice in a Nevada-licensed pharmacy:

- Complete a minimum of four weeks of on-the-job training supervised by another pharmacist before Mr. Moon will be allowed to work independently.
- He will not be permitted to work as a pharmacist-in-charge for six months.

Second: Kevin Desmond

Ayes: Basch, Desmond, Pederson, Dalton, Wentworth
Nays: Blomstrom

Action: Motion Carried

At the Board's request, Board Staff will notify the New Jersey Board of the Board’s action regarding Mr. Moon’s condition for licensure in Nevada.

5. Discipline Cases

   A. Nazida Zebari, R.Ph (13-024-PH-S)
   B. Walgreens #04242 (13-024-PH-S)

Tallie Pederson recused from participation in this matter due to her employment with Walgreens.

Nazida Zebari, pharmacist, appeared and was sworn by President Gandhi prior to answering questions or offering testimony.
William Stilling was present as counsel representing the Respondents.

Mr. Edwards presented a Stipulation and Order regarding Ms. Zebari and Walgreens #04242 for the Board’s consideration. The Respondents admit that evidence exists to establish a factual basis for the violations alleged in the Accusation that while employed by Walgreens #04242, Ms. Zebari filled and dispensed a prescription for ondansetron 4 mg. tablets with instructions to take 2 tablets (8 mg.) every four hours as needed, rather than the prescribed 2 mg. every four hours as needed, and failed to provide adequate counseling for the patient’s new prescription.

Ms. Zebari shall receive a public letter of reprimand from the Board’s Executive Secretary, pay an administrative fee of $49 dollars, pay a fine of $750.00, complete a one hour CE on the topic of error prevention, and complete a one hour CE on the topic of counseling. Walgreens’ Pharmacy #04242 will pay an administrative fee of $500.00.

Mr. Stilling commented that Ms. Zebari has been educated by the pharmacy manager on the proper procedures for counseling. Mr. Stilling said that the Respondents feel the stipulation is fair, and he requested Board approval.

Board Action:

Motion: Cheryl Blomstrom moved to accept the Stipulation and Order as presented.

Second: Kirk Wentworth

Action: Passed Unanimously

Kyoshi Fuller, PTT (14-057-PPT-S)

Kyoshi Fuller appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Mr. Edwards moved to have Exhibits 1 through 4 admitted. President Gandhi moved to accept the Exhibits into the record.

Mr. Edwards explained that Board Staff received notification from the Kaplan College Pharmacy Technician Program Director informing them that during a random drug screen on June 25, 2014, Mr. Fuller tested positive for marijuana. Mr. Edwards stated that Mr. Fuller is not refuting the allegations.

Mr. Fuller addressed questions posed by the Board. Mr. Fuller said that he used marijuana during June to cope with the death of his uncle, and has not used it since. At that time, he lived with family members who smoked marijuana at home, which is how he obtained the marijuana. Mr. Fuller has since moved from that residence and
currently lives with his parents. Prior to this incident, he used marijuana off and for three years beginning at age sixteen. He stated that he has a good family support system and his long-term goal is to attend college and study psychology.

Mr. Edwards commented that when he spoke with Mr. Fuller regarding this case, Mr. Fuller was forthcoming and honest, and accepted responsibility for his actions. Mr. Fuller recognized there would be consequences, and he wanted to find a way to move forward with the pharmaceutical technician program at Kaplan College.

Board Action:

Motion: Kirk Wentworth moved to find that the allegations in the Notice of Intended Action have been proven and to find Kyoshi Fuller guilty in the First Cause of Action.

Second: Kevin Desmond

Action: Passed Unanimously

Board discussion ensued.

Board Action:

Motion: Kirk Wentworth moved to suspend Kyoshi Fuller’s Pharmaceutical Technician Registration pending an evaluation by PRN-PRN. Mr. Fuller will be required to reappear for consideration for reinstatement of his registration with a representative from PRN-PRN, and letters of support from his mentor(s), family and the Kaplan College Pharmacy Technician Program Director.

Second: Tallie Pederson

Action: Passed Unanimously

D. Sylvia Corona, PT (14-055-PT-S)

Sylvia Corona appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Mr. Edwards moved to have Exhibits 1 through 5 admitted. President Gandhi accepted the Exhibits into the record. Mr. Edwards informed the Board that Ms. Corona’s attorney, Bob Spretnak, contacted him regarding this case, but Mr. Spretnak is not present. Ms. Corona stated that she is comfortable proceeding with the hearing without her attorney present.
Board Staff received notification from a CVS Regulatory Compliance Manager indicating that CVS terminated Ms. Corona from her employment as a pharmaceutical technician at CVS Pharmacy #5286 for diversion of controlled substances. In a written statement (Exhibit 4), Ms. Corona admitted to diverting hydrocodone/acetaminophen 10-325 tablets and carisoprodol 350 mg. tablets from February 2014 to April 2014. Ms. Corona claimed that she diverted the controlled substances for personal use due to back pain.

Ms. Corona read a written statement (Exhibit 6) apologizing to the Board, her coworkers and to her family. Ms. Corona admitted to diverting quantities of two-hundred each of hydrocodone/acetaminophen 10-325 tablets, and two-hundred carisoprodol 350 mg. tablets. She disputed the quantities in Exhibit 5 (DEA form 106 Report of Theft of Loss of Controlled Substances) which documents a loss of 4,696 hydrocodone/acetaminophen 10-325 tablets and 3,247 carisoprodol 350 mg. tablets.

Mr. Edwards stated that the testimony and evidence provided supports a finding of guilt.

Board Action:

Motion: Leo Basch moved to find that the allegations in the Notice of Intended Action have been proven and to find Sylvia Corona guilty in the First Cause of Action.

Second: Jack Dalton

Action: Passed Unanimously

Mr. Edwards commented that Board Staff does not take the diversion of controlled substances lightly and recommended revocation of Ms. Corona's pharmaceutical technician registration.

Motion: Cheryl Blomstrom moved to revoke Sylvia Corona's pharmaceutical technician registration.

Second: Kirk Wentworth

Action: Passed Unanimously

E. Antonio Scott, PT (14-049-PT-S)

Mr. Edwards advised the Board that Mr. Scott was not present.

Mr. Edwards moved to have Exhibits 1 through 7 admitted. President Gandhi accepted the Exhibits into the record.
Mr. Edwards explained that Board Staff received notification from a Smith’s Food and Drug (Smith’s) District Pharmacy Coordinator indicating that Smith’s terminated Mr. Scott from his employment as a pharmaceutical technician at Smith’s Pharmacy #358 for diversion of controlled substances. During an interview conducted by a Smith’s District Loss Prevention Manager, and in a written statement, Mr. Scott admitted to diverting and selling controlled substances by filling fraudulent prescriptions provided to him by an individual named “Denise”. The prescriptions were for hydrocodone/acetaminophen 10-325 tablets and alprazolam 2 mg. tablets (combined total of approximately 24,000 tablets). “Denise” paid Mr. Scott two dollars per tablet.

Mr. Edwards stated that Board Staff served the Accusation on Mr. Scott by certified mail on September 11, 2014, at the address he had on record with the Board Office. He presented a copy of the certified mail receipt (Exhibit 1). Mr. Edwards also provided a copy of the letter sent regular mail to Mr. Scott advising him of the Hearing (Exhibit 2).

Board Action:

Motion: Cheryl Blomstrom moved to find that based on the evidence presented, Board Staff properly attempted service by mailing the Notice of Intended Action and Accusation to Mr. Scott.

Second: Kirk Wentworth

Action: Passed Unanimously

Mr. Edwards informed the Board that a representative from Smith’s is in attendance to discuss corrective measures that have been implemented regarding diversion control.

Tammy Myxter, Smith’s Pharmacy Coordinator, appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Ms. Myxter said that Smith’s Loss Prevention department has procedures in place to monitor and address controlled substance count discrepancies. Smith’s has recently implemented additional procedures at the store level. Pharmacists are now required to run weekly balance on-hand reports of controlled substances, which the pharmacy manager is required to sign-off indicating that he has reviewed the reports. A new enhancement to the pharmacy computer system will generate a DEA audit report for any prescription for a controlled substance that has been released to a patient and is returned back into the workflow.
Board Action:

Motion:  Kevin Desmond moved to find that the allegations in the Notice of Intended Action have been proven and to find Antonio Scott guilty in the First Cause of Action.

Second:  Cheryl Blomstrom

Action:  Passed Unanimously

Mr. Edwards moved to have Exhibits 1 through 4 admitted. President Gandhi accepted the Exhibits into the record.

Mr. Edwards stated that Board Staff served the Accusation on Mr. Bahena by certified mail on September 11, 2014, at the address he had on record with the Board Office. He presented a copy of the certified mail receipt (Exhibit 1). Mr. Edwards also provided a copy of the letter sent regular mail to Mr. Scott advising him of the Hearing (Exhibit 2). Mr. Edwards informed the Board that representatives from Walmart Corporation are in attendance to discuss Walmart's investigation of this case.
Shelley Tustison, Director of Practice Compliance, and Chad Luebke, Market Health and Wellness Director, appeared and were sworn by President Gandhi prior to answering questions or offering testimony.

Mr. Edwards explained that Board Staff received notification from a Walmart Corporate Compliance Director indicating that Walmart terminated Mr. Bahena from his employment as a pharmaceutical technician. Walmart terminated Mr. Bahena’s employment for diversion of controlled substances. During an interview conducted by a Walmart Market Asset Protection Manager, and in a written statement, Mr. Bahena admitted to diverting approximately twenty-eight thousand (28,000) hydrocodone/acetaminophen tablets (multiple strengths). Mr. Bahena admitted to being addicted to hydrocodone for approximately four years, and to diverting the controlled substances for personal use.

Ms. Tustison explained that Roman Bahena began employment September 2013, and worked at both Walmart #10-3354 and Walmart #10-3788. In April 2014, an investigation was initiated based upon on-hand adjustments made by pharmacists at Walmart #10-3354 in Henderson, involving hydrocodone tablets, which were discovered through an analysis conducted by Walmart’s global investigative team. Concurrently, at Walmart #10-3788 in Las Vegas, the pharmacy manager was making on-hand hydrocodone adjustment changes and alerted her health and wellness director who in turn notified the global investigation division. An internal investigation was initiated. A review of pharmacy video showed Mr. Bahena exhibiting suspicious behavior. A Walmart asset protection associate began reviewing live video of Mr. Bahena while he was working. The video revealed that Mr. Bahena was diverting hydrocodone tablets while restocking the shelves. During an interview by a Walmart global investigator, Mr. Bahena admitted to diverting hydrocodone tablets at both Walmart pharmacies. Mr. Bahena was terminated from employment, and the case was turned over to Las Vegas law enforcement.

6. Applications for Nevada Pharmacy

A. AbacusRx Pharmacy LLC – Henderson

Rossitza Mirtcheva, managing pharmacist, and Kristine Carlton, owner, appeared and were sworn by President Gandhi prior to answering questions or offering testimony.

Ms. Mirtcheva addressed questions posed by the Board regarding Case 13-022-S, which was heard at the April 16, 2014 meeting. In that case, Ms. Mirtcheva and Spectrum Pharmacy were charged with violations related to creating a compound with approximately 19,005 mcg of liothyronine per capsule, rather than the 25 mcg of liothyronine per capsule that was prescribed. The Board ordered Ms. Mirtcheva to complete twenty hours of live USP-based compounding training, and her pharmacist license was placed on probation for a period of two years. Ms. Mirtcheva informed the Board that she completed the compounding training through Medisca in September 2014, but has not yet received documentation certifying completion of the course.

Ms. Carlton and Ms. Mirtcheva explained that AbacusRx Pharmacy will service long term care facilities, specifically, nursing homes. Services will include low to medium risk sterile and non-sterile compounding, mainly liquid vancomycin, magic mouthwash and creams that are not commercially available. TPNs will be contracted out to CAPS. The pharmacy will be 797 compliant, and initially employ three pharmacists and four technicians all with long term care experience.

On the application under “Services Provided”, “Parenteral” was not checked. Ms. Carlton stated that was an oversight and authorized Board Staff to check the box.

Ms. Carlton and Ms. Mirtcheva answered questions to the Board’s satisfaction.

