4. Discipline

A. Jamie Aguilar, PT (15-015-PT-N)
Jason Penrod recused from participation in this matter. Mr. Penrod's mother is employed at the physician's office that filed the complaint.

Kevin Desmond disclosed that he knows Mr. Aguilar from being a patron at Scolari's Pharmacy and from Mr. Aguilar's past employment at Renown Health. Mr. Desmond stated that he could participate in this matter fairly and without bias.

Jamie Aguilar, pharmaceutical technician, appeared and was sworn by President Basch prior to answering questions or offering testimony.

Mr. Edwards moved to have Exhibits 1 through 6 admitted. After allowing time for Mr. Aguilar to review the exhibits and state any objections, President Basch accepted the Exhibits into the record.

Mr. Edwards explained that in March 2015, Board Staff received a complaint from the physician's office that a prescription was dispensed without a valid prescription (Exhibit 1). He stated that in February 2015, Scolari's Pharmacy had faxed a refill request to the physician's office, but the request was denied because it had been too long since the patient's last exam (Exhibit 2). Mr. Edwards explained that Exhibit 3 is a statement from Mr. Aguilar describing the "fill and gone" and the events leading up to his filling and dispensing of a dangerous drug. Exhibit 4 is a letter from Lon Hettich, pharmacy manager, describing a complaint from the physician's office to the pharmacy as well as an explanation of "fill and gone" dispensing. Mr. Edwards stated that in July 2015, Board Staff served Mr. Aguilar a Cease and Desist Order with Citation for Unlicensed Practice of Pharmacy via Certified U.S. Mail and Electronic Mail (Exhibit 5). Mr. Edwards stated that on August 19, 2015 Board Staff received a payment of $1,000.00 from Mr. Aguilar satisfying the citation.

Mr. Edwards called Jamie Aguilar as a witness.

Mr. Aguilar stated that he was unaware that the physician's office denied the refill request. He explained that he provided a "fill and gone" of birth control medication for the patient due to a request by a coworker who is a friend of the patient. Mr. Aguilar filled the prescription based off a transfer record from the pharmacy where the patient had previously obtained the medication. The transfer record transmitted to Scolari's had no valid refills remaining.

Mr. Aguilar answered further questions regarding the "fill and gone" procedure and lack of record keeping.

Mr. Aguilar admitted that evidence exists to establish a factual basis for the violations alleged in the Accusation that while employed by Scolari's Pharmacy, he acted outside the scope of practice for a pharmaceutical technician by filling and dispensing a medication without a prescription or authorization from a practitioner and failed to maintain a recordkeeping system that would allow for readily retrievable prescription records.
Lon Hettich, pharmacy manager, appeared and was sworn by President Basch prior to answering questions or offering testimony.

The Board questioned Mr. Hettich on Scolari’s Pharmacy’s policies and procedures regarding “fill and gone” prescriptions.

Mr. Edwards called Joe Depczynski as a witness. Mr. Depczynski, Inspector/Investigator for the Nevada State Board of Pharmacy, appeared and was sworn by President Basch prior to answering questions or offering testimony.

Mr. Depczynski responded to questions by Mr. Edwards regarding the procedure he followed while investigating this case.

Mr. Depczynski stated that during his investigation, he requested a comment by Delia Nunoz, the relief pharmacist on duty that day.

Mr. Edwards moved to have the statement from Ms. Nunoz accepted into the record as Exhibit 7. President Basch accepted Exhibit 7 into the record.

Mr. Depczynski explained that Ms. Nunoz’s statement indicated that she did not recall filling a prescription for the patient nor the birth control in question.

**Board Action:**

**Motion:** Kevin Desmond moved to find that the allegations in the Notice of Intended Action have been proven and to find Jamie Aguilar guilty in the First and Second Causes of Action.

**Action:** Passed unanimously

B. Esai Rodriguez, PT (14-048-PT-N)

Esai Rodriguez was not present.

Mr. Edwards moved to have Exhibits 1 through 6 admitted. President Basch accepted the Exhibits into the record.

Mr. Edwards explained that Board Staff received notification from CVS Health's director of regulatory affairs that Mr. Rodriguez was terminated from his employment as a pharmaceutical technician at CVS Pharmacy #9168. Mr. Rodriguez was terminated for diversion of controlled substances. During an interview with a CVS regional loss prevention manager, Mr. Rodriguez admitted to diverting approximately 300 Xanax 1 mg. tablets, 300 Xanax 0.5 mg. tablets, 200 Xanax 2 mg. tablets, 60 Diazepam 5 mg. tablets, 100 Diazepam 10 mg. tablets, 60 Soma 350 mg. tablets, 100 Soma 250 mg. tablets, 50 Tylenol #3 tablets, 150 Tramadol 50 mg. tablets and 30 Vyvanse 30 mg. tablets.

Mr. Edwards stated that Board Staff served the Notice of Intended Action and Accusation by certified mail on July 29, 2015. He explained that the Accusation was returned to the Board
office and marked unclaimed (Exhibit 1). Mr. Edwards also provided a copy of the letter sent to Mr. Rodriguez notifying him of the Hearing (Exhibit 2). Mr. Edwards explained that Exhibits 3, 4, 5 and 6 are a statement from CVS listing the diverted drugs, an email from CVS with a statement from Mr. Rodriguez admitting to diverting the controlled substances, the police report filed by CVS, and a letter from CVS and the DEA-106 form reporting the loss of controlled substances to DEA.

At that time, the Board approved Ms. Marsh’s pharmaceutical technician application pending Ms. Marsh’s relocation to Nevada and a positive evaluation by PRN-PRN. Mr. Edwards stated that Ms. Marsh did not pursue her Nevada Pharmaceutical Technician license, but has since been accepted by Roseman University pending her ability to obtain a Nevada Intern Pharmacist License.

Mr. Edwards stated that he spoke with Larry Espadero of PRN-PRN who expressed positive comments regarding Ms. Marsh.

Ms. Marsh answered questions to the Board’s satisfaction regarding her past arrest, addiction recovery and education.

**Board Action:**

**Motion:** Jason Penrod moved to approve Jessica Marsh’s Application for Intern Pharmacist License.

**Second:** Kirk Wentworth

**Action:** Passed Unanimously

6. Request for Removal of Restrictions on Pharmacy License – Appearance

PharMerica and Spectrum Non-Sterile Compounding

Roland Werner, Pharmacy Director, appeared and was sworn by President Basch prior to answering questions or offering testimony.

Mr. Werner explained that due to a past compounding error, the Board placed a compounding restriction on Spectrum. In June 2014, PharMerica purchased Spectrum. Due to the merger of the two companies, the compounding restriction transferred to PharMerica as well. Mr. Werner requested the Board to consider lifting the compounding restriction on PharMerica and Spectrum.

Mr. Edwards clarified that the compounding restriction stated that Spectrum may continue to compound products it has been compounding in the ordinary course of its business, but Spectrum may not compound additional products not presently part of its ordinary course of business, oral capsules and products for outpatient use, without first obtaining specific Board approval.

The Board questioned Mr. Werner regarding past discipline, compounding procedures and PharMerica’s compounding recipes.
Dave Wuest, Deputy Executive Secretary of the Nevada State Board of Pharmacy, appeared and was sworn by President Basch prior to answering questions or offering testimony.

7. Proposed Regulation Amendment Workshop

A. **New Language to be added to NAC Chapter 639**, pursuant to the Good Samaritan Drug Overdose Act, SB 459 (2015), establishing educational requirements and standardized procedures or protocols for the furnishing of opioid antagonists by pharmacists and other appropriate entities to persons at risk of experiencing an opioid-related overdose or to a family member, friend or other person in a position to assist persons at risk of experiencing an opioid-related drug overdose.

Mr. Pinson provided a brief summary of SB 459.

Krystal Ricco, Roseman University, submitted written public testimony expressing concern regarding the use of the word “training” in Section 3. Board discussion ensued regarding alternate phrasing.

Mr. Edwards and Mr. Wuest provided more information.

Elise Monroy, Health and Human Policy Service Analyst for the Governor’s office, stated that the intent of the Bill is to expand access to Naloxone. She expressed concern that collecting too much information, while great for data analysis, may deter patients from seeking help as well as deter pharmacy participation.

Board discussion ensued regarding potential record keeping options.

Liz MacMenamin, RAN, expressed concern that Sections 4 through 6 may be asking for too much patient information.
Mr. Wuest reiterated that the intent of the Bill is to make Naloxone available and stated that the law allows for other means for patients to obtain Naloxone without going to a pharmacy.

Beth Foster, Chief of Pharmacy VA, and Heather Mooney, pharmacist VA, supported making Naloxone more readily available to patients. Ms. Mooney requested clarification regarding Section 9.5b.

Keith Macdonald, pharmacist, expressed concern over the time it takes to educate a patient on how to use Naloxone during an emergency situation. He also questioned the accuracy of the patient name and demographic information provided while trying to divert drugs for others.

Certificate of Registration No. PH01263,

Respondents.

CASE NO. 15-035-RPH-S
CASE NO. 15-035-PH-S

NOTICE OF INTENDED ACTION AND ACCUSATION

Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3), and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Hitesh Amin (Mr. Amin), Certificate of Registration No. 12279, was a pharmacist registered with the Board, and Respondent Sav-On Pharmacy #6093 (Sav-On), Certificate of Registration No. PH01263, was a pharmacy registered with the Board.

II.

On March 26, 2015, patient R.K. saw her physician, Dr. Johnson, who prescribed a quantity of thirty (30) amitriptyline 10 mg. with instructions to take one tablet by mouth at bedtime.

III.

Sav-On accepted the prescription on March 26, 2015, and filled the prescription that same day.

IV.

On March 28, 2015, R.K.'s husband picked up the medication (Rx #490953) at the
pharmacy drive-thru window. Pharmacist Amin performed patient counseling at the time of pickup.

V.

On May 13, 2015, pharmacist Rickey Smith (Mr. Smith) processed a refill request for Rx #490953. During the verification process, Mr. Smith reviewed the prescription label against the scanned prescription image in the pharmacy computer system. He discovered that the initial fill for Rx #490953, sold to R.K.’s husband on March 28, 2015, contained amitriptyline 100 mg. tablets, rather than the amitriptyline 10 mg. tablets as prescribed.

VI.

Mr. Smith contacted R.K. and Dr. Johnson’s office to report the error.

VII.

R.K. ingested twenty-nine (29) of the wrong medication before the error was discovered.

VIII.

R.K. contacted Dr. Johnson on April 22, 2015, prior to her knowledge of the dosage error. She reported to Dr. Johnson that she had been experiencing ill effects since beginning the treatment of amitriptyline.

IX.

Dr. Johnson informed R.K. that amitriptyline 10 mg. is a low dose; 100 mg. is a typical dosage. He did not substantiate the potential for any long term effects from ingestion of the higher dose.

X.

According to pharmacy records, the error originated with pharmaceutical technician Janet Nyeholt (Ms. Nyeholt), who performed the data entry for R.K.’s prescription. During data entry, Ms. Nyeholt inadvertently typed amitriptyline 100 mg. tablets, rather than the amitriptyline 10 mg. tablets prescribed by R.K.’s physician.
XI.

Pharmaceutical technician T.H. initiated the filling of Rx #490953. She displayed the prescription data on the pharmacy computer screen and retrieved the stock bottle of amitriptyline 100 mg. tablets from the shelf. T.H. verified that the bottle of medication matched the information that Ms. Nyeholt input during data entry. T.H. completed the filling process and staged the product for the pharmacist’s verification.

XII.

Mr. Amin performed the final product verification. He reviewed the scanned image of the prescription, however, Mr. Amin did not detect that the prescription bottle contained the wrong strength of amitriptyline. Mr. Amin approved the prescription as accurate and complete and placed the final product in “Will Call” for customer pickup.

XIII.

Mr. Amin indicated to the Board Investigator that during patient consultation, the pharmacist has the opportunity to view the scanned prescription image. The pharmacist typically does not review the image unless there is a question or issue during the counseling. Mr. Amin did not review the scanned prescription and failed to detect the data entry error during counseling.

FIRST CAUSE OF ACTION

XIV.

In failing to strictly follow the instructions of R.K.s’ physician by verifying and dispensing a prescription for amitriptyline 100 mg. tablets, rather than the amitriptyline 10 mg. tablets prescribed, Mr. Amin violated Nevada Administrative Code (NAC) 639.945(1)(d) and/or (i), which violations are grounds for action pursuant to Nevada Revised Statute (NRS) 639.210(4), (11), and/or (12), and NRS 639.255.
SECOND CAUSE OF ACTION
XV.

By failing to provide adequate counseling for R.K.s’ new prescription, Mr. Amin violated NRS 639.266(1) and NAC 639.707(1) and (2), as well as NAC 639.945(1)(i), which violations are grounds for action pursuant to NRS 639.210(4), (11) and/or (12), and under NRS 639.255.

THIRD CAUSE OF ACTION
XVI.

As the pharmacy in which the violations alleged above occurred, Sav-On is responsible for the actions of its employee, Hitesh Amin, as alleged herein, pursuant to NAC 639.945(2), which is grounds for discipline pursuant to NRS 639.210(4), (11) and/or (12), and NRS 639.255.

Therefore, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of these respondents.

Signed this 19th day of August, 2015.

Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3), and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Hitesh Amin (Mr. Amin), Certificate of Registration No. 12279, was a pharmacist registered with the Board, and Respondent Sav-On Pharmacy #6093 (Sav-On), Certificate of Registration No. PH01263, was a pharmacy registered with the Board.

XIV.

In failing to strictly follow the instructions of R.K.'s physician by verifying and dispensing a prescription for amitriptyline 100 mg. tablets, rather than the amitriptyline 10 mg. tablets prescribed, Mr. Amin violated Nevada Administrative Code (NAC) 639.945(1)(d) and/or (i), which violations are grounds for action pursuant to Nevada Revised Statute (NRS) 639.210(4), (11), and/or (12), and NRS 639.255.
SECOND CAUSE OF ACTION

XV.

NRS 639.266(1) and NAC 639.707(1) and (2), as well as NAC 639.945(1)(i), which violations
are grounds for action pursuant to NRS 639.210(4), (11) and/or (12), and under NRS 639.255.

THIRD CAUSE OF ACTION

XVI.

As the pharmacy in which the violations alleged above occurred, Sav-On is
responsible for the actions of its employee, Hitesh Amin, as alleged herein, pursuant to NAC
639.945(2), which is grounds for discipline pursuant to NRS 639.210(4), (11) and/or (12), and

Therefore, it is requested that the Nevada State Board of Pharmacy take appropriate
disciplinary action with respect to the certificates of registration of these respondents.

Retail Pharmacy ARx Policies and Procedures

These Policies and Procedures govern the retail pharmacy operations of Albertson's LLC and New Albertson's, Inc., as adopted and approved by the Pharmacy Compliance Committee, and pursuant to the services agreements between the two companies. These policies are effective as of the date indicated and may be modified or amended at any time, upon Pharmacy Compliance Committee approval.
For other patients, document the refill number, patient name, phone number, and medication on the system downtime log and process all logged prescriptions once the system is restored using normal procedures for prioritizing patient orders.

SECTION C. PHARMACY WORKFLOW STANDARDS

1. **In-Window Processing**  
   If staffing allows and as permitted by state law, In-Window functions should be performed by a technician.\(^{13}\)

   Greet the patient (or his/her representative), using his/her name, if known, and maintain a courteous, professional demeanor throughout the interaction.

   a. **New Prescription Intake**  
      When presented with a new patient or new prescription, the following information should be requested or confirmed while the patient is at the In-Window or on the phone and entered directly into the pharmacy system.

      1. **Verify the Prescription Information**  
         Before scanning it into the pharmacy system, check the prescription hard copy for all required elements, including:

         ▶ Patient name;
         ▶ Patient address (if a controlled substance);
         ▶ Date of birth (if not already documented, verify with the patient and write on the hard copy);
         ▶ Date written;\(^{14}\)
         ▶ Medication name, strength, and quantity;
         ▶ Sig or directions;
          - If the prescribed directions are "as directed," "take UD," or "UD," clarification must be obtained and must be specific enough to determine the daily dosage and an accurate day's supply.
          - Once clarification is obtained, note the directions/dosage, the name of the person who provided the information, and the date.
         ▶ Refill information, as applicable; and
         ▶ Prescriber's signature and other required information (e.g., address and DEA/NPI number for controlled substances).

         Clarify with the patient, as appropriate, or verify with the prescriber any unclear or missing elements.

---

\(^{13}\) Use the keyboard rather than the mouse or a touch screen to enter information quickly and efficiently. Also using the appropriate patient search criteria (first initial of the patient's first name and the first three (3) letters of the patient's last name and, if searching the central database, the patient's DOB), drug and "sig" speed codes in all data entry windows will also help to speed the process. If the drug speed code is not known, enter the first four letters of the drug name follow by the strength.

\(^{14}\) A prescription must clearly indicate the date written (including month, day, and year). If the prescription is for a controlled substance, the date written MUST be indicated by the prescriber. A valid prescription must be dated on or prior to the date of dispensing. Post-dated prescriptions must not be accepted.
ii. **Scan the Prescription Hard Copy**
Scan the prescription hard copy into the pharmacy system. After scanning, select the "Full Page" button to review the image quality. Image quality is extremely important. Remember, the pharmacist will conduct a final check from the scanned image. This step must not be omitted.

iii. **Complete/Verify the Patient Profile**
Search for the patient using the first few letters of the patient’s first and last names and/or date of birth. When searching the central database, use the patient’s date of birth. If the patient is not found, create a new patient profile that includes the following information. For existing patients, verify the current accuracy of the following:

- The patient’s full name (verify the correct spelling), home address, preferred telephone number (e.g., home, cell, work), gender, and date of birth;
- Any patient allergies, drug reactions, or existing medical conditions (including pregnancy status);
- The patient’s other prescription or OTC medications (including those obtained from other pharmacies or by mail order);
- The prescriber’s name and telephone number;
- The patient’s preference for a childproof/non-childproof container;\(^{15}\)
- The patient’s generic preference, if available;
- The patient’s language preference;
- The name of the patient’s insurance carrier, if any, (appropriately indicate in the system if the patient has none) or preferred method of payment; and
- If the request is presented by phone, the patient’s preferred pick up time.

iv. **Enter Order Information**

a) **Medication**
Search for the medication using the first few letters of the drug name followed by the strength to ensure efficiency and accuracy (e.g., Ibu800 will return results for the Ibuprofen 800 mg. tablet).

b) **Substitution**
Document the appropriate DAW code indicated by the prescriber.

- 0 = generic is ok with patient and prescriber;
- 1 = prescriber has documented on the hard copy that generic is not allowed;
- 2 = patient has requested brand only (Note: This must be documented by the pharmacy on the hard copy prior to scanning.)

The use of any other DAW codes requires approval from the Third Party Help Desk.

\(^{15}\) With the exception of nitroglycerin, potassium tablets, and oral contraceptives, all prescription products sold by company pharmacies must be packaged in child-resistant safety containers, as required by the Consumer Product Safety Commission, unless otherwise directed by the patient. Regular or long-term patient preferences should be documented at least once per year by adding the "Easy Open Policy Acknowledgment Document" to the documents selected under the patient record.
c) **Quantity**
Enter the quantity prescribed exactly as it appears on the prescription hard copy. The pharmacy system uses exact metric quantity, number of pills or grams/milliliters. The "Dispensed Qty" field will automatically populate with the "Prescribed Qty" entered. Dispensing a larger quantity than written requires prescriber approval.

d) **Sig**
Enter the Sig/directions using Sig Speed Codes, free text, or selecting one from the "Associated Sigs" grid.

e) **Days’ Supply**
Calculate the days’ supply accurately from the hard copy based on the dispensed quantity, not the prescribed quantity. If the calculation results in a fraction, round the days’ supply down. Calculating an accurate days’ supply is critical to ensuring appropriate third-party billing.

f) **Refills**
Enter the number of refills.

➢ For PRN Refills for one year, enter “99.”
➢ For PRN refills for six (6) months, enter 66.
➢ For PRN refills for three (3) months, enter 33.

g) **Prescriber**
Search for the prescriber using the first few letters of the first and last names or by the prescriber’s DEA or NPI number. The pharmacy associate must choose the correct prescriber and verify the correctness of the NPI and DEA numbers against the imaged hard copy.

**Stop** on the “Dates” window to verify that all dates and finishing options are accurate.

**Stop** on the “Payment Options” window to verify that the plan codes are in the correct billing order and to view or add any “Dispensing” or “RPh Notes.”

v. **Check Data Entry**
**Stop** on the “Final Data Entry Check” window and review all fields on this window before finishing the prescription. If errors are found, select the “Back” button to navigate to the appropriate window(s) to correct.

vi. **Finish the Patient Order**
Select the “Finish” button to move the prescription to the “Order Details” grid. After doing so, the numbering tag will print. Attach the numbering tag to the back of the prescription hard copy. Hard copies written for controlled substances must be checked and signed by a pharmacist. Once completed, immediately file the hard copy.

After the “Finish” button is selected, the prescription undergoes a DUR screening, prescriber eligibility check, and third-party adjudication. Any issues identified by these processes must be appropriately resolved.
b. **Prescription Refills/Renewals/Transfers**

i. **Refill/Renewal/Transfer Intake**
When presented with a prescription refill request, scan or manually enter the prescription number into the pharmacy system, verify the patient's name and telephone number, and confirm the desired pick up time. Select the "Finish" button to move to the "Order Details" grid. Check for remaining refills and inform the patient if the prescriber's authorization is needed or if the prescription can be refilled immediately.

Any necessary prescriber authorizations should be handled immediately and the prescriber's office should be notified if the patient is waiting.

- If the prescriber is set up for fax or e-prescribing, the refill authorization will automatically be sent to the prescriber.
- If the prescriber is not set up for fax or e-prescribing, use the "Prescriber Call List" report to contact the prescriber.

ii. **Prescriber Refill Authorization**
All prescription refills/renewals must be properly authorized by a prescriber or the prescriber's agent and the prescriber's authorization must be consistently, thoroughly, and accurately documented. Verbal and faxed prescription refills/renewals must be given a new prescription number. Appending or adding refills to prescriptions that are exhausted is not acceptable.

Prescription renewals transmitted via the E-Prescribing network will be managed by the system as follows when the response is received from the prescriber:

- If approved, the prescription will be automatically rewritten and passed on to the Fill Station.
- If denied, the prescription will appear in the "Technician Intervention Queue" and will indicate a status of "E-Rx Refill Denied." In this instance, the customer must be contacted and advised.

a) **Verbal Authorization**

When obtaining verbal authorization for a prescription renewal or refill, the following information must be documented:

- The identity of the person providing authorization (e.g., the name of the nurse or other associate in the prescriber's office if not provided directly by the prescriber);
- The date;
- The number of authorized refills; and
- The initials of the pharmacist receiving authorization.

b) **Fax Authorization**

When refill authorizations are provided by fax, the entire faxed authorization document must be retained in the hard copy file along with the rewrite document. The identity of the person granting authorization must be confirmed. The faxed authorization document must be scanned into the system as an additional page of the hard copy as part of the rewrite process.
c) Refill Limitations

Prescription refill limitations are dictated by prescriber’s instructions and laws governing controlled and non-controlled prescription items. Pharmacists must be familiar with their state’s refill limitation laws. Federal law provides as follows:

i) Non-controlled Legend Drugs

Non-controlled legend drugs may be refilled up to one year as authorized by the prescriber.

ii) Controlled Substances – Schedule II

Schedule II controlled substances are not refillable.

iii) Controlled Substances – Schedule III – V

Except where more restrictive state laws apply, Schedule III through V controlled substances are refillable up to five (5) times within six (6) months as authorized by the prescriber.

Every prescription over one (1) year beyond its issue date must have prescriber authorization for renewal.16 If authorized, the prescription must be assigned a new prescription number and in every other respect must be treated as a new prescription.

c. Closing Patient Orders

When all prescriptions in the patient’s order have been processed, select the “Close Order” button to enter the pickup information. Selection of the appropriate pick up type is very important and determines the Fill Station sorting priority, as follows:

- STAT: Patient is in the store waiting for the prescription.
- WAITING: Prescriber called, faxed, or e-prescribed the prescription.
- WILL CALL: A time has been designated to pick up the prescription.
- DELIVERY: Prescription will be delivered.
- MAIL: Prescription will be mailed.

If necessary enter an order note. The “Order Note” is the only type of note that prints and is the preferred type of note for communications.

Any prescription orders requested by the patient should be processed and the prescription order closed while the patient remains at the In-Window or on the phone.

As a final step, access the “Fill Station Work Queue” to evaluate the workload and give the patient an accurate wait time. Thank the patient using his/her name. Return to the “In-Window Work Queue” to evaluate any issues that need to be resolved or prescriptions that need to be processed manually. This window should always be open at the In-Window.

16 This one (1) year expiration is established by company policy and applies even in states with less-restrictive standards.
d. **Generic Substitution**

To facilitate the drug product selection process when the physician and patient agree to the dispensing of a generic product, the pharmacy system assists the pharmacist by automatically linking branded products to their FDA-approved generic alternatives. Generics are linked to brand products if identical generic ingredients are in both drugs, regardless of federal therapeutic ratings. The generic will be of like dosage form, route of administration, and similar release of medication (e.g., enteric coated or sugar coated). These links serve only as a reminder and a reference for determining which products are available as lower cost alternatives to brand products. They do not indicate company or state approval of a product’s substitution in any given situation, but products are listed in the order of warehouse availability or company-preferred generic.

i. **FDA Orange Book**

Although the FDA Orange Book is the established standard for many states, many brands and generics are not rated for bioavailability. Whether or not rated, drugs with an ANDA or NDA number are considered approved by the FDA for distribution and may be considered in the drug product selection process. Please refer to the FDA Orange Book or product letters.

ii. **Non-Formulary Substitutions**

In states that have adopted formularies, when filling a prescription for a non-AB rated or non-formulary drug:

- Contact the doctor;
- Request permission to substitute XXX drug by XXX manufacturer; and
- If authorization is given:
  - Void the prescription originally issued;
  - Manually rewrite the prescription hard copy for the alternative product;
  - Process the prescription as a new, phoned-in prescription; and
  - File as usual; or
- If authorization is NOT given, indicate, “**Do not substitute**” (in the manner required by your state’s laws) on the original hard copy and file as indicated.

e. **Drug Utilization Review**

The automated DUR screening system is a valuable technological advancement developed to aid our pharmacists in the proper filling of a prescription. However, it is not a substitute for the pharmacist’s personal review of every DUR issue. Proper handling of DUR issues is vitally important, not only for the health of the patient, but also to preserve the patient/pharmacist/prescriber relationship. Pharmacists must review the DUR issues and make appropriate assessments prior to dispensing every prescription. All prescriptions flagged in the "Pharmacist Intervention Queue" require evaluation, documentation, and biometric authentication by a pharmacist.

A comprehensive DUR screening can only be performed if the patient’s record has complete information on allergies and medical conditions. The pharmacy system assists the pharmacist in providing conscientious pharmaceutical care by automatically checking for:

- Drug to drug interactions,
- Drug to allergy warnings,
- Drug to medical condition alerts,
RETAIL PHARMACY
POLICIES AND PROCEDURES

Drug-age precautions,
Drug-pregnancy/lactation precautions,
Drug overlaps,
Dosage ranges, and
Drug side-effect warnings.

i. Accessing the Pharmacist Intervention Queue

Step 1. A DUR screening is initiated in the pharmacy system by accessing the pharmacist intervention queue, as follows:

✓ Select the “QA Station” button from the “Launch Toolbar” location; then
✓ Select the “QA Work Queue” icon to call up the “Quality Assurance Work Queue”;

The pharmacist intervention queue will appear in the lower half of the window.

ii. Drug Utilization Review and Resolution

Step 2. Once a prescription is selected from the pharmacist intervention queue, the “Drug Utilization Review Resolution” window will display. This window contains information to assist the pharmacist in evaluating and resolving the DUR issues. Information available includes:

➢ General patient and prescriber information,
➢ “Allergies and Medical Conditions” grid,
➢ “Drug Notes,”
➢ An “Interactions and Overlaps” grid,
➢ An interactors tab,
➢ A “Monograph” tab: For drug-to-drug interactions only, the monograph is available and contains additional information about the interaction such as:
  o Mechanism of action
  o Clinical effects
  o Predisposing factors
  o Patient management
  o Discussion
  o References
➢ A “Patient Rx History” tab (defaults to the past 6 months),
➢ A “Script Image” tab,
➢ A “Notes” tab (must be reviewed whenever the tab appears in blue),
➢ A “Pricing Info” tab (must be reviewed to ensure appropriate billing to third-party plans); and
➢ The “Prescription Record Window” is displayed when the “Rx Record” button is selected.

iii. Documenting the DUR Resolution

Step 3. From the “Drug Utilization Review Resolution” window, the pharmacist must document the DUR resolution based on a complete evaluation and utilizing professional judgment, as follows:

✓ Select the interaction to be resolved from the interactions grid,
RETAIL PHARMACY  
POLICIES AND PROCEDURES  

✓ Select the drop-down arrow in the resolution list box,  
✓ Select the appropriate resolution from the drop-down list, and  
✓ Enter a resolution note.

Repeat these steps until all yellow highlighted interactions listed in the interactions grid have been resolved. Then select the "OK" button and complete the required biometric authentication by touching a registered finger to the biometric authentication device. Once completed, the prescription will then either adjudicate to "Third Party Online Processing" or advance to the "Fill Station Work Queue" with a "Ready for Fill" status.

Interactions highlighted in gray do not require resolution documentation; however, they must still be evaluated by a pharmacist to ensure quality pharmaceutical care.

iv.  **DUR Screening Limitations**  
The automated DUR screening system has the following limitations that a pharmacist must take into consideration:

➢ With the exception of compounded products, drugs added at store level will not be screened for interactions.
➢ A message "MANUAL DUR REQUIRED" on the quality assurance window will alert the pharmacist that such prescriptions exist on a patient's Rx history and must be manually checked by the pharmacist. A prescription with a "MANUAL DUR REQUIRED" warning will not move to the pharmacist intervention queue for resolution. Instead, it will advance through the workflow stations for evaluation by the pharmacist at the QA station.
➢ Only new, on hold, or rewritten prescriptions are screened for interactions against those prescriptions existing in a patient's prescription history. Prescription refills are not screened as this process would have occurred on the initial fill.
➢ Inactive prescriptions will also not be included in DUR screenings.