Board Action:

Motion: Kirk Wentworth moved to approve AbacusRx Pharmacy’s Application for Nevada Pharmacy License pending:
- receipt of documentation certifying that Ms. Mirtcheva completed twenty hours of live USP-based compounding training;

Mr. Bhatia and Ms. Arriola explained that Trinity Pharmacy is a community retail pharmacy and will expand services in the future to include long term care facilities. Trinity Pharmacy will provide mail order service through Fed Ex and the U.S. Postal Service. The pharmacy will not do any type of sterile compounding.

Mr. Bhatia and Ms. Arriola answered questions to the Board’s satisfaction.

Board Action:

Motion: Kirk Wentworth moved to approve Trinity Pharmacy’s Application for Nevada Pharmacy License.

Second: Leo Basch

Action: Passed Unanimously

7. Application for Controlled Substances License

Gregory W. Greenwood, DMD

Gregory W. Greenwood appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Jack Dalton recused from participation in this matter due to his previous employment relationship with Dr. Greenwood.

The Board questioned Dr. Greenwood on why he did not disclose on his application that he had been the subject of discipline. Dr. Greenwood responded that it was an unintentional mistake.

Dr. Greenwood stated that he has had an active Nevada pharmacist license since 1997 and dental license since 2007. He has been practicing dentistry in Louisiana and is relocating to Nevada. In 2001, Dr. Greenwood was disciplined by this Board for violations related to fraudulent controlled substance prescriptions which he created and filled for personal use. Dr. Greenwood was arrested and charged with six felonies. The charges were later reduced to two misdemeanors. Dr. Greenwood was ordered to participate in PRN-PRN for five years and was released by the program after four years for good behavior. In 2007, Dr. Greenwood began his dental practice in Louisiana and was ordered by that state to sign-up for a five year treatment program. He completed one year and the consent decree was rescinded. In 2008, the Nevada State Board of
Dental Examiners (Dental Board) entered a Stipulated Agreement regarding Dr. Greenwood. The Dental Board ordered Dr. Greenwood's dental license to be monitored for eighteen months when he actively begins practice in Nevada. Dr. Greenwood will submit to random drugs screens, and cannot prescribe no more than twelve units of a controlled substance for each patient treatment visit during the eighteen month monitoring period, which became effective in September 2014.

Jack Dalton provided positive and supportive comments regarding Dr. Greenwood's character.

Dr. Greenwood answered questions to the Board's satisfaction.

**Board Action:**

**Motion:** Tallie Pederson moved to approve Gregory Greenwood's Controlled Substance Application.

**Second:** Cheryl Blomstrom

**Ayes:** Pederson, Blomstrom, Wentworth, Desmond

8. Application for Pharmaceutical Technician License

Amanda L. Elam

Amanda Elam appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Ms. Elam read a written statement explaining that the New Mexico Board of Pharmacy took disciplinary action against her pharmaceutical technician registration for violations related to the diversion of controlled substances. Ms. Elam stated that she became addicted to hydrocodone following two foot surgeries. In December 2012, her physician discontinued her pain medications so she began diverting them from her employing pharmacy. In April 2013, Walmart's Asset Protection Department questioned Ms. Elam, and she confessed to diverting hydrocodone since January 2013. Ms. Elam was arrested and charged with possession of a controlled substance and embezzlement. Ms. Elam complied with a court order to attend an eight hour class, and the charges were later dismissed. In August 2013, the New Mexico Board of Pharmacy adopted a Voluntary Surrender of Pharmacy Technician Form from Ms. Elam. Ms. Elam attended counseling for approximately four months. She said that there is no excuse for her actions and she takes full responsibility. Ms. Elam recently relocated to Nevada and would like to continue her career as a pharmaceutical technician.
Ms. Elam addressed questions posed by the Board. The Board expressed concerns that Ms. Elam has not attended a formal treatment program, the diversion was relatively recent, and a medical condition could result in a repeat of similar activity by Ms. Elam.

The Board agreed to keep Ms. Elam’s application open pending an evaluation by PRN-PRN. Ms. Elam will be required to reappear for consideration of her application with a representative from PRN-PRN.

Ms. Elam requested that her application be tabled until she has met with Mr. Espadero of PRN-PRN.

9. Application for Pharmaceutical Technician in Training License

Valerie Jensen

Valerie Jensen appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

On September 30, 2014, a Cease and Desist Order and Citation for the Unlawful Practice of Pharmacy was served upon Ms. Jensen. Ms. Jensen worked as a pharmaceutical technician in training at Smith’s Pharmacy #394 for one-hundred and fifty (150) days without a valid registration during the period of February 8, 2014 to August 12, 2014. Ms. Jensen was assessed a fine of $3,000.00 in association with the citation.

Ms. Jensen explained that she mailed in a technician in training application to the Board Office with a $40.00 money order in February 2014. She said that she was not educated on Nevada licensing procedures, and was informed that she could work under her Utah pharmaceutical technician license until her Nevada license was granted. Ms. Jensen contacted the Board Office in April 2014, to inquire about the procedures for submitting her technician in training hours and was informed by Board Staff that she was not registered. She promptly submitted an application.

Ms. Jensen addressed questions posed by the Board. Ms. Jensen attempted to trace the status of the money order that she purchased and submitted with her initial application in February 2014, but the Albertson’s where she purchased it is now closed. The bookkeeper from Albertson’s informed Ms. Jensen that several $40.00 money orders had been purchased within that timeframe, but there was no access to signatures. Ms. Jensen said that she worked as a registered pharmaceutical technician with Smith’s in Utah since 1997, and has never had any type of board action taken against her license.

Board discussion ensued. The Board felt that a lack of communication and misinformation were contributing factors which resulted in Ms. Jensen working unregistered. Ms. Jensen was proactive and immediately submitted an application and discontinued practicing as a pharmaceutical technician once she was informed that she
was not registered. The Board viewed this as an honest mistake by Ms. Jensen and discussed a reduction in the $3,000.00 fine imposed upon her.

Board Action:

Motion: Leo Basch moved to:
- reduce the $3,000.00 fine issued in the Cease and Desist Order and Citation to $1,500.00.
- approve Valerie Jensen’s Pharmaceutical Technician in Training Application pending receipt of a $500.00 payment toward the Cease and Desist Order and Citation. Ms. Jensen may negotiate with Board Staff payment terms for the balance due.
- apply the $40.00 fee submitted for Ms. Jensen’s Pharmaceutical in Training Application to a new Pharmaceutical Technician Application provided that the new application is submitted to the Board Office within fifteen (15) days from today, October 15, 2014. Ms. Jensen will submit to Board Staff documentation verifying her active status as a registered pharmaceutical technician in Utah. Ms. Jensen will not be required to submit documentation of 1,500 technician in training hours if documentation of licensure from Utah is provided to the Board Office.

Second: Kirk Wentworth

Action: Passed Unanimously

10. Request for Reduction of Surety Bond - Non Appearance

Blu Pharmaceuticals, LLC

Mr. Wuest explained that several years ago, the Legislature adopted in statute, regulations requiring that non-publicly traded wholesalers licensed to distribute prescription drugs shall file a surety bond with the Board in an amount of not less than $25,000 and not more than $100,000. The purpose of the bond is to cover fines and administrative costs imposed by the Board at an administrative hearing against the licensee, should the licensee fail to pay said fines or costs. The Board may, by agreement with a wholesale who has been licensed with the Board for five consecutive years or more, allow a reduction in the bond amount of not less than $5,000.

Mr. Wuest confirmed with the Kentucky Board of Pharmacy that Blu Pharmaceuticals license is active and has been in good standing since the history of their license (seven years). Their Nevada license has also been in good standing since their initial license date of April 22, 2009.

Board discussion ensued. The Board did not want to make a determination in this matter until they had the opportunity to have a discussion with a representative of Blu Pharmaceuticals.
Board Staff will contact Blu Pharmaceuticals and offer them an opportunity to appear before the Board at a future meeting to negotiate a potential reduction of their surety bond.

11. Applications for Out-of-State Compounding Pharmacy

A. Better Value Pharmacy – West Covina, CA

Eugene Ho, owner/managing pharmacist, appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Mr. Ho explained that Better Value Pharmacy (Better Value) is a local community pharmacy and would like to extend their services to other states. Better Value specializes in sterile and non-sterile compounding including tri-mix, hormone replacement therapy, hormonal creams as well as veterinary compounds. Every product is tested for sterility, endotoxins, and potency by Analytical Research Labs. Better Value is California-licensed as a compounding pharmacy and was last inspected on November 15, 2013. Better Value is currently not fully 797 compliant. Mr. Ho anticipates the pharmacy will be in full compliance in the near future. Better Value is contracted with PCCA to provide compounding training to the staff. Competency tests are conducted annually.

Mr. Ho addressed questions posed by the Board.

Board Action:

Motion: Leo Basch moved to approve Better Value Pharmacy’s Application for Out-of-State Pharmacy License pending receipt by the Board Office of documentation that Better Value Pharmacy is USP 797 compliant, and also fully compliant with Nevada compounding regulations.

Second: Kirk Wentworth

B. Boothwyn Pharmacy, Inc. – Boothwyn, PA

Noel Boehm, appeared and was sworn by President Gandhi prior to answering questions or offering testimony. Ms. Boehm presented a letter from Louis Micolvcci, owner, authorizing Ms. Boehm to represent Boothwyn Pharmacy.
Ms. Boehm explained that Boothwyn Pharmacy specializes in sterile and non-sterile compounding, including vitamin supplements, testosterone, methylprogesterone, as well as veterinary compounds. Clean room viable air sampling is conducted every six months. The clean room was last inspected and certified in April 2014.

Boothwyn Pharmacy submitted an affidavit to the Board Office attesting that they will not be shipping sterile compounded products into Nevada. Ms. Boehm clarified that Boothwyn Pharmacy will be shipping sterile compounds into Nevada, but will not be shipping high risk compounds into Nevada. Ms. Boehm authorized President Gandhi to void the affidavit. The Board Office will reissue a revised affidavit to Boothwyn Pharmacy in order for them to attest that they will not ship high risk compounds into Nevada.

Ms. Boehm answered questions to the Board’s satisfaction.

**Board Action:**

**Motion:** Kirk Wentworth moved to approve Boothwyn Pharmacy’s Application for Out-of-State Pharmacy pending receipt of their most recent inspection, and receipt of the affidavit that they will not ship high risk compounded products into Nevada.

**Second:** Kevin Desmond

C. Downing Labs – Dallas, TX

Kristi Kubosh, managing pharmacist, appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Ms. Kubosh explained that Downing Labs is a retail pharmacy specializing in sterile and non-sterile compounded products. Products include bioidentical hormones, topical pain creams, vitamin and mineral supplements. Products are patient specific. The pharmacy is USP 797 compliant and operates under 503A of the Drug Quality and Security Act of 2013. Products are tested for sterility and endotoxins before being released to patients.

Ms. Kubosh addressed questions regarding the FDA Requested Recall of compounded products which failed sterility or endotoxin testing discovered during an FDA inspection of the pharmacy under the previous ownership, Nu Vision. Downing Labs did not initiate the recall as the lots referenced were never dispensed to patients. All lots of compounded products that failed testing were destroyed.

Ms. Kubosh answered questions to the Board’s satisfaction.
Board Action:

Motion: Kirk Wentworth moved to approve Downing Labs’ Application for Out-of-State Pharmacy License.

Second: Leo Basch

Action: Passed Unanimously

D. Entirelypets Pharmacy LLC – Union City, CA

Rashmi Shingari, managing pharmacist, appeared and was sworn by President Gandhi prior to answering questions or offering testimony. Ms. Shingari did not have a letter from the owner authorizing her to speak on behalf of the company. The Board agreed to review the application.

William Stilling was present as counsel representing Entirelypets Pharmacy (Entirelypets). Mr. Stilling informed the Board that in the cover letter which was submitted with the application, he mistakenly stated that Entirelypets compounds medications. The application correctly reflects that the pharmacy does not compound medications.

Ms. Shingari explained that Entirelypets is a mail order pharmacy specializing in veterinary medications. Entirelypets does not use or dispense controlled substances. Medications are filled by prescription, and shipped directly to clients, not to veterinary offices.