2.  **Fill Station Processing**  
If staffing allows and as permitted by state law, Fill Station duties should be performed by a technician. Prescriptions in the "RPh Intervention Queue" cannot be filled and passed to "Will Call" until a pharmacist has evaluated them.

a.  **Product Selection**  
From the "Fill Station" window, select the order prescriptions from the electronic queue, which are sequenced according to filling priority. Prescriptions in the same order are filled all together. Pull the manufacturer stock bottle(s)/product needed to fill the entire order. Each prescription must be filled individually. If the order is large, print a pick ticket to assist in product retrieval.

b.  **Product Verification**  
Scan the barcode of a stock bottle.

➢ When using medication from more than one stock bottle, scan each stock bottle.
➢ If state law requires, enter the product lot number and/or expiration date.
➢ If the barcode is missing or does not scan, manually enter the NDC number for the product.
Important Note: Selecting the entire NDC number from the product database that EXACTLY matches the product dispensed is essential to ensure that accurate dispense quantities are generated; proper billing is submitted to third-party programs, including any federal- or state-regulated program; and precise verification of the prescription and its contents is possible. When processing a prescription, the entire NDC number indicating the product and the package size that is used to fill the prescription must be selected from the product database. For example, if a prescription for ZOLOFT 100 mg. tablets #30 is dispensed from the manufacturer’s stock bottle of 30, the following NDC number must be selected: 00049-4910-30. If the same prescription is dispensed from the manufacturer’s stock bottle of 100, the following NDC number must be selected: 00049-4910-41.

- If the barcode of the medication stock bottle matches the dispensed drug, the prescription will be highlighted, a vial label will print, the status will be updated to “Scan Verified,” and the medication (pill) image will be displayed.
- Open the stock bottle(s) and visually verify the medication in the stock bottle(s) with the image displayed.
- Verify the “On-Hand Qty” in the computer is the same as the quantity on the shelf. Maintaining accurate on-hand quantities is critical for several pharmacy processes.

Important Note: If the stock bottle, the NDC, and the label bar code do not match, a warning message will display and a label will not print. In this event, visually verify that the NDC on the Fill Station window matches the NDC of the stock bottle. If the NDC is correct, try rescanning the product bar code. If there is a problem with the bar code or if the product does not have a bar code, select the “Manual Verify” button and type in the NDC number. If the NDC is incorrect, pull the correct medication with the NDC that matches the one on the prescription label (if stocked) and re-scan the prescription. If this particular NDC is not stocked in the pharmacy but an alternate NDC is stocked, select the “Change NDC” button to call up the “Drug Record Search” window. Select the appropriate drug in the “Search Results” grid. Confirm that the NDC number has changed and then re-scan the stock bottle. If necessary, add an Order Note to inform the patient of any change in pill color or appearance.

c. Product Preparation
Count or pour the medication (using the Kirby Lester or other counting devices, when possible) and affix the printed label to the vial or bottle, being careful not to cover up or bend the barcode on the label.

❖ Tip: Attention to small details such as selecting the appropriately sized container for the medication, using labels that are clean—not smeared, and the proper placement of the prescription label will ensure that the final product projects a professional image.

d. Check the Notes
Check all “Notes” grids. Only the order notes will print. If other types of notes (“Disp,” “RPh,” “Drug”) were added, they must be visually checked. Notes may also be added, as necessary.

e. Basket the Order
Place the filled and labeled prescriptions in the basket. Return the stock bottle(s) to the shelf except as follows. Important Note: Include the manufacturer stock bottles in the basket for liquids and drugs that do not have a pill image displayed in the pharmacy application. This is required by most states and will assist the pharmacist in verifying that the medication is correct.
f. **Pass the Order**
Repeat these steps for any other prescription(s) in the order. Once completed, select the “Pass Order” button and stage the basket for the pharmacist to audit at the QA Station.

- Use clips on the baskets to designate STAT prescriptions. These baskets should also be moved ahead of prescriptions for patients not waiting in the store.
- Do not “overfill” and stockpile the counter with filled prescriptions. This can cause unnecessary clutter and disorganization, may compromise prescription accuracy, and makes it much more difficult to find specific prescriptions when needed. A good rule of thumb is no more than 10 to 15 prescriptions on the counter at a time.

3. **QA Station Processing**
The QA Station must be staffed by a pharmacist. Prescriptions that are ready to be audited are staged by the associate at the Fill Station and should be completed in the order staged.

a. **Initiating the Audit**
Scan the vial label barcode to launch the QA window. The “Order Doc” will print. Review the Order Doc and react to any order notes that might have been entered. Highlight or circle any notes to alert the Out-Window associate. Information in the “Patient Rx History” tab must also be referenced as necessary to conduct a thorough review.

b. **Accuracy Checks**
Determine if the prescription is new or a refill. For new prescriptions, a full-page image of the prescription hard copy automatically opens and the word “NEW” appears highlighted in red in the upper right corner of the window. For a refill prescription, select the “Full Page” button to bring up the hard copy image, as needed.

Compare the hard copy image to the vial label. Verify all label information against the hard copy, including patient, drug, quantity and days’ supply, directions, prescriber, refill information, and date written. Physically hold the prescription vial near the screen to facilitate easier data entry verification. If the scanned image of the hard copy is not legible, select the “Fail” button, pull the hard copy, and rescan.

Verify the accuracy of the prescriber information, including the NPI and DEA numbers, and the prescription billing information.

c. **Review of Clinical and Therapeutic Appropriateness**
Review the patient’s drug therapy regimen(s), considering all information available, to assess the appropriateness of medications and doses. Identify any drug therapy problems and work with the prescriber and/or the patient (as appropriate) to resolve those problems.

d. **Completing the Audit**
A complete audit also includes verification of the contents of the bottle against the pill image or description on the screen.

Once the audit is completed and the prescription approved for dispensing, the pharmacist must select the “Pass Rx” button and biometrically authenticate the entry. Repeat these steps for any remaining prescriptions in the order.
A pharmacist must immediately place the audited order with the "Order Doc" in the clear bag and file alphabetically by the patient’s last name in the Will Call area. Once all order prescriptions have successfully passed the pharmacist's review, the order will advance to the Out-Window work queue.

4. **Out-Window Dispensing**
To increase efficiency and ensure pharmacist availability for patient counseling, a pharmacist should be stationed near the Out-Window.

   a. **Prescription Pick Up**
   When a person arrives to pick up a prescription, greet the patient (or his/her representative) by name, if known, and maintain a courteous, professional demeanor throughout the interaction. Ask the following open-ended questions to help to ensure appropriate dispensing:
   
   - What is your (the patient’s) name?
   - What is your (the patient’s) address?
   - What is your (the patient’s) telephone number?
   - What is your (the patient’s) date of birth?
   - How many prescriptions are you picking up today?

Search the Out-Window work queue by the patient’s name to determine where in the pharmacy the prescription(s) are located.

   i. **Retrieving Prescriptions from Will Call**
   Retrieve the prescription(s) from the Will Call area. **Important**: If the person picking up the prescription(s) is not the patient and the number of prescriptions ready for the patient does not match the number indicated by the patient's representative (or if they are uncertain about how many they should pick up), additional measures must be taken to ensure patient privacy. Either contact the patient for verification or, alternatively, ask the representative to identify the names or types of medications he/she was asked to pick up and dispense only those matching the description provided.

   Check the information provided against the patient name on both the order document and the prescription vial label. From the vial label, verify the patient's name and address. From the Order Doc, verify the patient's phone number and date of birth.

   ii. **Dispense Order Review**
   Scan a prescription vial to call up the "Dispense Order" window. This will update the scan status from “N” to “Y” for this prescription.

   From the “Prescriptions in Order” grid, verify the patient’s date of birth.

   Review the "Related Prescriptions" grid and, in a HIPAA compliant manner, determine if any additional prescriptions should be added to the order. If confirmed, move the additional prescriptions into the order and retrieve the prescriptions from the Will Call area. Each patient's date of birth and address must be verified from

the Order Doc and/or vial for every prescription dispensed, regardless of whether a new or refilled prescription. Out-Window scan all remaining prescription vial bar codes in the order.\textsuperscript{18}

Review the “Order Doc” for any notes that should be communicated to the patient. Review the “Payment” field and verify appropriate billing with the patient, if present.

III. Acceptance/Refusal of Counsel
If a prescription is highlighted in yellow in the Dispense Order window, the pharmacist must provide counseling on the prescription. On all other prescriptions, a friendly offer of counseling should be provided in the manner required by law. If the patient refuses counseling, highlight the prescription in the “Prescriptions in Order” grid, then select the “Rx Counsel Rejected” button. The “Order Counsel Rejected” button may also be selected to mark the whole order as “Counsel Rejected.” In states requiring documentation of an offer to counsel, biometric authentication by a pharmacist is required.

b. Patient Counseling
Personal interaction between the pharmacist and the patient is an essential element in providing quality pharmacy care. This pharmacist-patient relationship must be initiated through counseling on all new prescriptions and nurtured through offers of counseling on all refilled prescriptions. When counseling, the pharmacist should access the hard copy image of the prescription in the “Counseling Information” window and conduct a final review against the prepared medication, review the patient’s record, discuss the medication with the patient or caregiver, and open and show the contents of the container as a final audit for accuracy prior to dispensing.

i. Offers of Counseling
Recommended pharmacy workflow processes positions the pharmacist near the Out-Window for final audit, verification, and patient counseling. If a pharmacist is not near the Out-Window, the technician must alert the pharmacist when a patient is ready to pick up a new prescription.

For prescription refills, a technician may offer pharmacist counseling if permitted by state law by asking one of the following questions:

➢ Do you have any questions for the pharmacist?
➢ Would you like the pharmacist to explain your medication?
➢ Do you have any questions about your medication?

An offer of pharmacist counseling must also be included with all mailed or delivered prescriptions.

ii. Effective Counseling
Effective counseling often uses interactive dialogue to confirm the patient’s understanding of the prescribed drug and its appropriate use. Suggestions for initiating these conversations include:

➢ For new prescriptions or if changes are made to the dosage form, strength, or medication directions:
  o What did the prescriber tell you this medication is used for?
  o How often did the prescriber tell you this medication should be used/taken?

\textsuperscript{18} Out-Window scanning automatically updates the system to indicate the prescription was picked up, eliminates the exception release for billing, prevents inadvertent billing of third-party plans for prescriptions not picked up, and facilitates management of the "OOD Report."
RETAIL PHARMACY
POLICIES AND PROCEDURES

- What results or side effects did the prescriber tell you to expect?
  - For refilled prescriptions:
    - Is this medication effectively treating your condition?
    - How often do you take it?
    - Are you experiencing any problems as a result of taking this medication?

Additional elements of patient counseling should, as appropriate, include:

- The name and description of the drug;
- The dosage form, dose, route of administration, and duration of drug therapy;
- The intended use of the drug and expected outcome (accessing the drug information available in the system as needed);
- Any special directions or precautions for preparation, administration, or use;
- Any common severe side effects, adverse effects or interactions, and therapeutic contraindications that may occur, including how to avoid them and appropriate action if they occur;
- Techniques for self-monitoring of drug therapy;
- Proper product storage;
- Prescription refill information;
- Instruction in the event of a missed dose; and
- Any additional comments or instructions relevant to the particular patient or therapy prescribed.

c. Finalizing the Transaction
Select the "Capture Signature" button, and the prescription receipt and, if a new prescription, a monograph will print. Other paperwork that may automatically print and should be appropriately reviewed with the patient includes:

- The company's Notice of Privacy Practices ("NPP") (for new patients only);
- Any MedGuides required by federal law;
- CarePoints (documents selected to print based on patient specific information);
- Medicare Part B Supplier Standards (new Medicare B patients only);
- Medicare Part B Advanced Beneficiary Notice (certain Medicare B patients only);

Ask the patient (or representative) to:

- Acknowledge receipt of the prescription(s) and an offer of counseling and verify the validity of the insurance billing by signing the signature capture device in the Signature Capture frame; and
- Select the “Finish” button.

After the patient selects the "Finish" button, the "Dispense" button becomes active on the "Dispense Order" window and should be selected to finish dispensing the order. In states requiring documentation of an offer to counsel, the pharmacist must provide biometric authentication to confirm that the patient accepted or rejected counseling.

NOTICE OF INTENDED ACTION 
AND ACCUSATION 

CASE NO. 15-050-PT-S 

Respondent. 

Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3), and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because Respondent Shanelle Gayles, PT (Ms. Gayles), Certificate of Registration No. PT12421, was a registered pharmaceutical technician with the Board at the time of the events alleged herein.

II.

On or about June 26, 2015, Board Staff received notification from a CVS Regulatory Affairs Director indicating that CVS terminated Ms. Gayles from her employment as a pharmaceutical technician at CVS Pharmacy #08800. CVS terminated Ms. Gayles’ employment for filling fraudulent prescriptions for a controlled substance, phentermine, and diverting the controlled substance.

III.

On or about May 2015, CVS received information through the CVS Ethics line regarding the fraudulent prescriptions. Ms. Gayles’ former boyfriend, who was the recipient of the phentermine, provided the information.

IV.

CVS conducted an investigation and learned that the fraudulent activity occurred in 2012.

V.

In a written statement, Ms. Gayles indicated that her former boyfriend called in the prescriptions to her at the pharmacy. She admitted to filling two fraudulent prescriptions for
phentermine 37.5 mg. for thirty (30) tablets each in 2012.

FIRST CAUSE OF ACTION

VI.

In filling a fraudulent prescription for a controlled substance, namely phentermine, without a prescription or authorization from a practitioner, Shanelle Gayles violated Nevada Revised Statute (NRS) 453.331(1)(d) and/or NRS 453.336(1), and/or Nevada Administrative Code (NAC) 639.945(1)(g) and/or (h), which violations are grounds for action pursuant to NRS 639.210(1), (4), (11), and/or (12), as well as NRS 639.255.

SECOND CAUSE OF ACTION

VII.

By diverting controlled substances, namely phentermine, Shanelle Gayles violated NRS 453.331(1)(d), NRS 453.336(1) and/or NRS 453.338(1), as well as NAC 639.945(1)(g) and/or (h), which violations are grounds for action pursuant to NRS 639.210(1), (4), (11), and/or (12), as well as NRS 639.255.

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

Signed this 20th day of August, 2015.

Respondents.

Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3), and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these respondents because, at the time of the alleged events, Respondent Linchi Le (Ms. Le) was a pharmacist licensed by the Board, Respondent Eric Van Meter (Mr. Van Meter) was a pharmacist licensed by the Board, and Respondent Von's Pharmacy #2615 (Von's) was a pharmacy licensed by the Board.

II.

On or about April 10, 2015, customer Corey Johnson (Ms. Johnson) filed a complaint with the Board Office alleging that on multiple occasions, Von’s pharmacist Linchi Le failed to offer and/or provide counseling for new prescriptions for Ms. Johnson and members of her family, including:

1. **PRESCRIPTION NO. 6102214 – EPIPEN JR 0.15 MG. INJECTABLE SOLUTION**

III.

On January 6, 2015, Ms. Johnson’s two-year-old son E.J. suffered a severe allergic reaction. He received treatment at the St. Rose Dominican Hospital Emergency Department, which released
him with written prescriptions for (i) prednisolone 15 mg./5 ml. oral syrup, (ii) EpiPen JR 0.15 mg. injectable solution and (iii) ranitidine 15 mg./ml. syrup.

IV.

E.J.’s father (Mr. Johnson) tendered the prescriptions to Von’s that evening. Von’s dispensed the prednisolone medication to Mr. Johnson and counseled him regarding its use as required.

V.

Von’s had to order the ranitidine syrup and EpiPen JR in order to fill E.J.’s prescription, both of which were scheduled to arrive at the pharmacy the following day.

VI.

On January 7, 2015, Ms. Johnson went to Von’s to pick up the EpiPen JR, the ranitidine syrup and an additional prescription for amoxicillin that E.J.’s physician was supposed to have phoned in.

VII.

The amoxicillin prescription had not come in by the time Ms. Johnson arrived. To expedite the process, pharmaceutical technician Pamela Walters (Ms. Walters) and Ms. Johnson each telephoned the physician’s office, which phoned in the amoxicillin prescription approximately five minutes later.

VIII.

Upon receipt of the amoxicillin prescription, Ms. Walters informed Ms. Johnson that it would take up to twenty minutes to process. Rather than wait, Ms. Johnson asked Ms. Walters to sell her the medication that was ready—the EpiPen JR—and informed her that she was leaving.

IX.

Ms. Walters sold Ms. Johnson the EpiPen JR, but failed to provide counseling.

X.

During the Board’s investigation, Ms. Walters claimed in a written statement that Ms. Johnson said her son was not feeling well and that she just wanted to go home. Ms. Walters observed Ms. Le counseling another patient and did not want to further agitate Ms. Johnson by making her wait for counseling.
XI.

Despite clear evidence that counseling did not occur, Von’s records for prescription No. 6102214 indicate that counseling was accepted. Ms. Johnson and pharmaceutical technician Walters signed the electronic signature box indicating that Ms. Johnson received the medication and was counseled. The initials of “PSW” (Ms. Walters) appear on the prescription detail screen in the “Counseling Initials” field. However, another pharmaceutical technician’s initials appear in the “RPh” field. The initials “SNR”, belong to pharmaceutical technician Stephanie Revero.

2. **PRESCRIPTION NO. 6105950 – FLUTICASONE 50 MCG**

XII.

On April 3, 2015, Mr. Johnson picked up his own prescription (No. 6105950) from Von’s. Mr. Johnson signed the electronic signature pad verifying receipt of his medication.

XIII.

In a written statement, Ms. Walters claims that when Mr. Johnson signed for his medication, she asked him to wait for the pharmacist to provide counseling. Mr. Johnson purportedly said that he did not need counseling because his wife is a pharmacist. Ms. Le, the pharmacist on duty at the time, has no recollection of Ms. Walters alerting her that counseling was needed for that new prescription.

XIV.

Despite Mr. Johnson’s decision to decline counseling, the pharmacy system Transaction List Detail for prescription No. 6105950 indicates that counseling was accepted. However, the electronic signature page contains only Mr. Johnson’s signature verifying that he received the medication. There is no pharmacist signature or initials confirming that counseling occurred.

XV.

Just like on the prescription detail screen for the previous EpiPen JR prescription, the prescription detail screen for the Fluticasone has the initials “PSW” (Ms. Walters) recorded in the “Counseling Initials” field. The initials SN1, which also belong to pharmaceutical technician Stephanie Revero, appear in the “RPh” field.
XVI.

During the Board's investigation, the Investigator learned that before it will continue to the next screen, Von's computer system requires a pharmacist to type his/her initials into the "Counseling Initials" field at the time the customer picks up each new or refilled prescription. However, in many instances, the pharmaceutical technician on duty inputs his/her initials in order to advance to the next screen without forcing the pharmacist to go to the pickup counter and enter his/her initials for each prescription.

XVII.

Additionally, the electronic signature pad (SIG CAP PAD) used by Von's computer system is designed to capture, store and retrieve each customer's signature, the counseling pharmacist's signature or initials and the customer's counseling preferences electronically. Von's policy requires both the customer and the counseling pharmacist to sign on the same screen verifying that the customer picked up the medication and that the pharmacists provided counseling. However, customers frequently press the "DONE" button on the SIG CAP PAD screen before the counseling pharmacist has counseled and/or signed the screen. When the "DONE" button is pressed, the system by default automatically creates a record indicating that counseling was "Accepted".

XVIII.

Von's utilizes a three character user code in the computer system to identify the individual who performed each step of the prescription process. Von's pharmacists and pharmaceutical technicians have multiple user codes containing a combination of initials and/or numbers. Each pharmacist and technician utilizes a unique user code specific to the individual they are scheduled to work with and/or assisted in the prescription process.

XIX.

Based on the findings in the above investigation, the Board Investigator requested prescription detail documentation of prescriptions filled for other patients. The Board Investigator discovered several other prescriptions processed as described above.
XX.

The Board Investigator reviewed prescription detail screens for prescription numbers 6101610, 6102643 and 6102688 filled and verified by pharmacist Eric Van Meter. Mr. Van Meter is the managing pharmacist at Von’s #2615.

XXI.

Pharmaceutical technician initials are recorded in both the “RPh” field and the “Counseling Initials” field for prescription numbers 6101610 and 6102688. Pharmaceutical technician initials are recorded in the “RPh” field for prescription number 6102643.

XXII.

Notably, the issue described above regarding Von’s computer system is identical in a similar 2012 case brought by the Board against Von’s Pharmacy #2395. See Case No. 12-025-PH-S.

XXIII.

Von’s resolved that 2012 case by entering into a Stipulation and Order (Order) with the Board dated October 16, 2013. In that Order, the Board imposed a fine and administrative fee upon Von’s Pharmacy #2395 for failing to comply with Nevada’s patient consultation requirements.

XXIV.

In association with that Stipulation and Order, Burt Bates, Von’s Regional Pharmacy Manager, appeared at the Board’s October 16, 2013 meeting to address the counseling issue. Mr. Bates informed the Board that Von’s had retrained its Nevada pharmacy staff on proper counseling procedures as required by Nevada law. Mr. Bates also indicated that Von’s would be upgrading its pharmacy computer system in early 2014, with upgrades to resolve the counseling issues. Those upgrades never occurred.

FIRST CAUSE OF ACTION
(Prescription No. 6102214 – EpiPen Jr 0.15 Mg. Injectable Solution)

XXV.

In failing to provide counseling on E.J.’s new prescription for EpiPen JR, Respondent Linchi Le violated Nevada Revised Statute (NRS) 639.266(1) and Nevada Administrative Code (NAC)
639.707(1) and (2), as well as NAC 639.945(1)(i). Those violations are each grounds for discipline pursuant to NRS 639.210(4), (11) and/or (12), as well as NRS 639.255.

SECOND CAUSE OF ACTION
(Prescription No. 6105950 – Fluticasone 50 Mcg)

XXVI.

In failing to provide counseling on Mr. Johnson’s new prescription for Fluticasone 50 mcg., Respondent Linchi Le violated NRS 639.266(1) and NAC 639.707(1) and (2), as well as NAC 639.945(1)(i). Those violations are grounds for discipline pursuant to NRS 639.210(4), (11) and/or (12), as well as NRS 639.255.

THIRD CAUSE OF ACTION

XXVII.

As a managing pharmacist who knew of and allowed the foregoing violations, or any one of them, to occur in his pharmacy, Eric Van Meter violated NRS 639.210(15) which is grounds for action pursuant to NRS 639.210(4), (11) and/or (12), as well as NRS 639.255.

FOURTH CAUSE OF ACTION

XXVIII.

As the pharmacy in which the violations alleged above occurred, Von’s is statutorily responsible for the actions of pharmacists Linchi Le and Eric Van Meter, as alleged herein, pursuant to NAC 639.945(m) and/or (2), which is grounds for discipline pursuant to NRS 639.210(4), (11) and/or (12), NRS 639.255 and/or NRS 639.230(5).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of these respondents.

Signed this 17th day of June, 2015.

Applicant is licensed in 15 states currently.

6. Approximately 80-90% of Applicant's business is out-of-state.

7. Applicant complies with a 3:1 technician to pharmacist ratio.

8. The Nevada Board does a separate compounding inspection on pharmacies.

9. Applicant is undergoing the Pharmacy Compounding Accreditation Board (PCAB) accreditation process.

10. Regarding adjustments in formulas, Applicant testified that they write down any adjustments on the worksheets. Now, Applicant is printing out and taping any adjustments on the worksheets. Their new policy is to make adjustments in the formula. The adjustments are not reflected in the materials as submitted to the Board.

11. Applicant does not think they have shipped products into South Carolina.

CONCLUSIONS OF LAW

In an application hearing, "(t)he applicant shall demonstrate to the satisfaction of the board that the applicant meets all requirements for the issuance of a license." S.C. Code Ann. § 40-1-130 (1976, as amended). Thus, the burden of proof in an application for licensure or certification is on the Applicant to provide full, complete, and accurate responses to all questions on the application and to demonstrate that he or she is qualified for the license sought.

After careful consideration, the Board determined that approval of the permit should be denied based on testimony. Under the Pharmacy Practice Act, specifically in S.C. Code Ann. § 40-43-83(H), it states "The Board of Pharmacy may deny or refuse to renew a permit if it determines that the granting or renewing of such permit would not be in the public interest. If an application is refused, the board shall notify the applicant in writing of its decision and the reasons for its decision." Here, the Board finds that it would not be in the public interest because the Board does not believe Applicant has met the standards of pharmacy practice as required by South Carolina law. The Board has serious concerns regarding the accuracy and completeness of the compounded formulas provided in the application. Additionally, in the materials as submitted to the Board, the formulas are not adjusted and do not definitively meet the standards as required by South Carolina; as such, these omissions are not in compliance with the standards for compounding set forth in S.C. Code Ann. §§ 40-43-86(CC) and 40-43-88.

ORDER

This matter came before the State Board of Pharmacy ("Board") for hearing on June 19, 2013 as a result of the non-resident pharmacy permit application ("Application") of Concierge Compounding Pharmaceuticals ("Applicant"). Applicant was duly noticed to appear due to a prior criminal action. Sally Chia, Pharmacist-in-Charge, and Hootan Melamed, Permit Holder, appeared on behalf of the Applicant. Applications of this type are governed by S.C. Code Ann. §§40-43-83, 40-43-86, 40-43-89 (1976, as amended), and South Carolina Code of Regulations, Reg. 99-43, as amended.

FINDINGS OF FACT

1. Applicant is located in Henderson, Nevada.
2. Applicant submitted an application for a nonresident pharmacy permit, which application was received on February 21, 2013 ("Application").
3. Applicant’s proposed pharmacist-in-charge is Sally Chia ("PIC"). The PIC is licensed in Nevada with license number 18013.
4. Applicant answered "yes" to question 2 on the Application, related to a criminal prosecution. In 1999, Melamed pled guilty to a felony for conspiracy to commit securities fraud for a "pump and dump" scheme in the stock market. This occurred while he was a student in pharmacy school.
5. Applicant garners interest in the business by traveling to trade shows. Once Applicant receives some business in a certain area, Applicant applies in the appropriate state.

On this day came on to be considered by the Texas State Board of Pharmacy ("Board") the matter of the Application for Pharmacy License submitted by Concierge Compounding Pharmaceuticals, Inc. ("Applicant"), 1887 Whitney Mesa Dr., Henderson, Nevada 89014.

By letter dated July 2, 2013, the Board gave preliminary notice to Applicant of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Applicant may have violated:

Section 565.002(b)(2) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2011), in that allegedly:

COUNT

On or about January 19, 2001, Hootan Melamed (corporate president of Concierge Compounding Pharmaceuticals, Inc.) was convicted of the felony offense of Conspiracy to Commit Securities Fraud in Case No. CR00-7-GAF-2, in the United States District Court for the Central District of California. The action was based on evidence that Mr. Melamed and others artificially inflated the share prices of a company by posting false information on the internet, after which the conspirators sold their shares for a profit of $211,250. The trial court sentenced Mr. Melamed to 10 months prison followed by 3 years probation and ordered him to pay restitution.

An informal conference was held in the Board's office on July 10, 2013, with Hootan Melamed, Corporate President of Applicant, in attendance. Wiesner, R.Ph., Board Member; Gay Dodson, R.Ph., Executive Director/Secretary; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Caroline K. Hotchkiss, Staff Attorney, serving as General Counsel. Tyler P. Vance, Staff Attorney, was also in attendance.

At the aforementioned conference, Hootan Melamed, Corporate President of Applicant, waived the right to be represented by legal counsel. By signing this Order, Hootan Melamed, Corporate President of Applicant, neither admits nor denies the truth of the matters previously
set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

**ORDER OF THE BOARD**

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Applicant shall be granted a Texas Pharmacy License after successfully completing the requirements of licensure as set forth in the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2011) and the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2013).

(2) Applicant's license shall be suspended for a period of one (1) year, with such period to commence upon issuance of the license. Such suspension shall be probated under the conditions that Applicant abide by the terms of this Order, and shall not violate any pharmacy or drug statute or rule of this state, another state, or the United States with respect to pharmacy, controlled substances, and dangerous drugs.

(3) Applicant shall pay a probation fee of one thousand two hundred dollars ($1,200) due ninety (90) days after the entry of this Order.

(4) Applicant shall be responsible for all costs relating to compliance with the requirements of this Order.

Re: David Moll RPh – Lic 10751

Dear Lisa:

I am writing to follow up on our phone conversation from August 4th regarding my current licensing circumstances that would affect my licensure in Nevada. I am enclosing several documents that I have accumulated since my situation become at issue.

1. The Signed Oregon Consent Order (October 2013 for 3 years)
2. My attorney’s letter to California State Board of Pharmacy (June 2015) (they want to revoke my license for the Oregon discipline)
3. My counselor’s reference letter stating compliance with ongoing therapy requirement
4. The HPSP program (a part of Reliant Behavioral Health) – statement of compliance from agreement monitor, as stipulated
5. Certification of Achievement (Completion) of the Portland Dialectical Behavioral Therapy program as stipulated

HISTORY

Thank you for the opportunity to explain my side of this awkward, painful, and unfortunate situation. I have not worked in pharmacy since I closed my business (as required); I believe this result stems from the current oversupply of pharmacists as well as the presence of the consent order on my license. Essentially from what I can gather, no one wants to deal with board paperwork when they have numerous candidates to choose from (despite my 24 years experience).

The Oregon Board of Pharmacy’s consent order mentioned several ‘sharp’ terms that were part of my fit-for duty assessment that they ordered in 2012. I simply told the truth when asked questions by the counselor about such things as depression and suicide leading up to what turned out to be a personality disorder. Yes, I had suicidal thoughts but never had a plan. I was on high dose (60mg) fluoxetine, 300mg of bupropion, and 150mg of lamotrigine; my brain was speedily running like an out-of-control pottery wheel. I had prn 0.5mg lorazepam available which I only used occasionally for anxiety outbreaks. To get right to the cause, I was clearly overworking but could not stop enough for health breaks.

The reasons for that are multi-fold. First, my business could not sustain hiring a relief pharmacist at market wages because of the nature of insurance reimbursement and unpredictable cash flow. Back in 2012, the cost of generic drugs started rising out of sight, and the PBMs did not keep their databases up
to date for reimbursement purposes. So the number of prescriptions that were underpaid rose relatively quickly as prices were increasing literally overnight.