Ms. Shingari and Mr. Stilling addressed questions regarding several citations issued by the California Board of Pharmacy in 2010 and 2011. Ms. Shingari was not affiliated with Entirelypets during that time period. The California Board imposed discipline against Entirelypets for violations related to unlicensed practice, inadequate labeling and improper dispensing. Entirelypets entered into a Stipulated Settlement and Disciplinary Order which resolved all issues in the citations. The California Board imposed strict penalties including five years of probation and fines. Entirelypets is subject to monthly inspections by an independent consultant as well as random state board inspections. Entirelypets is in full compliance with the terms of the Settlement.

Ms. Shingari and Mr. Stilling answered questions to the Board’s satisfaction.

Board Action:

Motion: Kirk Wentworth moved to approve Entirelypets Pharmacy’s Application for Out-of-State Pharmacy License pending receipt of a letter from the owner that Ms. Shingari is authorized to speak on behalf of the company.

E. Kabafusion – Norwalk, CA

David Chook, vice president, appeared and was sworn by President Gandhi prior to answering questions or offering testimony.

Kirk Wentworth disclosed that he and Mr. Chook attended pharmacy school together.

Mr. Chook explained that Kabafusion is a home infusion pharmacy specializing in sterile compounded products. Kabafusion’s primary focus in Nevada is strictly servicing IVIG patients. Products will be shipped into Nevada via Fed Ex directly to the patient. Products will be shipped in styrofoam containers with coolant blocks. Temperature indicators are used to ensure product integrity. A pharmacist or pharmaceutical technician will notify the patient prior to shipment. Mr. Chook explained the procedure for processing IVIG vials and pooling IVIG into bags from the manufacturer’s vial. Kabafusion is inspected annually. Mr. Chook provided a copy of their most recent inspection.

Mr. Chook answered questions to the Board’s satisfaction.

Kabafusion submitted an affidavit with the application to the Board Office attesting that they will not be shipping sterile compounded products into Nevada. Mr. Chook said that he was not aware of the affidavit. His understanding is that Kabafusion will be shipping sterile compounds into Nevada.

Board discussion ensued.

Board Action:

      methods of collection and disposal in a secure, convenient, and responsible manner.
The new regulations will allow ultimate users to deliver unused pharmaceuticals to appropriate entities for disposal. Registrants authorized as collectors may collect controlled substances and non-controlled substances from ultimate users, but may not use the collection receptacles to dispose of the collector's unwanted controlled substances. 1. Renewals
As of October 13th, 10,000 out of a potential 21,000 renewals have been submitted online.

Liz MacMenamin, Retail Association of Nevada, and Mr. Wuest provided an update on the coalition meeting on prescription drug abuse. Mr. Wuest reported that there has been an excellent response from practitioners returning the PMP registration form that was included with the mailing of the license renewal forms. To date, 3,500 out of a potential 10,000 practitioners have returned the PMP registration form. Ms. MacMenamin said that there are discussions on the table to give this Board authority to tie the PMP registration to the licensure for controlled substances. Ms. MacMenamin reported that at the last meeting, representatives from the nursing and dental communities supported the idea of tying PMP registration with licensure. The next meeting is scheduled for November 13, 2014.

Ms. MacMenamin said that legislation is moving forward to make naloxone available to anyone that may have a need for the drug. There is support to expand the Good Samaritan law to hold a person harmless if reporting or assisting in a drug overdose situation.

Ms. MacMenamin stated that law enforcement in southern Nevada no longer participates in this coalition. Southern Nevada law enforcement is pushing to have open-ended use of the PMP. RAN does not support this movement due to concerns regarding invasion of privacy. Northern Nevada law enforcement has no issues with the current process for obtaining PMP reports when needed.

Mr. Wuest announced that the legislative workgroup will meet on Friday, October 17, 2014 to address the PMP and medi-spas.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, )

v. ) CASE NO. 14-071-PH-O

PRECISION PHARMACY ) NOTICE OF INTENDED
Certificate of Registration No. PH02584, ) ACTION AND ACCUSATION

Respondent. )

Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3), and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Precision Pharmacy, Certificate of Registration No. PH02584, was a registered pharmacy with the Board.

II.

In March 2013, the Board of Pharmacy, Department of Consumer Affairs, State of California (CA Board), filed an Accusation against Precision Pharmacy in California Case No. 3769 (CA Accusation). In that accusation, the CA Board alleged that, among other violations, Precision Pharmacy had compounded a veterinary equine product in violation of the Federal Food, Drug and Cosmetic Act, which prohibits the compounding, manufacture, or sale of that product by any other entity except Superior Equine Pharmaceutical, Inc. The CA Board charged Precision Pharmacy with twenty-one (21) violations of California Law related to its compounding activities.

-1-

---

A copy of the CA Board's Decision and Order, Precision's Stipulated Settlement and Disciplinary Order and the CA Accusation are attached as Exhibit 1, and Exhibit A thereto, which are incorporated herein by reference.
III.

On February 4, 2014, the CA Board adopted a Stipulated Settlement and Disciplinary Order, in which it had entered with Precision Pharmacy resolving each of the twenty-one allegations set forth in the CA Accusation. The CA Board’s Decision and Order was effective February 11, 2014. See Exhibit 1.

IV.

In the Stipulated Settlement and Disciplinary Order, the CA Board revoked Precision Pharmacy’s Original Permit No. PHY 47310 and Sterile Compounding License No. LSC 99351. The CA Board then stayed the revocation, and placed Precision Pharmacy’s license(s) on probation for a period of three (3) years, with certain terms and conditions.

FIRST CAUSE OF ACTION

V.

In receiving discipline against its license in California for actions that would be grounds for discipline, suspension or revocation of its license in Nevada, respondent Precision is subject to discipline to parallel the California action pursuant to NRS 639.210(14) and/or NRS 639.255.

In particular, Respondent’s actions, which are grounds for discipline, suspension or revocation of its Nevada license, pursuant to NRS 639.210(4), (6), (11), (12) and NRS 639.255, include:

c. Filling prescriptions with missing prescription requirements/components, in violation of NRS 639.2353 and/or NAC 453.440;

d. Filling prescriptions with missing prescription label requirements, in violation of NRS 639.2801;
e. Failure to meet sterile injectable product label requirements, in violation of NRS 639.2801 and NAC 639.67073;

f. Failure to maintain proper/accurate preparation records, in violation of NAC 639.67019 and NAC 639.6702;

g. Failure to maintain proper expiration date of component, in violation of NAC 639.6702;

h. Failure to include written justification of chosen expiration dates, in violation of NAC 639.6702;

i. Failure to include/provide policies and procedures for master formulas and worksheets, in violation of NAC 639.6702 and NAC 639.67015;

j. Failure to conduct end-product testing of sterility on all batches, in violation of NAC 639.6677 and NAC 639.67071;

k. Sale of misbranded drugs, in violation of NAC 639.601;

l. Failure to keep lot and expiration date on logged formula worksheets, in violation of NAC 639.6702;

m. Knowingly making a false document, in violation of NRS 639.210(9) and NRS.287;

n. Keeping refrigerated drugs at room temperatures, in violation of NRS 639.282(1)(e) and NAC 639.650(4);

o. Violation of Feed, Drug and Cosmetic Act and FDA Cease and Desist Order, in violation of NRS 639.210(11);

p. Maintaining drugs and other items for manufacture without expiration date, in violation of NRS 639.282(d) and NAC 639.67019;

q. Placing false or misleading labels on prescription(s), in violation of NRS 639.2801;

r. Failure to maintain proper pharmacist-technician ration, in violation of NAC 639.250(2);
s. Orally transmitted prescriptions taken by pharmacy technicians, in violation of NAC 639.712, NRS 639.1371(3)(c) and/or NRS 639.2353(1)(a);

t. Dispensing controlled substance prescriptions written by prescribers for themselves, in violation of NRS 453.381; and

u. Failure to comply with other states’ laws when transferring drugs to other states, in violation of NRS 639.210(12).

The foregoing allegations are supported by the CA Board’s Accusation in CA Case No. 3769, including paragraphs 32 through 47, 67, 69 and 71 through 72, and the Stipulated Settlement and Disciplinary Order signed by the parties in CA Case No. 3769, including at paragraph 11.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of these respondents.

Signed this 23 day of October, 2014.

Deputy Executive Secretary for and on behalf of
Larry L. Pinson, Pharm.D., Executive Secretary

No. 3769, if proven at a hearing, constitute cause for imposing discipline upon its Original
Permit and Sterile Compounding License.

11. For the purpose of resolving the Accusation without the expense and uncertainty of
further proceedings, Respondent agrees that, at a hearing, Complainant could establish a factual

those charges.

time the Board considers and acts upon it. If the Board fails to adopt this stipulation as its
Decision and Order, the Stipulated Settlement and Disciplinary Order shall be of no force or
effect, except for this paragraph, it shall be inadmissible in any legal action between the parties,
and the Board shall not be disqualified from further action by having considered this matter.

16. In consideration of the foregoing admissions and stipulations, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following Disciplinary Order:

**DISCIPLINARY ORDER**

IT IS HEREBY ORDERED that Original Permit No. PHY 47310 and Sterile Compounding License LSC 99351 issued to Respondent Precision Pharmacy LLC dba Precision Pharmacy (Respondent) are revoked. However, the revocations are stayed and Respondent is placed on probation for three (3) years on the following terms and conditions.

1. **Obey All Laws**

   Respondent owner shall obey all state and federal laws and regulations.

   Respondent owner shall report any of the following occurrences to the board, in writing, within seventy-two (72) hours of such occurrence:

   - an arrest or issuance of a criminal complaint for violation of any provision of the Pharmacy law, state and federal food and drug laws, or state and federal controlled substances laws
   - a plea of guilty or nolo contendere in any state or federal criminal proceeding to any criminal complaint, information or indictment
   - a conviction of any crime
   - discipline, citation, or other administrative action filed by any state or federal agency which involves respondent's pharmacy license or which is related to the practice of pharmacy or the manufacturing, obtaining, handling or distributing, billing, or charging for any drug, device or controlled substance.
Failure to timely report any such occurrence shall be considered a violation of probation.

2. **Report to the Board**

   Respondent owner shall report to the board quarterly, on a schedule as directed by the board or its designee. The report shall be made either in person or in writing, as directed. Among other requirements, respondent owner shall state in each report under penalty of perjury whether there has been compliance with all the terms and conditions of probation. Failure to submit timely reports in a form as directed shall be considered a violation of probation. Any period(s) of delinquency in submission of reports as directed may be added to the total period of probation. Moreover, if the final probation report is not made as directed, probation shall be automatically extended until such time as the final report is made and accepted by the board.

3. **Interview with the Board**

   Upon receipt of reasonable prior notice, respondent owner shall appear in person for interviews with the board or its designee, at such intervals and locations as are determined by the board or its designee. Failure to appear for any scheduled interview without prior notification to board staff, or failure to appear for two (2) or more scheduled interviews with the board or its designee during the period of probation, shall be considered a violation of probation.

4. **Cooperate with Board Staff**

   Respondent owner shall cooperate with the board's inspection program and with the board's monitoring and investigation of respondent's compliance with the terms and conditions of their probation. Failure to cooperate shall be considered a violation of probation.

5. **Reimbursement of Board Costs**

Respondent owner shall make said payments as follows: thirty-two (32) monthly payments of $312.50 beginning thirty (30) days after the effective date of the decision and order. There shall be no deviation from this schedule absent prior written approval by the board or its designee. Failure to pay costs by the deadline(s) as directed shall be considered a violation of probation.

   The filing of bankruptcy by respondent owner shall not relieve respondent of their
responsible to reimburse the board its costs of investigation and prosecution.

6. Probation Monitoring Costs

Such costs shall be payable to the board on a schedule as directed by the board or its designee. Failure to pay such costs by the deadline(s) as directed shall be considered a violation of probation.

7. Status of License

Respondent owner shall, at all times while on probation, maintain current licensure with the board. If respondent owner submits an application to the board, and the application is approved, for a change of location, change of permit or change of ownership, the board shall retain continuing jurisdiction over the license, and the respondent shall remain on probation as determined by the board. Failure to maintain current licensure shall be considered a violation of probation.

If respondent owner’s license expires or is cancelled by operation of law or otherwise at any time during the period of probation, including any extensions thereof or otherwise, upon renewal or reapplication respondent owner’s license shall be subject to all terms and conditions of this probation not previously satisfied.

8. License Surrender While on Probation/Suspension

Following the effective date of this decision, should respondent owner discontinue business, respondent owner may tender the premises license to the board for surrender. The board or its designee shall have the discretion whether to grant the request for surrender or take any other action it deems appropriate and reasonable. Upon formal acceptance of the surrender of the license, respondent will no longer be subject to the terms and conditions of probation.

Upon acceptance of the surrender, respondent owner shall relinquish the wall license and renewal license to the board within ten (10) days of notification by the board that the surrender is accepted. Respondent owner shall further submit a completed Discontinuance of Business form according to board guidelines and shall notify the board of the records inventory transfer.

Respondent owner shall also, by the effective date of this decision, arrange for the
continuation of care for ongoing patients of the pharmacy by, at minimum, providing a written notice to ongoing patients that specifies the anticipated closing date of the pharmacy and that identifies one or more area pharmacies capable of taking up the patients' care, and by cooperating as may be necessary in the transfer of records or prescriptions for ongoing patients. Within five days of its provision to the pharmacy's ongoing patients, Respondent owner shall provide a copy of the written notice to the board. For the purposes of this provision, "ongoing patients" means those patients for whom the pharmacy has on file a prescription with one or more refills outstanding, or for whom the pharmacy has filled a prescription within the preceding sixty (60) days.

Respondent owner may not apply for any new licensure from the board for three (3) years from the effective date of the surrender. Respondent owner shall meet all requirements applicable to the license sought as of the date the application for that license is submitted to the board.

Respondent owner further stipulates that he or she shall reimburse the board for its costs of investigation and prosecution prior to the acceptance of the surrender.

9. Notice to Employees

Respondent owner shall, upon or before the effective date of this decision, ensure that all employees involved in permit operations are made aware of all the terms and conditions of probation, either by posting a notice of the terms and conditions, circulating such notice, or both. If the notice required by this provision is posted, it shall be posted in a prominent place and shall remain posted throughout the probation period. Respondent owner shall ensure that any employees hired or used after the effective date of this decision are made aware of the terms and conditions of probation by posting a notice, circulating a notice, or both. Additionally, respondent owner shall submit written notification to the board, within fifteen (15) days of the effective date of this decision, that this term has been satisfied. Failure to submit such notification to the board shall be considered a violation of probation.

"Employees" as used in this provision includes all full-time, part-time, volunteer, temporary and relief employees and independent contractors employed or hired at any time during probation.
10. Owners and Officers: Knowledge of the Law

Respondent shall provide, within thirty (30) days after the effective date of this decision, signed and dated statements from its owners, including any owner or holder of ten percent (10%) or more of the interest in respondent or respondent’s stock, and any officer, stating under penalty of perjury that said individuals have read and are familiar with state and federal laws and regulations governing the practice of pharmacy. The failure to timely provide said statements under penalty of perjury shall be considered a violation of probation.

11. Posted Notice of Probation

Respondent owner shall prominently post a probation notice provided by the board in a place conspicuous and readable to the public. The probation notice shall remain posted during the entire period of probation.

Respondent owner shall not, directly or indirectly, engage in any conduct or make any statement which is intended to mislead or is likely to have the effect of misleading any patient, customer, member of the public, or other person(s) as to the nature of and reason for the probation of the licensed entity.

Failure to post such notice shall be considered a violation of probation.

12. Violation of Probation

If a respondent owner has not complied with any term or condition of probation, the board shall have continuing jurisdiction over respondent license, and probation shall be automatically extended until all terms and conditions have been satisfied or the board has taken other action as deemed appropriate to treat the failure to comply as a violation of probation, to terminate probation, and to impose the penalty that was stayed.

If respondent owner violates probation in any respect, the board, after giving respondent owner notice and an opportunity to be heard, may revoke probation and carry out the disciplinary order that was stayed. Notice and opportunity to be heard are not required for those provisions stating that a violation thereof may lead to automatic termination of the stay and/or revocation of the license. If a petition to revoke probation or an accusation is filed against respondent during probation, the board shall have continuing jurisdiction and the period of probation shall be

"(c) The furnisher of a prescription labeled pursuant to subdivision (b) shall make, and retain for three years from the date of making, a record stating the manner in which the information on the prescription label varies from the actual drug in the container and documenting the order of the prescriber to so label the container. 14. Section 4113, subdivision (c) of the Code states: "The pharmacist-in-charge shall be responsible for a pharmacy's compliance with all state and federal laws and regulations pertaining to the practice of pharmacy."

15. Section 4115 of the Code states:

"(a) A pharmacy technician may perform packaging, manipulative, repetitive, or other nondiscretionary tasks, only while assisting, and while under the direct supervision and control of a pharmacist.

“(f) (1) A pharmacy with only one pharmacist shall have no more than one pharmacy

(2) The board may adopt regulations establishing the ratio of pharmacy technicians
performing the tasks specified in subdivision (a) to pharmacists applicable to the filling of
prescriptions of an inpatient of a licensed health facility and for a patient of a licensed home
health agency. Any ratio established by the board pursuant to this subdivision shall allow, at a

pharmacy technicians for each additional pharmacist, except that this ratio shall not apply to
personnel performing clerical functions pursuant to Section 4116 or 4117.

(3) A pharmacist scheduled to supervise a second pharmacy technician may refuse to

pharmacist assigned to supervise a second pharmacy technician shall notify the pharmacist in
charge in writing of his or her determination, specifying the circumstances of concern with
respect to the pharmacy or the pharmacy technician that have led to the determination, within a

closing the pharmacy. During these temporary absences, a pharmacy technician may, at the
discretion of the pharmacist, remain in the pharmacy but may only perform nondiscretionary
tasks. The pharmacist shall be responsible for a pharmacy technician and shall review any task
performed by a pharmacy technician during the pharmacist’s temporary absence. Nothing in this
subdivision shall be construed to authorize a pharmacist to supervise pharmacy technicians in
greater ratios than those described in subdivision (f).

"(h) The pharmacist on duty shall be directly responsible for the conduct of a pharmacy
technician supervised by that pharmacist."

///
“(c) The board may refuse a license to any applicant guilty of unprofessional conduct. The board may, in its sole discretion, issue a probationary license to any applicant for a license who is guilty of unprofessional conduct and who has met all other requirements for licensure. The board may issue the license subject to any terms or conditions not contrary to public policy, including, but not limited to, the following:

(1) Medical or psychiatric evaluation.

(2) Continuing medical or psychiatric treatment.

(3) Restriction of type or circumstances of practice.

(4) Continuing participation in a board-approved rehabilitation program.

(b) Incompetence.

(c) Gross negligence.
"(d) The clearly excessive furnishing of controlled substances in violation of subdivision (a) of Section 11153 of the Health and Safety Code.

"(e) The clearly excessive furnishing of controlled substances in violation of subdivision (a) of Section 11153.5 of the Health and Safety Code. Factors to be considered in determining whether the furnishing of controlled substances is clearly excessive shall include, but not be limited to, the amount of controlled substances furnished, the previous ordering pattern of the customer (including size and frequency of orders), the type and size of the customer, and where and to whom the customer distributes its product.

"(f) The commission of any act involving moral turpitude, dishonesty, fraud, deceit, or corruption, whether the act is committed in the course of relations as a licensee or otherwise, and whether the act is a felony or misdemeanor or not.

"(g) Knowingly making or signing any certificate or other document that falsely represents the existence or nonexistence of a state of facts.

(commencing with Section 801) of Title 21 of the United States Code regulating controlled
substances or of a violation of the statutes of this state regulating controlled substances or
dangerous drugs shall be conclusive evidence of unprofessional conduct. In all other cases, the
record of conviction shall be conclusive evidence only of the fact that the conviction occurred.
The board may inquire into the circumstances surrounding the commission of the crime, in order
to fix the degree of discipline or, in the case of a conviction not involving controlled substances
or dangerous drugs, to determine if the conviction is of an offense substantially related to the
qualifications, functions, and duties of a licensee under this chapter. A plea or verdict of guilty or
a conviction following a plea of nolo contendere is deemed to be a conviction within the meaning
of this provision. The board may take action when the time for appeal has elapsed, or the
judgment of conviction has been affirmed on appeal or when an order granting probation is made
suspending the imposition of sentence, irrespective of a subsequent order under Section 1203.4 of
the Penal Code allowing the person to withdraw his or her plea of guilty and to enter a plea of not

7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code
relating to the Medi-Cal program. The record of the compromise is conclusive evidence of

violation of or conspiring to violate any provision or term of this chapter or of the applicable
federal and state laws and regulations governing pharmacy, including regulations established by
the board or by any other state or federal regulatory agency.

"(p) Actions or conduct that would have warranted denial of a license.
"(q) Engaging in any conduct that subverts or attempts to subvert an investigation of the board.

"(r) The selling, trading, transferring, or furnishing of drugs obtained pursuant to Section 256b of Title 42 of the United States Code to any person a licensee knows or reasonably should have known, not to be a patient of a covered entity, as defined in paragraph (4) of subsection (a) of Section 256b of Title 42 of the United States Code.

"(s) The clearly excessive furnishing of dangerous drugs by a wholesaler to a pharmacy that primarily or solely dispenses prescription drugs to patients of long-term care facilities. Factors to be considered in determining whether the furnishing of dangerous drugs is clearly excessive shall include, but not be limited to, the amount of dangerous drugs furnished to a pharmacy that primarily or solely dispenses prescription drugs to patients of long-term care facilities, the previous ordering pattern of the pharmacy, and the general patient population to whom the pharmacy distributes the dangerous drugs. That a wholesaler has established, and employs, a tracking system that complies with the requirements of subdivision (b) of Section 4164 shall be considered in determining whether there has been a violation of this subdivision. This provision shall not be interpreted to require a wholesaler to obtain personal medical information or be authorized to permit a wholesaler to have access to personal medical information except as otherwise authorized by Section 56 and following of the Civil Code."

19. Section 4076 of the Code states:

"(a) A pharmacist shall not dispense any prescription except in a container that meets the requirements of state and federal law and is correctly labeled with all of the following:

1. Except where the prescriber or the certified nurse-midwife who functions pursuant to a standardized procedure or protocol described in Section 2746.51, the nurse practitioner who functions pursuant to a standardized procedure described in Section 2836.1, or protocol, or the physician assistant who functions pursuant to Section 3502.1, the naturopathic doctor who functions pursuant to a standardized procedure or protocol described in Section 3640.5, or the pharmacist who functions pursuant to a policy, procedure, or protocol pursuant to either subparagraph (D) of paragraph (4) of, or clause (iv) of subparagraph (A) of paragraph (5) of,
subdivision (a) of Section 4052 orders otherwise, either the manufacturer's trade name of the drug
or the generic name and the name of the manufacturer. Commonly used abbreviations may be
used. Preparations containing two or more active ingredients may be identified by the
manufacturer's trade name or the commonly used name or the principal active ingredients.

(2) The directions for the use of the drug.

(3) The name of the patient or patients.

(4) The name of the prescriber or, if applicable, the name of certified nurse-midwife who

nurse practitioner who functions pursuant to a standardized procedure described in Section
2836.1, or protocol, the physician assistant who functions pursuant to Section 3502.1., the
naturopathic doctor who functions pursuant to a standardized procedure or protocol described in
Section 3640.5, or the pharmacist who functions pursuant to a policy, procedure, or protocol
pursuant to either subparagraph (D) of paragraph (4) of, or clause (iv) of subparagraph (A) of
paragraph (5) of, subdivision (a) of Section 4052.

(5) The date of issue.

(10) The condition for which the drug was prescribed if requested by the patient and the
condition is indicated on the prescription.

(11)(A) Commencing January 1, 2006, the physical description of the dispensed
medication, including its color, shape, and any identification code that appears on the tablets or
capsules, except as follows:

(i) Prescriptions dispensed by a veterinarian.

(ii) An exemption from the requirements of this paragraph shall be granted to a new drug for the first 120 days that the drug is on the market and for the 90 days during which the national reference file has no description on file.

(iii) Dispensed medications for which no physical description exists in any commercially available database.

(B) This paragraph applies to outpatient pharmacies only.

(C) The information required by this paragraph may be printed on an auxiliary label that is affixed to the prescription container.

(D) This paragraph shall not become operative if the board, prior to January 1, 2006, adopts regulations that mandate the same labeling requirements set forth in this paragraph.