Two, this stress on the business spread to my employees and me, inappropriately but rightly so, expressing verbal ‘pains’ that the business was being financially stifled by forces beyond my control. This negative energy then trickled down to patient care so that aspect of the business declined as well, putting more added stress on me. I was making careless errors on prescriptions that I’d normally not commit; fortunately, none were harmful to any patients. In essence, I was spiraling down with the business because of these forces and the lack of adequate breaks.

I feel that I have been disciplined for ‘working too hard’. If I were working for someone else, I don’t think I would be let go for going over and above call of duty, nor would I be working so many hours per week. I had a total of 9 days break in 10 years, broken up into 3 sets of 3 days each. I was not open on weekends, but went in 2-3 weekends a month to conduct inventories or finish projects. I could not expand the business with immunizations, despite my employees wanting to participate, because I was unable to complete my part of the expansion plan. Again, my ‘pottery wheel’ speeding brain just could not handle being overwhelmed.

THE BOARD PROCESSES

The board ordered me to get a ‘fit for duty’ assessment which was completed in October of 2012. I told the counselor exactly what was going on, and the board proceeded to put these issues, quoted directly from his report, on the initial accusation document. Since I have gotten the therapy and it took over 2 years to get my mental health back, I am happily the person I was before opening the business. However, now I am living with the consent order and its consequences.

The various terms utilized in the consent order stating I had ‘impaired judgment, symptoms of suicidal ideation, difficulty in concentration and focus, anxiety and difficulty in problem solving’ all were as a result of what was happening with me in my central nervous system. I liken it to an ‘electrical short circuit in my brain’. Given that, I’d like to specifically write a few words on each.

**Impaired Judgment:** There is an incident on my record that was reported that I left the pharmacy unattended with a pharmacist. On that day, I was asked to take an unused empty card fixture to my care in the parking lot a few paces away because it was in the way of foot traffic in our work area. I proceeded to fulfill the request and was gone but 2-3 minutes. The technician was out front checking out a customer and apparently needed me for something, and when I was not there, picked up the phone and called the board to report me (because I had not said something to her first).

Looking back on it, that was an error in judgment on my part; again, I felt the mental issues created the havoc. I should have told the technician I was leaving for 2 minutes and locked the pharmacy section for that time. But since I knew I would not be gone long (it takes longer to use the restroom, but that’s inside the building on the same floor, but not at the pharmacy itself). I figured it would not be much of a problem.

**Suicidal Ideation:** Running this pharmacy became very stressful over time. I worked 60 hour weeks with no regular relief due to economic circumstances. I had to juggle many things with dispensing rx’s and running the business, and it caused me to feel overwhelmed. At times, it became mentally very painful
and thus I expressed that pain in the form of suicidal thoughts, but never had any plan or intent to go through with it.

**Difficulty in concentration or focus:** I made prescription errors, would really move fast and should have been more deliberate in the filling process. Because I always had multiple things going, I would start one task, be pulled away for some reason, and then start another task, and all of a sudden forget that I had not finished the first one. Then I’d drop that one to finish the first. Now I always complete tasks fully before starting the next one.

**Anxiety and difficulty problem solving:** This is pretty much the same as #3. I would have trouble solving problems that my solutions could not be made deliberately and this in and of itself caused ME anxiety. All of this I felt was due to overworking.

I had grave concern that this consent order would prevent me from gaining employment, including with Safeway who bought out my pharmacy files. Although they verbally promised to try to find a slot, it never matriculated into anything. I can only gather that the consent order played at least some role in the lack of acknowledgement. I had worked in Safeway’s stores several years before I started the business, but that obviously had no influence. I currently remain unemployed as a pharmacist today.

**CONCLUSION**

Since my pharmacy closed, my mental health is back to normal. I have my fiancé to thank for that, as she helped me recuperate for a good 6 months to get me back to feeling like my old self. I spent that time catching up on long lost sleep, and trying to get back to better nutrition. I miss not being able to practice as I know I have missed out on a lot of new medications, drug classes, and changing practice trends that I would love to participate in.

I respectfully request the Board to keep my license clear. I have enclosed the required renewal fee of $590 to keep my ability available to practice in Nevada or reciprocate to another state if my future career path should require. As you will see from reviewing the enclosed documents, I have gone through quite a bit of ‘rehabilitation’ to feel normal again and know my limitations.

I would like to thank you for very much for your utmost consideration and time in this matter.

Respectfully,

David Moll, PharmD, RPh

RE:  DAVID MOLL  SENT BY REGULAR MAIL AND EMAIL
CASE #: 5352

Dear Mr. Phillips:

Pursuant to our recent telephone conference, I am writing the "mitigation" letter on behalf of David Moll. I understand that the California Pharmacy Board has brought this action based upon David's "probationary agreement" with the State of Oregon Pharmacy Board. Therefore, I'd like to first give you some of the facts surrounding the Oregon matter.

David owned his own pharmacy for about 10 years. When the economy dived in approximately 2009, and because of increased competition, David's pharmacy became increasingly in financial crisis. In 2012, it was clear that the pharmacy would have to be sold, or it would become bankrupt. These years were a period of great stress on both David and his staff, but particularly stressful for David. By 2012, the pharmacy could barely be kept open, and he could not afford to hire replacement pharmacists. By that time, the stress had affected David greatly.

In December of 2012, the Oregon Pharmacy Board filed a notice of proposed action against David. In September, 2013, a Consent Order was entered into. It is very important to note that David's license is, and has always, been valid. The Oregon board did not suspend David's license. He continues to have an active license.

The following is a summary of the Consent Order and of David's compliance with it:

1. **Sell of Close Pharmacy.** David ceased pharmacy operation on November 13, 2013.

2 (a). **Enter Board designated Treatment Program.** David received professional evaluations and continues to be in compliance with this requirement. (a letter from his monitor is enclosed)

2 (b). **Continue Treatment with Mental Health Practitioner.** David has continued therapy with
Jennifer Duncan, LPC since October, 2013. Her report is enclosed.

2 (c). Shall submit mental health reports. David is in full compliance with this requirement. The report from RBH is enclosed.

2 (d). Shall Complete Treatment with Portland Dialectical Behavior Therapy. This requirement has been completed. A copy of the certification of completion is enclosed.

2 (e). David did not renew his preceptor license.

2 (f). David has not been employed as a pharmacist-in-charge or pharmacy manager.

2 (g). David has not worked more than 48 hours per week.

2 (h). All prospective employers have been notified of the Consent Order.

2 (i). All prospective employers have been notified of the Order.

2 (j). David has reported all/any citations and/or violations to the Board.

2 (k). David has complied with any and all laws regarding pharmacy practice.

David is, and has been, in full compliance with his Consent Order. Based upon positive input from his therapist, he now sees Ms. Duncan once per month. As David says: "I have worked on myself in therapy and away from the stresses of daily life, owning a pharmacy and overworking".

As stated, the Oregon Pharmacy Board never suspended or took David’s license. He is now able and ready to practice pharmacy. I am asking that the California Pharmacy Board give David credit for the good work that he’s done in complying with the Oregon Consent Order. I’m also asking the California Pharmacy Board to adopt Oregon’s plan and give comity to Oregon’s jurisdiction of David.

Please advise if I can provide you with anything further on this matter.

Very truly yours,

Date
Nevada Board of Pharmacy,

I am submitting this statement of explanation in regards to my felony conviction as part of my application for Pharmacist licensure via reciprocity.

On May 22, 2002, in US District Court, District of New Mexico, I was convicted of “Distribution of Less Than Five Grams of Cocaine Base” (21 USC 841(b)(1)(C)). The conviction arose from the sale of 2.0 grams of cocaine base on December 12, 2000, by me to a DEA agent. I was sentenced to 41 months imprisonment and a 3 year term of supervised release, case number 1:01CR01139-002JC. I began serving my sentence in July of 2002. I was released from the Federal Bureau of Prisons’ custody on January 3, 2005. During my imprisonment, I attended every program, class, and group possible to make the best of the time spent there. I received an 11 month reduction in my sentence for “good time” and the participation and completion of a 500-hour substance abuse treatment program. I began my 3 year term of supervised release on January 3, 2005. I was released early from supervision on April 2, 2007, by request of the probation office because I was “no longer in need of supervision”. Since my release in January of 2005, I have received my Pharm. D. from the UNM College of Pharmacy, made the Dean’s list at the College of Pharmacy every semester, am a member of the UNM College of Pharmacy’s Chapter of the Rho Chi Honor Society, am a member of The University of New Mexico’s Chapter of The Honor Society of Phi Kappa Phi, received an Associate of Arts Degree in General Studies from Central New Mexico Community College, a NM General Contractor’s License (GB-98), a NM Qualifying Real Estate Broker’s license, am the Managing Member of the construction/real estate company I started, CHAMP Enterprises, LLC, and have volunteered my time in countless community events and associations. Documentation of which can be provided upon request.

Sincerely,

HONORABLE JOHN E. CONWAY
SENIOR UNITED STATES DISTRICT JUDGE
August 24, 2015

Nevada State Board of Pharmacy
431 W. Plumb Lane
Reno, NV 89509

To whom it may concern:

I am writing this letter in support of Cory McGuinn-Parks’ application for a pharmacist license in Nevada. Mr. McGuinn-Parks academic abilities are extremely strong as he has excelled with a 3.78 GPA, a Top 10% class ranking and inclusion on the Dean’s List in all 8 semesters of pharmacy school. His academic success was recognized when he was inducted into the Rho Chi Honor Society in 2013. The College of Pharmacy faculty also selected Cory to receive the Merck Academic Excellence Award for the Class of 2014. He is, simply put, one of the strongest students in one of the most academically rigorous programs in the state of New Mexico.

Cory’s interests and strengths lie in many different areas. This can be aptly demonstrated from the array of Advanced Pharmacy Practice Experiences (APPEs) that he took during his last year of pharmacy school. In addition to the required APPEs (advanced community, advanced hospital, ambulatory care, and general medicine), Cory also branched out into Association Management, Public Health, Long-term Care, interprofessional Telemedicine (ECHO) and an Outreach/Respite rotation for the homeless community of Albuquerque. These varied experiences will serve Cory well in any pharmacy practice setting in which he is employed. Cory has also received extensive training outside of a normal PharmD curriculum to make himself a well-rounded pharmacist including vaccination training, tobacco cessation prescribing training, and emergency contraception training. On his own time, Cory has also become certified in administering and interpreting the tuberculin skin test and completed the College’s 60-hour physical assessment course in order to become a pharmacist clinician. The fact that Cory completed both the physical assessment course and TB training in the week between the end of APPEs and graduation demonstrates his dedication to his patients and the profession of pharmacy.

In addition to his academic excellence, Cory has excellent interpersonal and communication skills. The combination of academics and personal characteristics led me to hire Cory as a tutor for the College’s Pathway to Pharmacy students. Pathways to Pharmacy is a program where promising students are selected by the College Admissions Committee for a year of further academic training before matriculation into the PharmD program. Once they are in the PharmD curriculum, these students receive specialized tutoring during their first year to help them with the transition from being an undergraduate to being a student pharmacist. I have hired many of these tutors over the years and I can say without reservation that Cory has been the best. He drew rave student reviews and all of the students he tutored will be graduating from the College of Pharmacy in the next year.
In addition to his high academic achievement, Cory also was very involved in the two largest student professional organizations (APhA-ASP and SSHP) where is participated in numerous patient care and education events during the last 4 years. Cory also demonstrated leadership skills in SSHP where is served as Immunization Chair and was able to increase the number of flu vaccination events organized by the College.

In short, I give my highest recommendation to Mr. Cory McGuinn-Parks application for a pharmacist license in Nevada. I hope you give him full consideration. If you have any questions, please do not hesitate to contact me at (505) 272-0907 or by email dgodwin@salud.unm.edu

Stipulated Agreement – McGuinn-Parks
Case No. 2011-028
7-5-11

Date

Joseph Cross, RPh
Board Chairman
New Mexico Board of Pharmacy,

I am submitting this statement of explanation in regards to my felony conviction, as requested in the "PHARMACIST INTERN REGISTRATION OR RENEWAL".

On December 12, 2000, I sold approximately 2.0 grams of a cocaine based substance to an undercover DEA agent, in Albuquerque, NM. On September 5, 2001, I was arrested and charged with Distribution of Less Than Five Grams of Cocaine Base for that incident, (case number 1:01CR01139-002JC). I went to trial and was convicted on May 22, 2002. I was sentenced to 41 months in prison and a term of 3 years supervised release, with court recommendations of "service of sentence at a Boot Camp/Intensive Confinement when he becomes eligible. Also, the defendant shall participate in a 500 hour substance abuse treatment program". I began my sentence on July 22, 2002. I was released from the Federal Bureau of Prisons’ custody on January 3, 2005. I received 11 months off of my sentence for "good time" and participation in the 500-hour substance abuse treatment program. While incarcerated I attended every program, class, and group possible to make the best of the time I spent there. I began my 3 years of Supervised Release on January 3, 2005. I was released early from Supervision by request of my Probation Officer, because I was “no longer in need of supervision”, on April 2, 2007, after serving two years and three months of supervision. Since my release on January 3, 2005, I have earned my General Contractors License (GB98), Real Estate Qualifying Broker’s License, an Associate of Arts degree in General Studies, and I am currently attending the University of New Mexico, College of Pharmacy, with a current GPA of 3.73. Also attached is the Judgment and Sentencing. I have previously provided verifying documentation for the other things referenced, and would be willing to provide them again as may be deemed necessary.

Sincerely,

Cory McGuinn-Parks

IN THE MATTER OF:

Cory McGuinn-Parks
Pharmacy Technician applicant

Respondent.

ORDER ISSUING PHARMACY TECHNICIAN REGISTRATION WITH STIPULATION

Immediately following the hearing, a quorum of the Board deliberated upon the record established at the hearing, including the exhibits considered by the Board. After considering and evaluating all of the testimony, exhibits and argument, and by a unanimous affirmative vote, the Board hereby renders this Order pursuant to the Uniform Licensing Act, NMSA 1978, Sections 61-1-1 through 61-1-31.

Findings of Fact

The Board determines that the administrative record in this matter supports the following findings of fact:

1. Respondent has applied for registration as a pharmacy technician in New Mexico and is subject to the jurisdiction of the Board.

2. Respondent’s application included disclosure that he had a federal felony drug conviction in 2002 for selling cocaine to an undercover Drug Enforcement Administration ("DEA") agent. As a result of his 2002 felony conviction, Respondent served twenty-four months in federal prison, followed by twenty-seven months of probation.

3. Board staff attempted to reach an agreement with Respondent that he would stipulate to not working at any facility registered with the DEA unless the DEA granted the facility permission to hire him. [Attachment 1 to Exhibit 1, Notice of Contemplated Action ("NCA"). Respondent rejected the proposed settlement agreement, saying that he wanted a hearing before the Board to explain his situation. Id.]
4. The Board issued its NCA [Exhibit 1] in this matter on or about February 10, 2010 and proposed to deny Respondent a pharmacy technician registration because of his 2002 felony conviction for violating the federal statute involving the distribution of less than five grams of cocaine base.

5. The hearing in this matter was held on March 15, 2010 before a quorum of the Board at the Regulation and Licensing Conference Room at 5200 Oakland NE, Albuquerque, New Mexico.

6. Respondent testified at the March 15, 2010 hearing that he did not want a pharmacy technician license that is stipulated. Respondent stated that he is seeking a DEA waiver that would allow him — despite his felony drug conviction — to work in a pharmacy that handles controlled substances. Respondent added that he is seeking a presidential pardon.

Conclusions of Law

The Board determines that the administrative record in this matter and the findings of fact support the following conclusions of law:

1. The Board has jurisdiction over the parties and subject matter in this proceeding pursuant to the Pharmacy Act. NMSA 1978, Sections 61-11-6(A)(8) (2005) and 61-11-20(A)(2) and (10) (1997).

2. All notices in this matter, including the Notice of Contemplated Action, were served on Respondent in accordance with the Uniform Licensing Act. NMSA 1978, Sections 61-1-1 through 61-1-31 (2003).

3. A preponderance of the evidence shows that Respondent has been convicted of a federal felony involving the distribution of cocaine base, conduct which authorizes the Board to deny or withhold the pharmacy technician registration sought by Respondent. Section 61-11-20(A)(2) (conviction for violating federal law relating to controlled substances); Section 61-11-20(A)(10) (conviction of any felony).

ORDER OF THE BOARD

The New Mexico Board of Pharmacy finds by a preponderance of the evidence that Respondent’s felony conviction for distribution of cocaine base, as specifically described above in the Findings of Fact and Conclusions of Law, justifies imposing a stipulation upon his registration as a pharmacy technician.

IT IS THEREFORE ORDERED that:

1. Respondent shall be issued registration as a New Mexico pharmacy technician subject to the following stipulation:
a. Respondent must disclose his federal conviction to his employer or any other person or business entity at any time he intends to work behind a pharmacy counter, either at a pharmacy or during an intern rotation with the University of New Mexico College of Pharmacy.

2. The stipulation described above applies only to Respondent’s registration as a pharmacy technician.

3. This Order shall be included in Respondent’s permanent licensing file and is a public record open to inspection by the public.

4. Any violation of this Order, including failure to notify employers of his felony drug conviction, shall result in the Board taking further action against Respondent’s pharmacy technician registration.

Respondent is hereby informed that he may obtain judicial review of this Order by filing a petition for review in state district court within thirty (30) days of the filing of this Order in accordance with the attached statement of rights.

To whom it may concern:

I am writing this letter in support of Cory McGuinn-Parks’ application for a pharmacist license in Nevada. Mr. McGuinn-Parks academic abilities are extremely strong as he has excelled with a 3.78 GPA, a Top 10% class ranking and inclusion on the Dean’s List in all 8 semesters of pharmacy school. His academic success was recognized when he was inducted into the Rho Chi Honor Society in 2013. The College of Pharmacy faculty also selected Cory to receive the Merck Academic Excellence Award for the Class of 2014. He is, simply put, one of the strongest students in one of the most academically rigorous programs in the state of New Mexico.

Cory’s interests and strengths lie in many different areas. This can be aptly demonstrated from the array of Advanced Pharmacy Practice Experiences (APPEs) that he took during his last year of pharmacy school. In addition to the required APPEs (advanced community, advanced hospital, ambulatory care, and general medicine), Cory also branched out into Association Management, Public Health, Long-term Care, interprofessional Telemedicine (ECHO) and an Outreach/Respite rotation for the homeless community of Albuquerque. These varied experiences will serve Cory well in any pharmacy practice setting in which he is employed. Cory has also received extensive training outside of a normal PharmD curriculum to make himself a well-rounded pharmacist including vaccination training, tobacco cessation prescribing training, and emergency contraception training. On his own time, Cory has also become certified in administering and interpreting the tuberculin skin test and completed the College’s 60-hour physical assessment course in order to become a pharmacist clinician. The fact that Cory completed both the physical assessment course and TB training in the week between the end of APPEs and graduation demonstrates his dedication to his patients and the profession of pharmacy.

In addition to his academic excellence, Cory has excellent interpersonal and communication skills. The combination of academics and personal characteristics led me to hire Cory as a tutor for the College’s Pathway to Pharmacy students. Pathways to Pharmacy is a program where promising students are selected by the College Admissions Committee for a year of further academic training before matriculation into the PharmD program. Once they are in the PharmD curriculum, these students receive specialized tutoring during their first year to help them with the transition from being an undergraduate to being a student pharmacist. I have hired many of these tutors over the years and I can say without reservation that Cory has been the best. He drew rave student reviews and all of the students he tutored will be graduating from the College of Pharmacy in the next year.

In addition to his high academic achievement, Cory also was very involved in the two largest student professional organizations (APhA-ASP and SSHP) where he participated in numerous patient care and education events during the last 4 years. Cory also demonstrated leadership skills in SSHP where he served as Immunization Chair and was able to increase the number of flu vaccination events organized by the College.

In short, I give my highest recommendation to Mr. Cory McGuinn-Parks application for a pharmacist license in Nevada. I hope you give him full consideration. If you have any questions, please do not hesitate to contact me at (505) 272-0907 or by email dgodwin@salud.unm.edu.

Volunteer Work
From January of 2005 to April of 2005, I volunteered with the DWI Resource Center, Inc. P.O. Box 30514, Albuquerque, NM 87190. I volunteered as a court room observer. I took notes on the outcomes and sentencing of DWI and Domestic Violence cases and offenders. The center keeps records of relevant statistics. Linda Atkinson, Executive Director, (505) 881-1084.

From January 2005 to March 2013, I have volunteered at the Albuquerque Opportunity Center (AOC), 715 Candelaria Rd NE, Albuquerque, NM 87107. The Albuquerque Opportunity Center offers emergency shelter and services to homeless men in the Albuquerque area. While I was incarcerated my sister and father volunteered their time and donated materials to the center, while also rallying support from many of their parts suppliers to donate additional materials. They created an outdoor area with vegetable gardens, fruit trees, paths and seating areas. I have since helped with maintaining the irrigation system and the landscaping at the AOC. Jessica Casey, (505) 344-2323.

From October 2009 to present, I have volunteered intermittently at The Storehouse, 106 Broadway SE, Albuquerque, NM 87102. The Storehouse offers food and clothing to low income residents of the Albuquerque area. My children and I helped by separating food products from bulk packaging to package sizes appropriate for distribution to the needy families, sorting donated clothes, helping to distribute the goods to the public, maintaining the flow of traffic through the parking lot, and helping the participants to their vehicles with the food and clothing they had received. Carol Bafus, (505) 842-6491.

From August 2010 to May 2014, I volunteered at/with the UNM College of Pharmacy, MSC 09 5360/1 University of New Mexico, Albuquerque, NM 87131. I volunteered at one of the UNM Legislative day, where a group of students, myself included, set up a booth at the State House of Representatives in Santa Fe, NM. We provided cholesterol testing, blood glucose monitoring, checked blood pressure, and administered flu shots. I also went from office to office introducing and explaining the “Vials for Life” project that the college is participating in, and handing out the vials. Dr. Megan Thompson, (505) 272-4121.
March of 2011 and March of 2012, I volunteered with the UNM Children’s Hospital to raise money for the hospital. The hospital is a regional trauma center, as well as the state’s only hospital dedicated solely to the care of neonates and pediatric care. I answered phones as part of the “Radiothon”, put on by a local radio station. Where, I answered incoming calls for donations. I also volunteered at several car washes, bake sales, and community events that were sponsored by Walgreens, to benefit the children’s Hospital. Manuel Griego, Assistant Director of Development Children’s Miracle Network, (505) 277-4553.

August 2011 to May 2014, I volunteered with the New Mexico Department of Health administering vaccinations to children and adults. The New Mexico DOH often asks the College of Pharmacy for volunteers to immunize at the clinics they sponsor. At these clinics we provide pneumococcal, measles, mumps, rubella, varicella, pertussis, and many more vaccines. Dean Michel B. Disco (505) 272-1508.

October 2011, I volunteered at the Christina Kent Early Childhood Center (CKECC), a center that provides childcare for under school age children from low-income families. With my four children, we helped the center by moving furniture from the various floors of the three story building down to the ground floor in preparation for a “yard sale”. Ms. Bliss (505) 242-0557.

January 2012 and January 2013, I volunteered at the 14th and 15th Annual Eyewitness News Health Fair, providing blood pressure and blood glucose monitoring, along with counseling on the results of the tests for attendees.

March 2012 to May 2013, I served as the Immunization Project Chairperson for the Student Society of Health-Systems Pharmacists, where my duties involved organizing flu shot clinics in the community. I volunteered over 200 hours in this position, 90 of which I was personally administering flu vaccinations to adults and children of all ages. Dean Michel B. Disco (505) 272-1508.

May 11th 2012, I volunteered in the FBI Wellness Festival held at the FBI building at 4200 Luecking Park Ave., Alb., NM 87107. We participated in a health fair, where we provided blood pressure and glucose monitoring, and BMI assessment for employees.
October 19th 2012, I personally coordinated four different Flu shot clinics for the First Annual UNM College of Pharmacy Outreach Day, where in a concerted effort; all the students of the college went into the community to provide our services free of cost to the underserved communities. We provided health fairs, poison prevention awareness, Generation Rx (providing information about prescription drug abuse and addiction to children of all ages), and free flu shots. We provided over 300 flu shots free of charge. Dr. Megan Thompson (505)272-4121.

Attn: Cory McGuinn-Parks

Mr. McGuinn-Parks,

My sincere appreciation for your participation in our Wellness Festival this past May. The suggestions, conversations and health tips to our employees and their family was greatly welcome. This year the team effort shown by all parties was instrumental in overcoming the unexpected relocation due to the storm. Even though we had some small (yet entertaining) hurdles, I hope you will consider coming back next year. With your collaboration our first Wellness Festival was a great success. If you have any suggestions for next years event, please let me know.

I have enclosed a few images for your entertainment.

Again, I thank you for your advise, expertise, and for being a part of our healthy lifestyle.

Please note that the settlement of a medical malpractice action may occur for
a variety of reasons that do not necessarily reflect negatively on the
professional competence or conduct of the provider. Therefore, there may be
no disciplinary action appearing for a licensee even though there is a closed
malpractice claim on file. A payment in the settlement of medical
malpractice does not create a presumption that medical malpractice occurred.

Respondent.                        )

This matter came before the Nevada State Board of Pharmacy (Board) at its regularly scheduled meeting on Wednesday, April 16, 2014, in Las Vegas, Nevada. S. Paul Edwards, Esq., represented the Board in his capacity as its General Counsel. Respondent Siovonne Simms, PT, Certificate of Registration No. PT12443, did not appear at the hearing, and did not have counsel appear on her behalf. She did, however, file an Answer and Notice of Defense in which she admitted to the allegations in the Accusation. Based on Ms. Sims’ admissions, and the evidence presented at the hearing, the Board enters its findings of fact, conclusions of law and orders.

FINDINGS OF FACT

1. On or about January 27, 2014, Board Staff received notification from a Walgreens’ Loss Prevention Manager, indicating that Walgreens terminated Ms. Sims from her employment as a pharmaceutical technician at Walgreens #05619 (Walgreens) located at 3030 Las Vegas Boulevard North, North Las Vegas, Nevada.

2. Ms. Sims was terminated for diversion of controlled substances.
3. During an interview conducted by the Walgreens' Loss Prevention Manager, and in a written statement, Ms. Sims admitted to diverting twenty-one (21) bottles of #100 alprazolam 2 mg. tablets between July 2013 and January 2014.

4. Ms. Sims sold the bottles of alprazolam for personal financial gain.

5. On February 19, 2014, Board Staff served the Notice of Intended Action and Accusation in this matter on Ms. Sims by certified mail sent to Ms. Sims' last address of record. Based on the evidence presented, that action satisfied the service requirements of NRS 639.242.

6. The foregoing findings are supported by Exhibits 1 through 5, which were admitted into the record.

CONCLUSIONS OF LAW

Based upon the foregoing findings of fact, the Board concludes as a matter of law:

7. The Board has jurisdiction over this matter and this respondent because at the time of the events alleged herein, Ms. Sims was a pharmaceutical technician registered by the Board.

8. By diverting controlled substances, namely, alprazolam 2 mg. tablets, respondent Siovonne Sims violated Nevada Revised Statute (NRS) 453.331(1)(d) and/or NRS 453.338(1), and/or Nevada Administrative Code (NAC) 639.945(1)(g) and/or (h), which violations are grounds for action pursuant to NRS 639.210(1), (4), (11), and/or (12), as well as NRS 639.255.

THERFORE, THE BOARD HEREBY ORDERS:

9. The registration of respondent Siovonne Sims, PT, Certificate of Registration No. PT12443, is hereby revoked effective immediately.

10. Ms. Sims may not work in any facility licensed by the Board, including a
pharmacy, in any capacity unless and until she has applied to the Board for reinstatement and the Board reinstates her registration.

11. In the event Ms. Sims applies for reinstatement, or for any other registration or certificate with the Board, she shall appear before the Board to answer questions and give testimony regarding her application and the facts and circumstances underlying this matter.

Signed and effective this 15th day of May, 2014.

Re: Flotsol, Inc., Medical Supplies and Orthotics

Dear Messrs. Edwards and Pinson:

This office represents Flotsol, Inc. ("Flotsol").

This letter is to request a rehearing pursuant to NRS 639.252. This is in relation to the oral hearing held on April 15, 2015. Flotsol did not have any representation at this hearing and did not get the opportunity to be heard. To this end, please see enclosed a copy of Flotsol’s “Answer and Notice of Defense”.

Additionally, this letter is to respond to your letter dated March 12, 2015.

First, my client disputes the selling of a compression hoisery. It is our contention that the Nevada Board of Pharmacy’s ("BOP") investigator was out to entrap Flotsol’s staff at Flotsol’s mall location. The fact that items were on display does not necessarily translate to items being sold. Additionally, the products do not have an NDC number to suggest that they cannot be touched and cannot be made available for sale. Flotsol’s store policy is to answer all questions and concerns of a client and will only complete the transaction once the required Prescription is offered. Meaning that a client can inquire about the quality of the material that was used and feel the product but cannot leave the store or kiosk without the Prescription. The process that the inspector described does not portray staff training on even the non-Prescription 10/15 & 15/20 mmHg. Flotsol’s store process was to entertain all questions and concerns, followed by a measurement to guarantee fit, go through client care & maintenance instructions for care and wear, before payment is sought. The BOP investigator also never completed the sale. If he had, Flotsol’s staff would have requested a Prescription.

Page 2  

The same pattern of entrapment was displayed by the BOP investigator at Flotsol’s main office located at 2411 W. Charleston Blvd., Las Vegas, Nevada 89102. It is our contention that the BOP investigator was already biased when he walked into the building based off of his experience at the mall. Similarly, no sale transaction was completed. My client also denies the statements that the BOP claims he made to the investigator and considers them hearsay.

Second, Mr. Adegborouwa’s felony conviction should not lead to the revocation of Flotsol’s license. We do understand the BOP’s concerns that Flotsol may be operating without a qualified administrator, but this is a curable offense as a new administrator may be hired. Also, we caution imputing Mr. Adegborouwa’s actions upon the company, which is a separate legal entity.

Third, Flotsol has paid the sum of $500 to renew its license. No information has been provided regarding the status of the renewal or if the application was denied. Therefore, we hereby request a refund in the amount of $500 in light of the BOP’s recent decision on April 15, 2015.