"(b) If a pharmacist dispenses a prescribed drug by means of a unit dose medication system, as defined by administrative regulation, for a patient in a skilled nursing, intermediate care, or other health care facility, the requirements of this section will be satisfied if the unit dose medication system contains the aforementioned information or the information is otherwise readily available at the time of drug administration.

"(c) If a pharmacist dispenses a dangerous drug or device in a facility licensed pursuant to Section 1250 of the Health and Safety Code, it is not necessary to include on individual unit dose containers for a specific patient, the name of the certified nurse-midwife who functions pursuant to a standardized procedure or protocol described in Section 2746.51, the nurse practitioner who functions pursuant to a standardized procedure described in Section 2836.1, the physician assistant who functions pursuant to Section 3502.1, the naturopathic doctor who functions pursuant to a standardized procedure or protocol described in Section 3640.5, or the pharmacist who functions pursuant to a policy, procedure, or protocol pursuant to either subparagraph (D) of paragraph (4) of, or clause (iv) of subparagraph (A) of paragraph (5) of, subdivision (a) of Section 4052,

patient by a person licensed under the Medical Practice Act (Chapter 5 (commencing with
Section 2000), the Nursing Practice Act (Chapter 6 (commencing with Section 2700), or the
Vocational Nursing Act (Chapter 6.5 (commencing with Section 2840), who is acting within his
or her scope of practice."

20. Section 11170 of the Health & Safety Code states that "[n]o person shall prescribe,
administer, or furnish a controlled substance for himself."

REGULATORY PROVISIONS

21. California Code of Regulations, title 16, section 1714, subdivision (b) states, in
pertinent part:

"Each pharmacy licensed by the board shall maintain its facilities, space, fixtures, and
equipment so that drugs are safely and properly prepared, maintained, secured and distributed."

22. California Code of Regulations, title 16, section 1716.1
As used in Business and Professions Code section 4052(a)(1), the following terms have
the indicated meaning concerning the compounding of unapproved drugs for prescriber office
use:

"(a) 'Reasonable quantity' means that quantity of an unapproved drug which:

"(1) is sufficient for that prescriber’s office use consistent with the expiration date of the
product as set forth in section 1716.2(a)(3); and

"(2) is reasonable considering the intended use of the compounded medication and nature
of the prescriber’s practice; and

"(3) for any individual prescriber and for all prescribers taken as a whole, is an amount
which the pharmacy is capable of compounding in compliance with pharmaceutical standards for
identity, strength, quality and purity of the compounded medication.

"(b) 'Compounded medication' means medications actually compounded by the pharmacy
supplying them to a prescriber.

2. Though 16 CCR 1716.1 has been repealed, it was in effect at the time that the facts
giving rise to the allegations asserted in this Accusation took place.
“(c) ‘Prescriber office use’ means application or administration in the prescriber’s office, or for distribution of not more than a 72 hour supply to the prescriber’s patients as estimated by the prescriber.”

23. California Code of Regulations, title 16, section 1716.2, states:

“(a) For the purpose of compounding in quantities larger than required for immediate dispensing by a prescriber or for future dispensing upon prescription, a pharmacy shall maintain records that include, but are not limited to:

(1) The date of preparation.

(2) The lot numbers. These may be the manufacturer's lot numbers or new numbers assigned by the pharmacy. If the lot number is assigned by the pharmacy, the pharmacy must also record the original manufacturer's lot numbers and expiration dates, if known. If the original manufacturer's lot numbers and expiration dates are not known, the pharmacy shall record the source and acquisition date of the components.

(3) The expiration date of the finished product. This date must not exceed 180 days or the shortest expiration date of any component in the finished product unless a longer date is supported by stability studies in the same type of packaging as furnished to the prescriber. Shorter dating than set forth in this subsection may be used if it is deemed appropriate in the professional judgment of the responsible pharmacist.

(4) The signature or initials of the pharmacist performing the compounding.

(5) A formula for the compounded product. The formula must be maintained in a readily retrievable form.

(6) The name(s) of the manufacturer(s) of the raw materials.

(7) The quantity in units of finished products or grams of raw materials.

(8) The package size and the number of units prepared.”

3 Though 16 CCR 1716.2 has been repealed, it was in effect at the time that the facts giving rise to the allegations asserted in this Accusation took place.
24. California Code of Regulations, title 16, section 1717, states:

"(a) No medication shall be dispensed on prescription except in a new container which conforms with standards established in the official compendia.

"Notwithstanding the above, a pharmacist may dispense and refill a prescription for non-liquid oral products in a clean multiple-drug patient medication package (patient med pak), provided:

(1) a patient med pak is reused only for the same patient;

(2) no more than a one-month supply is dispensed at one time; and

(3) each patient med pak bears an auxiliary label which reads, store in a cool, dry place.

"(b) In addition to the requirements of Section 4040, Business and Professions Code, the following information shall be maintained for each prescription on file and shall be readily retrievable:

(1) The date dispensed, and the name or initials of the dispensing pharmacist. All prescriptions filled or refilled by an intern pharmacist must also be initialed by the supervising pharmacist before they are dispensed.

(2) The brand name of the drug or device; or if a generic drug or device is dispensed, the distributor's name which appears on the commercial package label; and

(3) If a prescription for a drug or device is refilled, a record of each refill, quantity dispensed, if different, and the initials or name of the dispensing pharmacist.

(4) A new prescription must be created if there is a change in the drug, strength, prescriber or directions for use, unless a complete record of all such changes is otherwise maintained.

"(c) Promptly upon receipt of an orally transmitted prescription, the pharmacist shall reduce it to writing, and initial it, and identify it as an orally transmitted prescription. If the prescription is then dispensed by another pharmacist, the dispensing pharmacist shall also initial the prescription to identify him or herself.

"All orally transmitted prescriptions shall be received and transcribed by a pharmacist prior to compounding, filling, dispensing, or furnishing.

///
"Chart orders as defined in Section 4019 of the Business and Professions Code are not subject to the provisions of this subsection.

"(d) A pharmacist may furnish a drug or device pursuant to a written or oral order from a prescriber licensed in a State other than California in accordance with Business and Professions Code Section 4005.

"(e) A pharmacist may transfer a prescription for Schedule III, IV, or V controlled substances to another pharmacy for refill purposes in accordance with Title 21, Code of Federal Regulations, section 1306.26.

"Prescriptions for other dangerous drugs which are not controlled substances may also be transferred by direct communication between pharmacists or by the receiving pharmacist's access to prescriptions or electronic files that have been created or verified by a pharmacist at the transferring pharmacy. The receiving pharmacist shall create a written prescription; identifying it as a transferred prescription; and record the date of transfer and the original prescription number. When a prescription transfer is accomplished via direct access by the receiving pharmacist, the receiving pharmacist shall notify the transferring pharmacy of the transfer. A pharmacist at the transferring pharmacy shall then assure that there is a record of the prescription as having been transferred, and the date of transfer. Each pharmacy shall maintain inventory accountability and pharmacist accountability and dispense in accordance with the provisions of section 1716 of this Division. Information maintained by each pharmacy shall at least include:

(1) Identification of pharmacist(s) transferring information;

(2) Name and identification code or address of the pharmacy from which the prescription was received or to which the prescription was transferred, as appropriate;

(3) Original date and last dispensing date;

(4) Number of refills and date originally authorized;

(5) Number of refills remaining but not dispensed;

(6) Number of refills transferred.

"(f) The pharmacy must have written procedures that identify each individual pharmacist responsible for the filling of a prescription and a corresponding entry of information into an
automated data processing system, or a manual record system, and the pharmacist shall create in
his/her handwriting or through hand-initializing a record of such filling, not later than the
beginning of the pharmacy's next operating day. Such record shall be maintained for at least three
years."

25. California Code of Regulations, title 16, section 1718.1, states:

"All prescription drugs not bearing a manufacturer's expiration date pursuant to Title 21,
Code of Federal Regulations, section 211.137 are deemed to have expired and may not be
manufactured, distributed, held for sale, or dispensed by any manufacturer, distributor,
pharmacist, pharmacy or other persons authorized to dispense such drugs in California."

26. California Code of Regulations, title 16, section 1751.2, states:

"In addition to the labeling information required under Business and Professions Code
section 4076 and section 1735.4, a pharmacy which compounds sterile injectable products shall
include the following information on the labels for those products:

"(a) Telephone number of the pharmacy, except for sterile injectable products dispensed for
inpatients of a hospital pharmacy.

"(b) Name and concentrations of ingredients contained in the sterile injectable product.

"(c) Instructions for storage and handling.

"(d) All cytotoxic agents shall bear a special label which states 'Chemotherapy - Dispose of
Properly.'"

27. California Code of Regulations, title 16, section 1751.3⁴, states:

"(a) Pharmacies compounding sterile injectable products for future use pursuant to section
1716.1 shall, in addition to those records required by section 1716.2, have records indicating the
name, lot number, amount, and date on which the products were provided to a prescriber.

⁴ Though 16 CCR 1751.3 has been subsequently amended and renumbered as 16 CCR
1751.1, the following language reflects the version of section 1751.3 which was in effect at the
time that the facts giving rise to the allegations asserted in this Accusation took place.
“(b) In addition to the records required by subdivision (a), for sterile products compounded from one or more non-sterile ingredients the following records must be maintained for at least three years:

“(1) The training and competency evaluation of employees in sterile product procedures.

“(2) Refrigerator and freezer temperatures.

“(3) Certification of the sterile compounding environment.

“(4) Other facility quality control logs specific to the pharmacy’s policies and procedures (e.g., cleaning logs for facilities and equipment).

“(5) Inspection for expired or recalled pharmaceutical products or raw ingredients.

“(6) Preparation records including the master work sheet, the preparation work sheet, and records of end-product evaluation results.

“(c) Pharmacies shall maintain records of validation processes as required by section 1751.7(b) for three years.”

“(c) Pharmacies compounding sterile injectable products shall have written policies and procedures for the disposal of infectious materials and/or materials containing cytotoxic residues. The written policies and procedures shall describe the pharmacy protocols for cleanups and spills in conformity with local health jurisdiction standards.”

28. California Code of Regulations, title 16, section 1751.7, states:

“(a) Any pharmacy engaged in compounding sterile injectable drug products shall maintain, as part of its written policies and procedures, a written quality assurance plan including, in addition to the elements required by section 1735.8, a documented, ongoing quality assurance program that monitors personnel performance, equipment, and facilities. The end product shall be examined on a periodic sampling basis as determined by the pharmacist-in-charge to assure that it meets required specifications. The Quality Assurance Program shall include at least the following:

(1) Cleaning and sanitization of the parenteral medication preparation area.

(2) The storage of compounded sterile injectable products in the pharmacy and periodic documentation of refrigerator temperature.
(3) Actions to be taken in the event of a drug recall.

(4) Written justification of the chosen expiration dates for compounded sterile injectable products.

"(b) Each individual involved in the preparation of sterile injectable products must first successfully complete a validation process on technique before being allowed to prepare sterile injectable products. The validation process shall be carried out in the same manner as normal production, except that an appropriate microbiological growth medium is used in place of the actual product used during sterile preparation. The validation process shall be representative of all types of manipulations, products and batch sizes the individual is expected to prepare. The same personnel, procedures, equipment, and materials must be involved. Completed medium samples must be incubated. If microbial growth is detected, then the sterile preparation process must be evaluated, corrective action taken, and the validation process repeated. Personnel competency must be revalidated at least every twelve months, whenever the quality assurance program yields an unacceptable result, when the compounding process changes, equipment used in the compounding of sterile injectable drug products is repaired or replaced, the facility is modified in a manner that affects airflow or traffic patterns, or whenever improper aseptic techniques are observed. Revalidation must be documented.

"(c) Batch-produced sterile injectable drug products compounded from one or more non-sterile ingredients shall be subject to documented end product testing for sterility and pyrogens and shall be quarantined until the end product testing confirms sterility and acceptable levels of pyrogens.

"(d) Batch-produced sterile to sterile transfers shall be subject to periodic testing through process validation for sterility as determined by the pharmacist-in-charge and described in the written policies and procedures."

29. California Code of Regulations, title 16, section 1770, states:

"For the purpose of denial, suspension, or revocation of a personal or facility license pursuant to Division 1.5 (commencing with Section 475) of the Business and Professions Code, a crime or act shall be considered substantially related to the qualifications, functions or duties of a
licensee or registrant if to a substantial degree it evidences present or potential unfitness of a 
licensee or registrant to perform the functions authorized by his license or registration in a manner 
consistent with the public health, safety, or welfare."

REASONABLE COSTS

30. Section 125.3 of the Code provides, in pertinent part, that the Board may request the 
administrative law judge to direct a licentiate found to have committed a violation or violations of 
the licensing act to pay a sum not to exceed the reasonable costs of the investigation and 
enforcement of the case.

CONTROLLED SUBSTANCES AND DANGEROUS DRUGS

31. Superiorbute power, whose generic name is Phenylbutazone, is a dangerous drug 
within the meaning of section 4022.

STATEMENT OF FACTS

32. From on or about October 7, 2005, to February 1, 2009, Bart Tipton was the 
Pharmacist-in-Charge (PIC) of Respondent Precision Pharmacy.

33. From on or about February 1, 2009 through the present, Respondent Waldrip-Helgren 
has been the PIC of Respondent Precision Pharmacy.

May 2009 Consumer Complaint

34. On or about May 7, 2009, D.G. of Superior Equine Pharmaceuticals, Inc. submitted a 
consumer complaint with the Board alleging that in violation of a January 2008 Food and Drug 
Administration (FDA) "Cease and Desist" letter, Respondent Precision Pharmacy continued to 
illegally manufacture apple-flavored Phenylbutazone powder from bulk materials and sell the 
product to veterinarians around the country. D.G. had a patent for apple flavored Superiorbute® 
powder.

35. The FDA "Cease and Desist" letter was sent to several pharmacies around the country 
and to the Executive Directors of various boards of pharmacy in several states. It stated, in

5 The facts alleged in this Accusation are based on four investigative reports. In the  
interests of clarity, Complainant will provide a footnote referencing the source of the facts alleged  
in each section. The facts pertaining to the May 2009 consumer complaint can be found in  
Investigative Report 2009 40885.
pertinent part, that Superior Equine Pharmaceutical, Inc. manufactured the one FDA-approved
version of sweetened, apple-flavored Phenylbutazone powder in horse feed for the relief of
inflammatory conditions associated with the musculoskeletal system, and that accordingly, any
firms that were engaged in the compounding\(^6\) of any of the apple-flavored Phenylbutazone
powder products were in violation of the Federal Food, Drug, and Cosmetic Act. It specifically
stated that if a firm was engaged in the compounding and/or sale of these illegal phenylbutazone
products, it should immediately cease that activity.

**September 2009 Inspection\(^7\)**

36. On or about September 1, 2009, two (2) Board inspectors conducted an inspection of
Respondent Precision Pharmacy. Immediately upon entering, the inspectors noticed several
people around several open containers of powders on a large table. Along side of the table were

\[^6\] The FDA issued a Compliance Policy Guidance (CPG) regarding the compounding of drugs for
use in animals that stated, in pertinent part, that the:

FDA is greatly concerned about veterinarians and pharmacies that are engaged in
manufacturing and distributing unapproved new animal drugs in a manner that is clearly
outside the bounds of traditional pharmacy practice and that violates the Act (e.g.,
compounding that is intended to circumvent the drug approval process and provide for the
mass marketing of products that have been produced with little or no quality control or
manufacturing standards to ensure the purity, potency, and stability of the product). These
activities are the focus of this guidance. Pharmacies and veterinarians who engage in
activities analogous to manufacturing and distributing drugs for use in animals may be
held to the same provisions of the Act as manufacturers.

With regard to compounding from bulk drug substances, two Federal Appeals Court
decisions, United States v. Algon Chemical Inc., 879 F.2d 1154 (3d Cir. 1989) and United
States v. 9/1 Kg. Containers, 854 F.2d 173 (7th Cir. 1988), affirmed the FDA position that
the Act does not permit veterinarians to compound unapproved finished drug products
from bulk drug substances, unless the finished drug is not a new animal drug. The
principle established by the court applies equally to compounding by pharmacists.

\[^7\] These facts can be found in Investigative Report 2009 40885.
drums of powders. The inspectors observed the employees compounding apple flavored
phenylbutazone powder. The inspectors did not see any gowns, masks, or gloves.

37. The inspectors introduced themselves and met the pharmacist-in-charge (PIC),
Respondent Patricia Waldrip-Helgren. The inspectors determined that there was one (1)
pharmacist supervising one (1) pharmacist intern, five (5) technicians, and two (2) clerks, which
was in violation of the pharmacist:technician ratio of 1:1 for the practice setting. The inspectors
observed that compounding was taking place in three (3) different areas in the pharmacy (lobby,
pharmacy, and back room).

Illegal Manufacture of Drugs

38. The inspectors observed that there were a large amount of compounded items, made
in large enough amounts to have shelves full of product. Records obtained by the inspectors that
reflected that Respondent Precision Pharmacy sold the majority of drugs to veterinarians,
hospitals, clinics, and rarely to the ultimate consumer, which would be either a horse or a horse
owner. In addition, Respondent PIC Waldrip-Helgren told one of the Board inspectors that “a lot
of Precision’s business is selling directly to veterinarians. Respondent Waldrip-Helgren stated to
the Board inspectors that “[Respondent] Precision also fills some prescriptions per specific
animal, but that was not the majority of Precision’s business.” This statement and review of
pharmacy records showing the majority of sales to other than a specific patient, strengthens the
proof that Precision Pharmacy is manufacturing for office use, rather than selling to ultimate
consumer.

39. The inspectors observed that there were large amounts of both commercially
available medications, such as Itraconazole 100 mg, DES 3mg, and Griseofulvin 250 mg, as well
as large amounts of some medications that are not commercially available, such as Domperidone
10 mg, Estradiol 1mg/Progesterone 100 mg/Testosterone SR 1mg. This demonstrated that
Respondent Precision Pharmacy was manufacturing commercially available drugs, which it
cannot by law. In addition, it demonstrates that Respondent Precision Pharmacy was
compounding large amounts of non-commercially available drugs, which circumvents the FDA
process for approving new drugs and is in direct contradiction to the FDA’s intent when
permitting pharmacies to compound medication, which is to allow them to create non-
commercially available medications to meet specific patient needs.

**Illegally Acting as a Wholesaler**

40. During the September 2009 inspection, the inspectors observed that though
Respondent Precision Pharmacy labeled their Phenylbutazone product as if they were
compounding for “office use”, in actuality Respondent Precision Pharmacy was not compounding
for “office use” because the product was not being applied or administered in the prescriber’s
office (the patients are horses) and because the product was made in jars and bottles which hold
more than a 72 hour supply. Specifically, a printout for all Phenylbutazone 100gm powder sold
by Respondent Precision Pharmacy from August 17, 2009, through September 1, 2009, showed
that during those two (2) weeks, there were 108 orders filled, and a total of 762 jars dispensed.
33 prescriptions were written for a veterinarian (the veterinarian was listed as the patient), 28
prescriptions were filled for a hospital or clinic, several other prescriptions were filled for equine
service or businesses, and only two (2) were written for a specific horse. The 762 containers
dispensed each had 100gm of Phenylbutazone powder, thus in a two (2) week period, Respondent
Precision Pharmacy dispensed 76,200 grams or 76.2 kg (167 pounds) of Phenylbutazone. The
normal dosing of Phenylbutazone in horses is 2-4 grams per 1000 pounds of body weight. Since
horses weigh an average of 900-1500 pounds, the dosing is 1.8-6 grams/day. A 72-hour supply of
Phenylbutazone for one horse would be 5.4-18 grams/day. Because Precision Pharmacy has 100
gram jars of Phenylbutazone, for each jar Respondent is dispensing a 5.5-18 day supply for one
horse which is in excess of a 72 hour supply. Additionally, only one scoop was provided with
each jar of Phenylbutazone. Since the dosing of the drug was in scoops, if the prescriber divided
what was contained in the large container and placed it in smaller containers, he would not have a
scoop to provide with the extra containers of the medication provided. The presence of only one
scoop indicates the container was intended for only one patient.

**Violations of Prescription Requirements**

41. During the September 2009 inspection, one (1) of the inspectors reviewed a sampling
of written prescriptions for Phenylbutazone powder and observed that they were not received
telephonically by a pharmacist, did not have a patient name on them and did not have directions
for use or strength. The inspector also reviewed a sampling of prescriptions about to be dispensed
and observed the following: extra drug coming out near the metal ring which seals the amber
bottle, prescription label with no directions or patient name, and sterile compounding labels with
no drug names or concentrations of ingredients contained in product.

**Discrepancies in Master Formula and Logged Formula Worksheets**

42. During the September 2009 inspection, the inspectors found that Respondent
Precision Pharmacy's Logged Formula Worksheets did not follow the PCCA (Professional
Compounding Centers of America) Master Formulas, despite the fact that Respondent Precision
Pharmacy belonged to PCCA. During the inspection, one of the inspectors found vials of the
drug Trimethoprim/Sulfadiazine 80/400 Injection Suspension ready to be shipped out to
veterinarian, G.W., located in Texas. The vials did not have the lot and expiration stickers that
the pharmacy usually puts on the bottom of the vials, but on the dispensing label, there was a lot
number of 05152009@12, expiration of 2/27/10, Rx number #134900 and date of 8/31/09, the
day before the September 2009 inspection.

43. Respondent Precision Pharmacy's records showed that they made excipient stock
solution on September 2, 2008. PCCA master formulas stated that excipient stock solution
should expire in thirty days from that date (October 2, 2008), however, Respondent Precision's
logged formula worksheets stated that the excipient stock solution expired in 180 days (March 2,
2009). No reason was given as to why the date was extended. The excipient solution was used to
compound Sulfadiazine/Trimethoprim on May 15, 2009, after it was already expired (no matter
which expiration date was chosen). The PCCA master formula said compounded
Sulfadiazine/Trimethoprim expires 90 days after being made (August 15, 2009). Respondent
Precision logged formula worksheets said that Sulfadiazine/Trimethoprim expires 180 days after
being made (November 11, 2009). The expired excipient that was used to make the
Sulfadiazine/Trimethoprim could have posed a serious health hazard, and should not have been
dispensed.

///
44. When the product was used to dispense Dr. G.W.'s prescription on August 31, 2009, the original lot and expiration sticker which would have shown an expiration of November 11, 2009, was ripped off, and the dispensing prescription label gave the product an expiration date of February 27, 2010, 180 days from the date of the dispensed prescription. Accordingly, expired drugs were being dispensed to unsuspecting consumers.

45. The Logged Formula Worksheets that the investigators secured for the following drugs reflected that each of these drugs had already expired before they were used to make another drug:

a. Edetate disodium expired in May 2009, but was used to make Acetyl-L-Cysteine 20% on August 10, 2009. The new drug was given an expiration date February 6, 2010.

b. Preserved water expired on August 29, 2009, but Respondent Precision Pharmacy pharmacists used it to make Omeprazole 220mg/ml suspension on August 24, 2009. The new drug was given an expiration date of November 22, 2009 by Respondent Precision Pharmacy staff.

c. Preserved water expired on August 29, 2009, but Respondent Precision Pharmacy pharmacists used it to make Rifampin 100mg/ml suspension on August 25, 2009. The new drug was given an expiration date of October 24, 2009, by Respondent Precision Pharmacy staff.

d. Simple syrup expired on October 30, 2009, but Respondent Precision Pharmacy pharmacists used it to make Chloramphenicol 500mg/ml suspension on August 25, 2009. The new drug was given an expiration date of February 21, 2010, by Respondent Precision Pharmacy staff.

e. Simple syrup expired on October 30, 2009, and Fluoxetine had no expiration date, but Respondent Precision Pharmacy pharmacists used both to make Fluoxetine 10mg/ml suspension on August 25, 2009. The new drug was given an expiration date of December 23, 2009, by Respondent Precision Pharmacy staff.

component products, failed to refrigerate drums of large material that were labeled “refrigerate”,

FIRST CAUSE FOR DISCIPLINE

(Against Respondents Precision Pharmacy and Waldrip-Helgren)

(Acting as a Manufacturer Without a License)

52. Respondent Precision Pharmacy and Respondent Waldrip-Helgren are subject to disciplinary action under section 4033, subdivision (a)(1) in that Respondent was acting as a manufacturer without a license in that during inspections of Respondent Precision Pharmacy on or about September 1, 2009, and November 10, 2009, Board inspectors noted large amounts of compounded drugs which were sold to veterinarians nationwide who then sold and/or dispensed them to the ultimate consumer. Complainant refers to and incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth fully.