We look forward to a written response.

Kind regards,

ANSWER AND NOTICE OF DEFENSE

COMES NOW, Flotsol, Inc. ("Respondent"), Respondent named above, by and through its attorney of record, Augusta Massey, Esq., and in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy ("BOP"), declares:

1. That Flotsol’s objection to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

   a. Flotsol disputes the selling of a compression hosiery. The Nevada Board of Pharmacy’s ("BOP") investigator was out to entrap Flotsol’s staff at Flotsol’s
mall location. The fact that items were on display does not necessarily translate to items being sold. Additionally, the products do not have an NDC number to suggest that they cannot be touched and cannot be made available for sale. Flotsol's store policy is to answer all questions and concerns of a client and will only complete the transaction once the required Prescription is offered. Meaning that a client can inquire about the quality of the material that was used and feel the product but cannot leave the store or kiosk without the Prescription.

The process that the inspector described does not portray staff training on even the non-Prescription 10/15 & 15/20 mmHg. Flotsol's store process was to entertain all questions and concerns, followed by a measurement to guarantee fit, go through client care & maintenance instructions for care and wear, before payment is sought. The BOP investigator also never completed the sale. If he had, Flotsol's staff would have requested a Prescription.

b. The same pattern of entrapment was displayed by the BOP investigator at Flotsol's main office located at 2411 W. Charleston Blvd., Las Vegas, Nevada 89102. The BOP investigator was already biased when he walked into the building based off of his experience at the mall. Similarly, no sale transaction was completed. Flotsol also denies the statements that the BOP claims he made to the investigator and considers them hearsay.

c. Mr. Adegborouwa's felony conviction should not lead to the revocation of Flotsol's license. Flotsol may be operating without a qualified administrator, but this is a curable offense as a new administrator may be hired. Mr.
Adegboruwa's actions should not be imputed to Flotsol, which is a separate legal entity.

2. That in answer to the Notice of Intended Action and Accusation, Flotsol admits the conviction of Mr. Oluwole Adegboruwa, but denies those allegations as stated below:

1st cause of action: Flotsol never sold any compression hosiery with a pressure rating 20mm Hg without a valid prescription.

2nd Cause of Action: Mr. Adegboruwa has a Certified Orthoist Fitter license that allows him to provide training to buyers of the product sold.

3rd Cause of Action: Flotsol has kept good records of prescriptions for compression hosiery with greater than 20mm Hg sold to buyers. It was made available to BOP inspectors at various annual inspections.

4th Cause of Action: NAC 639.520 (Security of prescription departments) and NAC 639.210 (Educational qualifications: Approval of accredited programs of education in pharmacy) relates to a pharmacy operation and not a Medical Devices, Equipment and Gases ("MDEG") operation. There has been no reference to any MDEG statutes in the BOP's letter or Notice of Intended Action and Accusation.

5th Cause of Action: Flotsol is not unlawfully selling prescription required at another location other than it's main office located at 2411 W. Charleston Blvd., Las Vegas, Nevada 89102.

6th Cause of Action: Flotsol's employees did not commit any violation, therefore, it cannot be responsible for the actions that they did not commit.

7th Cause of Action: Flotsol’s registration may be revoked, denied or suspended pursuant to NRS 639.2122, if was governed by NRS 639. However, Flotsol is a MDEG and so NRS 639 does not apply.
WHEREFORE, Plaintiff prays for relief as follows:

1. For a re-hearing on this matter; and

2. For reinstatement of Flotsol, Inc.'s license; or

3. For refund of $500 paid for Flotsol, Inc.'s registration renewal.

Dated this 23rd day of April, 2015.

This matter came before the Nevada State Board of Pharmacy (Board) at its regularly
scheduled meeting on Wednesday, April 15, 2015, in Las Vegas, Nevada. S. Paul Edwards, Esq.,
appeared in his capacity as the Board’s General Counsel. Respondent Flotsol, Inc. (Flotsol),
Certificate of Registration No. MP00537, did not file an Answer and Notice of Defense, did not
appear at the hearing and did not have counsel appear on its behalf. Based on evidence presented
at the hearing, including evidence that Flotsol had been properly served, the Board enters its
findings of fact, conclusions of law and orders:

FINDINGS OF FACT

A. Unlawful Sales of Prescription-Only Products

1. On or about September 12, 2013, the Board Office received a consumer complaint
alleging that Flotsol was selling compression hosiery to the public without a valid prescription at
its store located at 2411 W. Charleston Boulevard, Las Vegas, Nevada, and from an unlicensed
kiosk located at an outlet mall on Charleston Boulevard.¹

¹ Compression hosiery with a pressure rating of greater than 20 millimeters of mercury cannot be sold lawfully
without a written or an oral prescription or order from a practitioner.
2. On September 13, 2013, a Board Investigator and a Board Inspector went to the kiosk located in the outlet mall to investigate the complaint.

3. The Investigator and Inspector each observed a variety of compression hosiery on display, including prescription-required compression hosiery. The products were unsecured, open to public access and available for purchase without a prescription.

4. The Board Inspector approached the kiosk posing as a customer. He selected a pair of prescription-required compression hosiery and proceeded to Flotsol employee D.H. to purchase the hosiery.

5. The Inspector asked D.H. if the hosiery he was purchasing required a prescription. D.H. responded that they did not. D.H. did not offer training in the fitting and use of the compression hosiery that the Inspector was purchasing.

6. D.H. asked for the Inspector’s credit card to complete the sale. At that point, the Inspector and Investigator identified themselves to D.H.

7. The Inspector and the Investigator, with D.H. present, inspected the products in the kiosk. The kiosk had an inventory of one hundred and twenty-seven pairs (127) of prescription-required compression hosiery.

8. The Inspector completed a “Receipt for Property” form itemizing the prescription-required compression hosiery products. He remained at the kiosk with D.H. while the Investigator went to Flotsol’s main store located at 2411 W. Charleston Boulevard.

9. The Investigator entered Flotsol’s store posing as a customer. He observed the compression hosiery products displayed in an unsecured area, with full public access to the prescription compression hosiery. The Inspector selected a prescription-required pair of compression hosiery and proceeded to the sale’s counter.
10. Flctsol employee T.C. assisted the Investigator. As T.C. was in the process of completing the sales transaction, the Investigator identified himself as an Investigator for the Board.

11. During the interaction with the Investigator at Flotsol’s store, Flotsol employee T.C. did not ask the Investigator for a prescription, inform him that a prescription is required or offer training by certified personnel in the fitting and use of the compression hosiery that he was purchasing.

12. Flotsol owner, Mr. Adegboruwa, presented himself to the Investigator at the sales counter. He told the Investigator that he was aware that a prescription is required for the compression hosiery that the Investigator was attempting to purchase.

13. The Investigator instructed Mr. Adegboruwa to segregate the prescription-required products in a secure area that did not allow public access to the products.

14. The Investigator asked Mr. Adegboruwa if Flotsol operates a kiosk located in the outlet mall. Mr. Adegboruwa admitted to having a kiosk, but denied that the kiosk contained prescription-required compression hosiery.

15. Upon further questioning, Mr. Adegboruwa admitted to stocking a few pairs of prescription-required compression hosiery at the kiosk. The Investigator informed Mr. Adegboruwa that the kiosk is not registered with the Board to sell prescription-required products.

16. On September 4, 2014, a second Board Inspector conducted an annual inspection of Flotsol at its Charleston Boulevard location. That Inspector observed prescription-required compression hosiery displayed in an unsecured area that was open to public access. The Inspector provided Flotsol with documentation of the issues identified during the inspection. On the inspection form, he instructed Flotsol to segregate prescription-required products in a controlled area.
17. On December 10, 2014, the Investigator and Inspector who visited Flotsol on September 13, 2013, returned to Flotsol’s Charleston Boulevard location. Flotsol was in compliance with the regulations related to the securement of prescription-required compression hosiery.

B. Felony and Misdemeanor Convictions of Flotsol’s Owner, Olu Adegboruwa

18. In October 2008, Flotsol’s owner, Olu Adegboruwa was charged with three felony charges of (1) Submitting False Medicaid Claims in violation of NRS 422.540, (2) Theft in violation of NRS 205.0832, and (3) Obtaining and Using Personal Identifying Information of Another Person for Unlawful Purposes in violation of NRS 422.570, and an additional gross misdemeanor for Intentional Failure to Maintain Adequate Records in violation of NRS 205.463.

19. Mr. Adegboruwa holds at least ten (10) percent or more of Flotsol, Inc.’s corporate stock, and he is the corporation’s president, secretary, treasurer and director, as indicated by information from the Nevada Secretary of State’s Office.

20. On October 30, 2014, a jury found Mr. Adegboruwa guilty on all four charges.

21. On March 2, 2014, Mr. Adegboruwa was sentenced. Eighth Judicial District Court Judge David Barker sentenced Adegboruwa to 19 to 48 months in prison on each of the false claims and theft charges, 364 days in jail for inadequate record keeping and 22 to 96 months for the unlawful use of another’s identification. All sentences are to run concurrent to each other and were suspended. As part of the sentence, Adegboruwa was ordered to pay $21,595.68 in restitution and costs of the investigation and prosecution.

22. As a significant part of his sentencing, Judge Barker also ordered that Mr. Adegboruwa can have no involvement with any business that directly or indirectly receives Medicaid payments.

23. On March 11, 2015, Board Staff served the Notice of Intended Action and Accusation in this matter on Flotsol by certified mail sent to its last address of record.
24. On March 12, 2015, Board Staff served a Notice of Summary Suspension and a second copy of the Notice of Intended Action and Accusation in this matter on Flotsol by certified mail sent to its last address of record.

25. Flotsol did not respond to the allegations in the Notice of Summary Suspension or the Accusation.

26. On April 14, 2015, Mr. Adegboruwa sent an email message to Board Counsel, Mr. Edwards. In that email, he confirmed receipt of the Notice of Summary Suspension and the Accusation. He did not respond to any allegations in that Accusation, but stated that he would address those issues at an unspecified future date in the presence of his previously undisclosed counsel. Mr. Adegboruwa stated in the email that he would not appear at the April 15th hearing, but that he would appear at the Board’s July 2015 meeting. At no time did Flotsol or its counsel request a continuance.

27. In a subsequent April 14, 2015 email, sent at 11:27 PM, Mr. Adegburuwa for the first time provided Mr. Edwards the name and contact information of his counsel.

28. Before the hearing on April 15, again during a break at the hearing, Mr. Edwards attempted to contact Flotsol’s counsel at the Board’s request. Those attempts were unsuccessful.

29. In light of the summary suspension of Flotsol’s license, the requirements of NAC 639.6958, and in the absence of any request from Flotsol to continue the matter, the Board proceeded to hear the matter.

30. These findings are evidenced by exhibits and testimony presented to the Board at the hearing, which exhibits the Board admitted into evidence.

CONCLUSIONS OF LAW

Based upon the forgoing findings of fact, the Board concludes as a matter of law:

31. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Flotsol, Inc., Certificate of Registration No.
MP00537, was registered with the Board as a Medical Device, Equipment & Gases (MDEG) provider.

32. The Board satisfied the notice and service requirements of NRS Chapter 639, and particularly NRS 639.242 and NRS Chapter 233B by sending by certified mail the Notice of Summary Suspension and two copies of the Notice of Intended Action and Accusation in this matter on Flotsol by certified mail sent to its last address of record.

33. Flotsol received timely notice of this action, did not file a response to the Accusation, nor did it request a continuance of the matter.

34. By selling compression hosey with a pressure rating of greater than 20 millimeters of mercury without a valid prescription, Flotsol violated Nevada Administrative Code (NAC) 639.945(1)(h) and (i), NAC 639.6941(1)(a), NAC 639.6949, NAC 639.695 and NAC 639.69545(1), which violations are grounds for action pursuant to Nevada Revised Statute (NRS) 639.210(1), (4), (12) and 16, and NRS 639.255.

35. By failing to provide training to patients by a person who is certified in the use, fitting, maintenance and potential problems in the use of compression hosey at the time the 20-30 mmHg. compression hosey was dispensed and sold, Flotsol violated NAC 639.945(1)(i), NAC 639.6941(1)(a) and (e), and NAC 639.6951(2) and (3), and NAC 639.69545(2), which violations are grounds for action pursuant to NRS 639.210(1), (4), and NRS 639.255.

36. By failing to maintain a prescription record for compression hosey with greater than 20 millimeters of mercury, which requires a prescription issued by a practitioner, Flotsol, violated NAC 639.482, NAC 639.695, NAC 639.706, and NAC 639.945(1)(h) and (i), which violations are grounds for action pursuant to NRS 639.210(4), and (17), and NRS 639.236 and NRS 639.255.
37. In failing to secure prescription-required merchandise, and allowing unauthorized public access to that merchandise, Flotsol violated NAC 639.520(1), which violations are grounds for action pursuant to NRS 639.210(4) and NRS 639.255.

38. In the unlawful selling of prescription-required merchandise at a location which was not licensed by the Board, Flotsol violated NAC 639.945(1)(f) and (k), NAC 693.6942 and/or NAC 639.6948, which violations are grounds for action pursuant to NRS 639.210(4), NRS 639.285, and NRS 639.255.

39. As the MDEG in which the above violations occurred, Flotsol is responsible for the acts of its employees pursuant to NAC 639.945(2), NAC 639.6941(1)(a), (2), and (3), and is therefore subject to discipline pursuant to NRS 639.210(4), (11), and (12), and NRS 639.255.

40. NRS 639.2122 allows the Board to “suspend, revoke or deny any . . . registration of a corporation where conditions exist in relation to any person holding 10 percent or more of the corporate stock of such corporation or to any officer or director of such corporation which would constitute grounds for disciplinary action against such person if he or she were a licensee.”

41. Mr. Adegborouwa’s felony conviction on charges of (1) submitting false Medicaid claims in violation of NRS 422.540, (2) theft in violation of NRS 205.0832, (3) obtaining and using personal identifying information of another person for unlawful purposes in violation of NRS 422.570, and his conviction of a gross misdemeanor of intentional failure to maintain adequate records in violation of NRS 205.463, along with his responsibility for the other allegations contained herein (see NAC 639.6941(1)(a), (2), and (3)), would constitute grounds for disciplinary action against him if he was a licensee, pursuant to NRS 639.210(1), (4), (6), (7) (a) and (c), (12), (17) and NRS 639.2121, as well as NRS 639.255.

42. Flotsol’s registration as a medical products provider authorized to sell medical devices, equipment and gases is therefore subject to discipline pursuant to one of more of the statutes or regulations cited above.
THEREFORE, THE BOARD HEREBY ENTERS DEFAULT AND ORDERS:

43. The registration of respondent Flotsol, Inc., Certificate of Registration No. MP00537, is hereby revoked effective immediately.

44. Flotsol, Inc., may not sell any medical equipment, device or gas, as defined in NRS Chapter 639 and NAC Chapter 639, unless and until it has applied to the Board for reinstatement and the Board reinstates its registration.

45. In the event Flotsol applies for reinstatement, or for any other registration or certificate with the Board, it shall appear, before the Board, though authorized representatives, to answer questions and give testimony regarding its application and the facts and circumstances underlying this matter.

Signed and effective this 21 day of April, 2015.