SECOND CAUSE FOR DISCIPLINE

(Against Respondents Precision Pharmacy and Waldrip-Helgren)

(Acting as a Wholesaler Without a License)

53. Respondents Precision Pharmacy and Respondent Waldrip-Helgren are subject to disciplinary action under section 4043 which provides the definition of "wholesaler." During an inspection of Respondent Precision Pharmacy on September 1, 2009, one of the Board Inspectors determined that the overwhelming majority of Phenylbutazone "prescriptions" (106 prescriptions out of 108) that Respondent Precision Pharmacy filled between August 17, 2009, and September 1, 2009, were not "prescriptions" as defined in Business and Professions Code section 4040 in that they were not given individually for the person or persons for whom they were ordered. Respondent Precision Pharmacy actually filled the orders and then sent them to the prescriber, which is the business of a wholesaler. Complainant refers to and incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth fully.

THIRD CAUSE FOR DISCIPLINE

(Against Respondents Precision Pharmacy and Patricia Waldrip-Helgren)

(Filling Prescriptions with Missing Prescription Requirements/Components)

prescriptions contain the name or names and addresses of the patient or patients, name and
quantity of the drug prescribed and the directions for use, the date of issue, and the name, address
and telephone number of the prescriber. Specifically, during an inspection of Respondent
Precision Pharmacy on September 1, 2009, Board inspectors secured prescriptions that were
missing some of the information required pursuant to section 4040. Complainant refers to and
incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth
fully.

disciplinary action under section 4076, subdivision (a)(2) and (a)(3) which requires a prescription
label to have the directions for use, name of the patient or patients, and strength of drug
dispensed. Specifically, during an inspection of Respondent Precision Pharmacy on September 1,
2009, Board inspectors secured prescription labels that were missing some of the information
required pursuant to section 4076. Complainant refers to and incorporates all the allegations
contained in paragraphs 32 through 47 above, as though set forth fully.

disciplinary action under section 1751.2, subdivision (b) of California Code of Regulations,
which requires that the name and concentrations of ingredients contained in the sterile injectable
product be included on the label. Specifically, during an inspection of Respondent Precision
Pharmacy on September 1, 2009, Board inspectors located labels for sterile injectable products
that were not in compliance with 1751.2, subdivision (b) of California Code of Regulations.
Complainant refers to and incorporates all the allegations contained in paragraphs 32 through 47
above, as though set forth fully.
SIXTH CAUSE FOR DISCIPLINE
(Against Respondents Precision Pharmacy and Patricia Waldrip-Helgren)
(Failure to Maintain Proper/Accurate Preparation Records)

57. Respondents Precision Pharmacy and Respondent Waldrip-Helgren are subject to
disciplinary action under section 1751.3, subdivision (b)(6) of California Code of Regulations,
which requires sterile compounding pharmacies to keep preparation records including the master
worksheet, the preparation worksheet, and the records of end product evaluation results.
Specifically, during an inspection of Respondent Precision Pharmacy on September 1, 2009,
Board inspectors located the Logged Formula Worksheets beyond use dates for a certain drug(s)
that did not match the Master Formula record beyond use date of 90 days. Complainant refers to
and incorporates all the allegations contained in paragraphs 32 through 47 above, as though set
forth fully.

SEVENTH CAUSE FOR DISCIPLINE
(Against Respondents Precision Pharmacy and Patricia Waldrip-Helgren)
(Failure to Maintain Proper Expiration Date of Component)

58. Respondents Precision Pharmacy and Respondent Waldrip-Helgren are subject to
disciplinary action under section 1716.2, subdivision (a)(3) of California Code of Regulations,
which requires that a pharmacy maintain the expiration date of a finished product and that the
date shall not exceed 180 days or the shortest expiration date of any component in the finished
product unless a longer date is supported by stability studies. Specifically, during an inspection
of Respondent Precision Pharmacy on September 1, 2009, Board inspectors located Logged
Formula Worksheets for prepared products which did not use the expiration date of the earliest
expiration date of the component in the finished products. Complainant refers to and incorporates
all the allegations contained in paragraphs 32 through 47 above, as though set forth fully.
EIGHTH CAUSE FOR DISCIPLINE

(Against Respondents Precision Pharmacy and Patricia Waldrip-Helgren)

(Failure to Include Written Justification of Chosen Expiration Dates)

59. Respondents Precision Pharmacy and Respondent Waldrip-Helgren are subject to disciplinary action under section 1751.7, subdivision (a)(4) of California Code of Regulations, which requires compounders to have written justification of the chosen expiration dates for compounded sterile injectable products. Specifically, Respondent Precision Pharmacy assigned several drugs expiration dates which did not use the expiration date of the earliest component to expire and there is no written justification for the choice in date. Complainant refers to and incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth fully.

NINTH CAUSE FOR DISCIPLINE

(Against Respondents Precision Pharmacy and Patricia Waldrip-Helgren)

(Failure to Include/Provide Policies & Procedures for Master Formulas and Worksheets)

60. Respondents Precision Pharmacy and Respondent Waldrip-Helgren are subject to disciplinary action under section 1751.02, subdivision (c)(3)(I) of California Code of Regulations, which requires sterile injectable compounders to have written policies and procedures for sterile injectable compounders to have written policies and procedures for sterile batch compounding use of master formulas and worksheets. Specifically, during an inspection of Respondent Precision Pharmacy on September 1, 2009, Board Inspectors obtained a sample of Master Formulas and Logged Formula Worksheets which had different beyond use dates from the Master Formulas and Logged Formula Worksheets. There were no explanation or policies and procedures on how to use the Master formulas and Logged Formula Worksheets. Complainant refers to and incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth fully.
TENTH CAUSE FOR DISCIPLINE

(Against Respondents, Precision Pharmacy and Patricia Waldrip-Helgren)

(Failure to Conduct End Product Testing for Sterility on All Batches)

61. Respondents Precision Pharmacy and Respondent Waldrip-Helgren are subject to
disciplinary action under section 4342, subdivision (a) as it relates to Business and Professions
Code section 4169, subdivisions (a)(3) and (a)(4) which prohibits a person or entity from
purchasing, selling, or trading a dangerous drug which the person knew or reasonably should
have known were misbranded, and if a drug was purchased, sold, or traded after the beyond use
date on the label. Specifically, during an inspection at Precision Pharmacy on September 1, 2009,
a Board inspector observed an order for Sulfadiazine Sodium/Trimeth 437/80, prescription
#134900 prepared on May 15, 2009, which was given an expiration date of February 27, 2010;
however, further research revealed that the drug had actually expired on October 2, 2008. The
flagged lot and expiration date labels were not on the vial, suggesting they were removed before
dispensing. In addition, several other drugs were found on the shelves of the pharmacy with no
expiration date or lot number. Complainant refers to and incorporates all the allegations
contained in paragraphs 32 through 47 above, as though set forth fully.

ELEVENTH CAUSE FOR DISCIPLINE

(Against Respondents Precision Pharmacy and Patricia Waldrip-Helgren)

(Sale of Misbranded Drugs)

62. Respondents Precision Pharmacy and Respondent Waldrip-Helgren are subject to
disciplinary action under section 1751.7, subdivision (e) of California Code of Regulations, which
requires batch produced sterile injectable drugs compounded from one or more non-sterile
ingredients to be subject to documented end product testing for sterility and pyrogens and shall be
quarantined until the end product testing confirms sterility and acceptable level of pyrogens.
Specifically, during an inspection of Respondent Precision Pharmacy on September 1, 2009, a
Board inspector noted a large amount of sterile injectable products on the pharmacy shelves and
requested proof of pyrogen testing. Respondent Waldrip-Helgren stated that they were not doing
pyrogen testing on all items. Later Respondent Waldrip-Helgren admitted that Respondent
Precision Pharmacy was not doing pyrogen testing at all prior to September 1, 2009 Board
inspection. Complainant refers to and incorporates all the allegations contained in paragraphs 32
through 47 above, as though set forth fully.

TWELFTH CAUSE FOR DISCIPLINE

(Against Respondents Precision Pharmacy and Patricia Waldrip-Helgren)

(Failure to Keep Lot and Expiration Date on Logged Formula Worksheets)

disciplinary action under section 1716.2, subdivision (a)(2) of California Code of Regulations,
which requires records, including lot numbers and expiration dates, be kept when compounding in
quantities larger than required for immediate dispensing by a prescriber or for future dispensing
upon a prescription. Specifically, during an inspection at Respondent Precision Pharmacy on
September 1, 2009, Board inspectors located Logged Formula Worksheets for various
medications/drugs with missing lot and/or expiration dates. Complainant refers to and
incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth
fully.

not correspond with the earliest expiring product. Complainant refers to and incorporates all the
allegations contained in paragraphs 32 through 47 above, as though set forth fully.

Specifically, during an inspection at Respondent Precision Pharmacy on September 1, 2009, Board inspectors noted that there was one (1) drum of griseofulvin and two (2) drums of omeprazole which stated “REFRIGERATE” but which were kept at room temperature in the pharmacy. Complainant refers to and incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth fully.

Respondent Precision Pharmacy and Respondent Waldrip-Helgren are subject to disciplinary action under section 1718.1 of the California Code of Regulations which states that all prescription drugs not bearing a manufacturer’s expiration date are deemed to have expired and may not be manufactured, distributed, held for sale, or dispensed. Section 211.137 of title 21 of the Code of Federal Regulations states that all drug products must have an expiration date.
Specifically, during an inspection at Respondent Precision Pharmacy on September 1, 2009, Board inspectors observed that the following medications were found inside of Respondent Precision Pharmacy without an expiration date: Phenylbutazone apple flavored paste syringes, Ranitidine 1500mg/scoop-100 scoop jar, Rifampin 300mg/scoop-100 scoop jar, Triple Antibiotic ointment 454 gram jar, Iosxsuprine 600mg/scoop-100 scoop jar, Doxycycline 1gm/scoop-100 scoop jar, Acetylcysteine (N) 2gm/scoop-100 scoop jar, Potassium Bromide 500mg capsule-bottle of 100 capsules. Specifically, during an inspection at Respondent Precision Pharmacy on September 1, 2009, a Board inspector located a label for apple flavored bute powder with no route of administration. It did not give directions on whether it was to be mixed in with food or water or taken "as is." The label stated "1gm/scoop, 100gm jar."
However, the "scoop size" was not defined, and if the scoop were to be misplaced, the patient may potentially get a different dose of the drug. Complainant refers to and incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth fully.

In addition, during the inspection at Respondent Precision Pharmacy on November 10, 2009, there were two (2) pharmacists with one (1) intern, seven (7) technicians, and one (1) clerk. The inspector found more technicians than allowed for by the ratio, and not all could be supervised by the pharmacist due to the layout of the pharmacy. Complainant refers to and incorporates all the allegations contained in paragraphs 32 through 47 above, as though set forth fully.

To Whom to May Concern;

Precision Pharmacy previously notified the Nevada Board of Pharmacy of the action taken against our resident state license in February, 2014. The May 2013 California Board of Pharmacy notice against Precision, alleged violations relating to a September, 2009 inspection of the pharmacy. Precision actively and vigorously challenged the accusations. In the interest of a prompt and speedy resolution of the matter, Precision has agreed to and signed a Stipulated Settlement and Disciplinary Order. This Settlement was finalized in February, 2014 by the California Board and is attached hereto.

Precision has also received correspondence from other various Boards of Pharmacy (referenced below) imposing probationary terms and/or citations/finances upon Precision for the same set of facts as alleged by the California Board of Pharmacy. Precision advised the Board of these Orders at the time of their finalization.

It is worth noting, that Precision passed the Board's follow-up inspection two months after the 2009 inspection, as well as every inspection in the five intervening years. No subsequent inspection has noted any violations. Precision's license has always been renewed, and it was recently renewed once again by the California Board of Pharmacy.

Finalized and pending documents from each state are attached and referenced below.

Exhibit 1
Case No.: 14 OC 00064 1B
Dept. No.: 1

IN THE FIRST JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA
IN AND FOR CARSON CITY

MARYANNE PHILLIPS,
Petitioner,

vs.

NEVADA STATE BOARD OF PHARMACY,
Respondent.

ORDER RE: APPLICATION FOR LEAVE
TO PRESENT ADDITIONAL EVIDENCE
IN THE RECORD

THIS MATTER is before this Court on an Application for Leave to Present Additional
Evidence, or Alternatively, to Substitute Evidence in the Record With Identical Certified Copies,
filed by the Nevada State Board of Pharmacy ("Board") on July 21, 2014. An Opposition was
filed on August 21, 2014 by the Petitioner. A Reply and Request for Submission were filed by
the Board on August 29, 2014.

NRS 233B.131(2) provides that if an application is made to the court for leave to present
additional evidence, and it is shown to the satisfaction of the court that the additional evidence is
material and that there were good reasons for failure to present it in the proceedings before the
agency, the court may order that the additional evidence and any rebuttal evidence be taken
before the agency upon such conditions as the court determines.

Here, the dispute centers upon the issue of the authentication of presented exhibits due to
their not being certified copies of official orders from the Medical Board of California. The
Board seeks to substitute or add the three sets of certified copies of the California Board's orders
to the record.
It appears to this Court that there was good cause as to why the certified copies of the orders were not presented to the Board, but in the interest of caution and to eliminate any issue in respect to the authenticity of the exhibits considered by the Board in reaching its decision and to allow those orders to be properly reviewed and considered,

IT IS HEREBY ORDERED pursuant to NRS 233B.131(2) that this matter is remanded back to the Board for the purpose of allowing the Board to consider the certified copies of the California Board’s orders, to review any additional evidence in respect thereto, modify its findings and decision based thereon, and file new findings or decision with this Court.

Dated this 5th day of September, 2014.

SUMMARY SUSPENSION August 31, 2012 The Investigative Committee of the Nevada State Board of Medical Examiners summarily suspended the license of Richard Alan Singer, M.D., to practice medicine in the state of Nevada pursuant to Nevada Revised Statute Section 630.326(1). The Committee believes that due to the recent voluntary surrenders of privileges at two (2) Las Vegas hospitals and Dr. Singer's stated intent to continue the active practice of medicine in Nevada, the health, safety and welfare of the public is at imminent risk of harm and that a summary suspension of Dr. Singer's license to practice is necessary to remove said risk of imminent harm to the health, safety and welfare of the public. bvr Order of Summary Suspension: 2 pages

Please note that the settlement of a medical malpractice action may occur for a variety of reasons that do not necessarily reflect negatively on the professional competence or conduct of the provider. Therefore, there may be no disciplinary action appearing for a licensee even though there is a closed malpractice claim on file. A payment in the settlement of medical malpractice does not create a presumption that medical malpractice occurred. Sometimes insurance companies settle a case without the knowledge and/or agreement of the physician. This database represents information from insurers to date. Please note: All insurers may not have submitted claim information to the Board.

PROPOSED REGULATION OF THE
STATE BOARD OF PHARMACY

LCB File No. R137-14

(The provisions of LCB File No. R138-14 are included in this regulation.)

October 20, 2014

EXPLANATION—Matter in *italics* is new; matter in brackets [*omitted-material*] a material to be omitted.

AUTHORITY: §§1-3, NRS 453.146, 453.2182 and 639.070.

A REGULATION relating to controlled substances; rescheduling certain controlled substances that contain hydrocodone from schedule III of the Uniform Controlled Substances Act to schedule II in conformity with federal regulations; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing federal and state regulations list hydrocodone as a controlled substance in schedule II of the federal Controlled Substances Act and of the state Uniform Controlled Substances Act respectively. (21 U.S.C. §§ 801 et seq.; 21 C.F.R. § 1308.12; NRS 453.166-453.219; NAC 453.520) Before August 22, 2014, both federal and state regulations also listed certain hydrocodone combination products as controlled substances in schedule III of those acts respectively. Those products contain specified doses of hydrocodone in combination with specified amounts of certain other drugs. (21 C.F.R. § 1308.13; NAC 453.530)

On August 22, 2014, the Drug Enforcement Administration of the United States Department of Justice deleted all hydrocodone combination products from schedule III. Accordingly, under federal regulations, all products that contain hydrocodone, whether produced as a single-entity product or in combination with any other active ingredient, are listed as controlled substances in schedule II of the Controlled Substances Act. (79 Fed.Reg. 49,661, 49,682)

Existing law authorizes the State Board of Pharmacy to adopt regulations to add, delete or reschedule substances listed as controlled substances in schedules I, II, III, IV and V of the Uniform Controlled Substances Act. (NRS 453.146) Existing law also provides that, if a substance is designated, rescheduled or deleted as a controlled substance pursuant to federal law, the Board is required, with certain limited exceptions, to similarly treat the substance under the
Uniform Controlled Substances Act within 60 days after the publication in the Federal Register of the final order concerning the federal action. (NRS 453.2182)

This regulation brings the treatment of hydrocodone, whether produced as a single-entity product or in combination with any other active ingredient, into conformity with federal regulations. **Section 1** of this regulation specifies that all hydrocodone combination products are controlled substances listed in schedule II. **Section 2** of this regulation deletes the specified hydrogen combination products from schedule III. **Section 3** of this regulation provides that the reclassification of hydrocodone combination products from schedule III to schedule II does not apply to a prescription for a schedule III hydrocodone combination product that is issued before the effective date of this regulation if the product is dispensed before April 8, 2015.

Dear Respected Board Official,

We are applying for a nonresident pharmacy permit or are renewing our pharmacy permit. In our application, we disclosed that Pharmacy Creations has been the subject of discipline by New Jersey or another state.

Pharmacy Creations strives to provide pharmacy services with highest degree of professionalism and in full compliance with pharmacy practice laws. Despite our best efforts, we have been subject to discipline in the past. The following is a description of our disciplinary history and the corrective actions we have taken to prevent similar infractions.

- **October 16, 2003:** Fine: **$1625.00, New Jersey Board of Pharmacy.** during a routine inspection by the New Jersey Board of Pharmacy, Pharmacy Creations was issued fines for the following infractions: (1) a total of seven medications were found present in the active drug stock inventory that were either expired, misbranded, or improperly stored ($1325.00); (2) the aseptic technique of staff pharmacist Bernie Covalesky had not been be tested since March 2002 ($200.00); and (3) prescription labels for sterile admixture products did not have the time prepared ($100.00).

  **Corrective action:** Pharmacy Creations implemented and enforces an inventory management policy that requires the staff review the entire drug inventory on a regular basis. This assures that our drugs are not approaching, or past, their expiration date and that all products have an appropriate label that is legible and affixed to every bottle. Any medication that has lost its label, or a portion of the label, is quarantined and scheduled for return or destruction as appropriate. Aseptic compounding staff records are reviewed on a regular basis to ensure that they are complete. Staff with incomplete files are not permitted to compound. Finally, all compounded prescription labels are double checked to ensure all required elements appear on the label. Since 2003, Pharmacy Creations has not been cited for similar infractions.

- **May 14, 2007:** Fine: **$100.00, New Jersey Board of Pharmacy.** During a routine inspection by the New Jersey Board of Pharmacy, Pharmacy Creations was issued a fine for the following infractions: (1) the phrase "discard after" appeared on the prescription label for prescription number Rx 131888 instead of the required phrase "use by;" (2) the same prescription (Rx 131888) was
dispensed to a surgery center for administration to a patient but the pharmacy failed to obtain the name of the patient prior to dispensing (as such, the prescription label lacked the patient's name and no patient profile was created); and (3) a prescription for a schedule II controlled substance was missing the name and address of the patient (an order for a CII medication invoiced by Pharmacy Creations to a DEA registered veterinary practice was inadvertently distributed pursuant to a prescription order instead of the required DEA Form-222).

- **Response:** The language used on all labels uses the phrase "use by" to describe the expiration date. Following this inspection, all medications dispensed by Pharmacy Creations require a patient-specific prescription. Pharmacy Creations does not dispense, or invoice medications, for "office use." Finally, Pharmacy Creations is no longer in the business of invoicing medications for office use. However, if an emergency arose in which a CII medication needed to be transferred by the pharmacy to another DEA registrant, the transfer would only be accomplished using a DEA Form-222 as required by state and federal law.

- **October 17, 2013: Probation, Nonresident Pharmacy Permit, Indiana State Board of Pharmacy.** In April 2013, the pharmacist in charge (PIC) of Pharmacy Creations personally appeared before the Indiana Board requesting approval of Pharmacy Creations' nonresident pharmacy permit. During the interview with the Board, the PIC disclosed that Pharmacy Creations had shipped medications to patients in Indiana without a license. Because the Board noted for the record that Pharmacy Creations is performing a valuable and needed service to Indiana patients\(^1\), the Indiana Board approved the application for a nonresident permit but placed the license on probation for at least 16 months. Upon expiration of the 16-month period, Pharmacy Creations will petition the Board to withdraw the probation.

**Corrective action:** Pharmacy Creations understands that any shipment of prescription medications into another state either requires a non-resident pharmacy permit if required by that state, or the shipment must qualify for an exemption from licensure. Pharmacy Creations is in the process of becoming licensed in all states that require licensure and will not ship to any jurisdiction that does not allow shipment without a permit.

- **April 22, 2014: $2000.00 Fine, Probation, Nonresident Pharmacy Permit, Ohio State Board of Pharmacy.** In October 2012, Pharmacy Creations applied for a nonresident Terminal Distributor of Dangerous Drugs permit (nonresident pharmacy permit). The application was delayed because the Board had

\(^{1}\) *In the matter of Pharmacy Creations. Cause No. 2013 IBP 0046. Indiana Board of Pharmacy Oct. 17, 2013 at 3.*
evidence that Pharmacy Creations had shipped medications into Ohio without a permit prior to the application. At issue was a single shipment of an injectable compound to an ophthalmologist who returned the shipment once it was determined that Pharmacy Creations was not licensed. The adjudication process for issuance of a license took almost 18 months to complete. At the conclusion of the process, the Board of Pharmacy issued a fine of $2000.00, granted the request for the nonresident license, and immediately placed the new license on probation for 12 months.

**Corrective action:** The shipment of drugs into Ohio took place prior to the corrective action related to the shipment of drugs into Indiana. Nonetheless, Pharmacy Creations understands that any shipment of prescription medications into another state either requires a non-resident pharmacy permit if required by that state, or the shipment must qualify for an exemption from licensure. Pharmacy Creations has decided to become licensed in all states that require licensure and will not ship to any jurisdiction that does not allow shipment without a permit.

Thank you for the opportunity to answer your questions. Pharmacy Creations is committed to patient safety and compliance and has taken each of these matters seriously. Please do not hesitate to request additional information from me about Pharmacy Creations.

Sincerely,

Scott Karolchyk, MS, RPh., FIACP, DNM

RE: Request to Decrease Bond Amount
Blu Pharmaceuticals, LLC License # WH01548

To whom it may concern,

We would like to request a Surety Bond Reduction for our wholesale license with Nevada State Board of Pharmacy. We have been a Nevada license holder with a $100,000 surety bond since 2009 and have had no disciplinary during this time.

If you have questions or need more information please call me at (270) 586-6386 ext. 110.

Thank you,

Sharon B. Luster
Vice President
DISCUSSION AND DETERMINATION – DECEMBER 2014

1) Return of Prescription Drugs to a Pharmacy

In an effort to get unused prescription drugs out of homes and not have to be the “wastebasket” of the pharmaceutical industry, DEA has changed the rules to allow retail pharmacies, hospitals, and other registrants to voluntarily “take back” drugs for destruction, including controlled substances. Registrants must apply to change their registration to do so. Currently, Nevada state law prohibits pharmacies from taking back drugs (NAC 639.760)

2) Wholesaler Pedigree Requirements

DQSA has established federal pedigree requirements that supersede all state requirements (NRS 639.535 start). Note, this is in statute . . .

3) Third Party Logistic Companies (3PL’s)

Currently we license 3PL’s as “wholesalers”, which really is not an accurate fit. Do we create another licensing category??

4) Outsourcing Facilities

The FDA’s new category of compounding “pharmacies” called “outsourcing facilities” has drawn much discussion over the past year. We have been licensing them as “pharmacies”, when actually they manufacture. Do we create a new licensing category here as well?