Explanations

To the Pharmacy Board of Nevada:

Regarding the first question about substance abuse, in April of 2013, I successfully completed a year program with the PRN-PRN program. I have had no further problems since and have maintained a recovery program. Please call Larry Espadero to verify at (702) 251-1377.

Question #2

I have (3) misdemeanor convictions.

1) The first was in 1984 for Misdemeanor in Westminster, Ca. case # 370206, Accessory after the fact. It was over 30 years ago. I used very bad judgment by associating with a person of bad character and was charged with a misdemeanor for spending money that was acquired in a crime. I was put on probation for 5 years which I completed. This case has been expunged.

2) The second was in 1986 for a Misdemeanor, DUI in Anaheim. No case # available since record was sealed over 20 years ago. I paid the fines and completed alcohol school and the required probation for a first time DUI. This case was sealed and is no longer on my record.

3) The third was in 2006 for a Misdemeanor, DUI in Las Vegas, case # 2589965. It was 9 years ago. I paid the fines and completed the alcohol school and completed the probation and haven't driven under the influence since.

Question #3

In March of 1996 I was offered a probationary License to Practice Respiratory Care in California, but I declined the license due to the fact that I wanted to stay in Las Vegas, Nevada, since I was already working at University Medical Center. I was under the impression that I was surrendering my license, but later realized that because I declined the probationary license it was considered revoked, and I would have to wait 3 years to reapply. I actually never had the opportunity to practice in California.

I have also been investigated by the Nevada State Medical Board, however I have no public actions. Please contact Joanna LaRue the Compliance Officer with the board if you have any questions or concerns at (775) 688-2359, ext. 229.
I would like to mention to the Pharmacy Board that I have been a licensed Respiratory Therapist with the Nevada State Medical Board since 2004. I have also worked at the same hospital for 10 years; St Rose Dominican Hospital, San Martin Campus. I have also gone back to school and received a Bachelor's Degree in Business Administration from the University of Phoenix and have become a Board Certified Registered Respiratory Therapist and Neo-Natal Pediatric Specialist.

I realize that I have had a few problems in the past, however, I would like to reassure the board that I have learned from my mistakes. I have also exceeded all expectations at work and can prove it with my most recent evaluation. I look forward to the opportunity to go in front of the Pharmacy Board to address any concerns or questions that the board might have.

Sincerely,

To Whom It May Concern,

In response to question 3 on the application for a Nevada pharmacy license, this statement of explanation addresses two recent concerns with the Oregon Board of Pharmacy.

Case 2013-0542
The first case pertains to a pharmacist who dispensed finasteride to a female patient pursuant to what we believed to be a valid order. I have attached a copy of the consent order, which was originally proposed against the individual practitioner and not against our business license. We discussed this case in person at the Nevada Board of Pharmacy meeting on April 16, 2015 as we applied for a non-resident pharmacy permit for our Oregon location (which was approved).

Our first concern here is for the health and safety of this patient and all of our patients. While we believe disciplinary action was unnecessary in this case, we certainly agree with taking measures to protect patients and prevent this from happening again.

In this case, we received orders that, unknown to us, had been mixed with another patient’s orders prior to transmission to the pharmacy. There was no name or other identifying information on the documentation that could have alerted our staff to this error. The corrupted documentation contained many drug orders, but only one was deemed problematic in the investigation. The patient was female, and there was an order for finasteride which is most commonly (but not always) used in males.

The opinion of the Oregon board was that our pharmacist should have taken action on the finasteride order as part of DUR. We agree that this would have been ideal; however we felt that the pharmacist did exercise reasonable professional judgement. The orders indicated that the patient had already been taking finasteride, and we do have other female patients taking it as well. It is also unclear whether questioning the finasteride order, which had no known negative impact on the patient, would have
prevented the dispensing of other drugs contained within the corrupted documentation that did result in a negative outcome.

The patient was hospitalized briefly, but fortunately recovered from the incident and was able to return to the assisted living facility where she had been residing. In order to settle the matter without going to hearing, and to prevent what we considered unreasonable discipline against our pharmacist, Consonus voluntarily paid a fine and accepted the consent order on the business license.

Case 2013-0472
This case pertains to verification practices for emergency kits in Oregon skilled nursing facilities. The attached letter from legal counsel explains our position, and the consent order is included.

As with the previous case, our first priority is the safety and wellbeing of our patients. We had every intention of practicing pharmacy within the rules and regulations set forth by the board, and we always seek to cooperate in any inquiry. Oregon rules do not specifically address emergency kits, and we voluntarily amended our process to fit the current interpretation as soon as that interpretation was made clear to us.

Through the investigation, I attempted to engage in discussion about the rules and the standard of practice in Oregon. This unfortunately resulted in concerns that we were not cooperating. I fully denied this allegation as it was never my intention to be uncooperative in any way. Please note in the consent order that we chose to resolve the matter without going to hearing and that there is no admission of wrongdoing.

I am confident that both of these matters are behind us and that our organization’s commitment to quality and patient safety are as strong as ever. Please feel free to contact me with any questions or concerns.

RE: Consonus Pharmacy Services, LLC and Joshua L. Free R.Ph.
Board Case Nos: 2013-0472 and 2014-0073

To Whom it May Concern:

I represented Consonus Pharmacy and Joshua Free, R.Ph. in connection with the Oregon State Board of Pharmacy's Notices of Proposed Disciplinary Action, copies of which are enclosed. Consonus Pharmacy and Mr. Free promptly requested a hearing and answered the Notices by denying the allegations against them. A copy of the Answers and Requests for Hearing are also enclosed.

A consolidated hearing was scheduled for May 6, 2015. In advance of the hearing, I informed the compliance director and attorney for Oregon Board of Pharmacy that Consonus and their PIC, Mr. Free, were ready to proceed to hearing with multiple experts who would testify:

- Consonus' prior practice for checking e-Kits was accepted practice for long term care pharmacies prior to these proceedings;
- There is no Board of Pharmacy administrative rule which specifically addresses e-Kits;
- The disciplinary notice cites OAR 855-025-0025(4) which states “Work performed by pharmacy technicians and certified pharmacy technicians assisting the pharmacist to prepare medications must be verified by a pharmacist prior to release for patient use. Verification must be documented, available and consistent with the standard of practice.” E-Kits are never released for patient use. E-Kits are only released to a licensed facility and nurse;
- While pharmacy rules do not specifically address verification of e-Kits, OAR 855-041-6305 addresses the use of a "night cabinet" which appears to be the closest thing resembling an e-Kit in the administrative rules. There is no mention in OAR 855-041-6305 as to who is allowed to stock the night cabinet;
- Consonus and other pharmacies in the industry historically followed the Institutional Pharmacy Rules that pertain to “absence of a pharmacist.” (OAR 855-041-6300 through 855-041-6310);
May 13, 2015
Page 2

- The Floor Stock Rules (OAR 855-041-6560 and Tray-Kit Rules (OAR 855-041-6570) specifically reference “hospital”. These rules do not reference long term care pharmacies or skilled nursing facilities.

Following receipt of this information, the Board agreed to enter into a Consent Order with Cononus and Mr. Free resolving all issues. Copies of the Consent Orders are enclosed. This was a compromise of a disputed claim. Please note that neither Cononus nor Mr. Free admitted the facts alleged in the Board’s Notice.

Cononus and Mr. Free will fully comply with the Consent Orders. Indeed, in advance of the Consent Order, Mr. Free had already registered and planned to complete the Board’s PIC training class. Mr. Free is committed to excellence. It is my information and belief that Mr. Free is a valuable Cononus employee whose continued role as PIC is viewed as vital to the organization. He has assumed leadership statewide, having been elected to serve as the President Elect of the Oregon State Pharmacy Association. He is committed to fully understanding the laws and regulations pertaining to his responsibilities as a PIC.

I anticipate there will be no issues or concerns from this point forward.

Please let me know if you need any additional information.

Sincerely,

RE: U.S. Department of Justice (DOJ) Grant Award

Dear Executive Secretary Pinson:

I am pleased to inform you that I have recently been notified that the Nevada State Board of Pharmacy is the recipient of a Harold Rogers Prescription Drug Monitoring Program: PDMP Implementation and Enhancement grant award in the amount of $303,004. The awarding DOJ agency is the Bureau of Justice Assistance.

The award notification indicates that the Board will use the grant award to establish and build a data collection and analysis system; develop an infrastructure to support programmatic activities; facilitate the exchange of information and collected prescription data and other scheduled chemical products among states; facilitate the establishment of collaborations; develop a training program for system users; produce and disseminate educational materials and assess the efficiency and effectiveness of the program. Any questions about use of the grant monies should be directed to your grant program managers listed on the award notification.

Thank you for your interest in the Department of Justice grant programs and your continuing commitment to working together to provide improved law enforcement services to the citizens of the State of Nevada. For the betterment of our State and citizens, we are looking forward to the enhancement and increased effectiveness of the Prescription Drug Monitoring Program in Nevada and are confident this grant will assist in accomplishing that result.

AUTHORITY: §§1-4, NRS 639.070 and 639.233.

A REGULATION relating to pharmacy; revising provisions governing the licensure of a third-party logistics provider; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

The federal Drug Supply Chain Security Act defines a “third-party logistics provider” as an entity that provides or coordinates warehousing, or other logistics services of a product in interstate commerce on behalf of a manufacturer, wholesale distributor or disperser of a product, but does not take ownership of the product nor have the responsibility to direct the sale or disposition of the product. (21 U.S.C. § 360eee(22)) UPS and DHL are examples of companies that provide those services. Section 1 of this regulation amends the definition of “third-party logistics provider” in existing regulations to include the provision of such services on behalf of wholesalers to more closely align that definition with the federal definition of that term. (NAC 639.6282)

Existing regulations require a third-party logistics provider in this State to obtain a license to engage in business as an authorized warehouse. (NAC 639.6305) Existing regulations define an “authorized warehouse” as a warehouse or other business in the State that receives, stores or ships prescription drugs and goods pursuant to a written contract with a manufacturer, wholesaler, pharmacy or chain warehouse under which the authorized warehouse acts solely as the agent or bailee of the manufacturer, wholesaler, pharmacy or chain warehouse. (NAC 639.622) Section 2 of this regulation expressly provides that a third-party logistics provider that is located in the State or that ships certain poisons, drugs, chemicals, devices or appliances into this State is required to: (1) obtain a license to engage in business as an authorized warehouse; and (2) comply with the provisions of existing regulations governing warehouses.
Section 1. Chapter 639 of NAC is hereby amended by adding thereto a new section to read as follows:

"Poisons, drugs, chemicals, devices or appliances" mean poisons, drugs, chemicals, devices or appliances that are subject to the provisions of chapters 453, 454 or 639 of NRS.

Sec. 2. NAC 639.620 is hereby amended to read as follows:

639.620 As used in NAC 639.620 to 639.644, inclusive, and section 1 of this regulation, unless the context otherwise requires, the words and terms defined in NAC 639.621 to 639.629, inclusive, and section 1 of this regulation have the meanings ascribed to them in those sections.

Sec. 3. NAC 639.6282 is hereby amended to read as follows:

639.6282 “Third-party logistics provider” means a business that contracts with a manufacturer or wholesaler to provide or coordinate warehousing, distribution or other services for poisons, drugs, chemicals, devices or appliances on behalf of the manufacturer or wholesaler without taking title to or ownership of the [prescription] poisons, drugs, chemicals, devices or appliances and without authority to direct the sale or disposition of the [prescription] poisons, drugs, chemicals, devices or appliances.

Sec. 4. NAC 639.6305 is hereby amended to read as follows:

639.6305 A third-party logistics provider that is located in this State or that ships poisons, drugs, chemicals, devices or appliances into this State shall obtain a license to engage in business as an authorized warehouse pursuant to, and shall otherwise comply with, the provisions of NAC 639.620 to 639.644, inclusive and section 1 of this regulation.

AUTHORITY: §§1 and 2, NRS 639.070.

A REGULATION relating to the practice of pharmacy; requiring certain entities collecting controlled substances to provide certain notification and a copy of a certain federally required form to the State Board of Pharmacy; clarifying standards for the disposal of controlled substances; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:
Under existing law, the State Board of Pharmacy may adopt regulations governing the storage, handling and security of drugs and medicines. (NRS 639.070)

Federal law authorizes pharmacies, hospitals and other entities authorized to handle controlled substances to register with the Drug Enforcement Administration for authority to collect controlled substances. Such entities may conduct “mail-back” programs for the return of controlled substances and may maintain collection receptacles for the return of controlled substances. (21 C.F.R. §§ 1317.40, 1317.70, 1317.75) Section 1 of this regulation requires an entity conducting a mail-back program or maintaining a collection receptacle to notify the Board that it has registered with the Drug Enforcement Administration. Section 1 also requires such an entity to submit to the Board a copy of a certain form required to be submitted to the Drug Enforcement Administration.

Existing federal law provides standards for the disposal of controlled substances by entities authorized to handle and dispose of controlled substances. (21 C.F.R. parts 1300, 1301, 1304, 1305, 1307, 1317) Existing regulation also provides standards for the disposal of controlled substances. (NAC 639.498) Section 2 of this regulation deletes the provisions of state regulatory law providing standards for the disposal of controlled substances and clarifies that the disposal of controlled substances must be done pursuant to federal law.

Section 1. NAC 639.050 is hereby amended to read as follows:
639.050 1. Upon the discontinuance of a controlled substance, a controlled substance becoming outdated or the demise of a patient at a facility for skilled nursing or facility for intermediate care which is licensed by the Division of Public and Behavioral Health of the Department of Health and Human Services, any remaining controlled substance dispensed to the patient must be placed in a secured locked compartment. The controlled substance must be secured in the locked container until destroyed in the manner prescribed in NAC 639.498.

2. Each practitioner or pharmacy shall physically separate each controlled substance which is outdated, damaged, deteriorated, misbranded or adulterated from the balance of its stock medications. The practitioner or pharmacy shall destroy such controlled substances at least once each year. The practitioner or pharmacy shall complete Form DEA-41 of the Drug Enforcement Administration, “Registrants Inventory of Drugs Surrendered,” to acknowledge the destruction of the controlled substances.

3. Any entity that is authorized pursuant to federal law to collect controlled substances and conducts a mail-back program to collect controlled substances or maintains collection receptacles for controlled substances shall provide to the Board:

   (a) Written notification that the entity has registered with the Drug Enforcement Administration to obtain authorization to be a collector; and

   (b) A copy of each Form DEA-41 submitted to the Drug Enforcement Administration.

4. This section does not apply to controlled substances packaged in manufacturer's unit-dose packages which are governed by the provisions of NRS 639.267.

Sec. 2. NAC 639.498 is hereby amended to read as follows:

639.498 1. Except as otherwise provided in subsection 2:
(a) At least once each month, the director or a licensed consulting pharmacist shall destroy, on the premises of the facility, the controlled substances described in subsection 1 of NAC 639.050.

(b) If the director destroys the controlled substances, the licensed consulting pharmacist shall witness the destruction of the controlled substances. If the licensed consulting pharmacist destroys the controlled substances, the director shall witness the destruction of the controlled substances.

2. The director may designate a nurse licensed pursuant to chapter 632 of NRS to carry out his or her duties pursuant to this section. The licensed consulting pharmacist may designate a pharmacist licensed pursuant to chapter 639 of NRS to carry out his or her duties pursuant to this section.

3. The controlled substances must be destroyed [by:]
   —(a) Flushing them down the toilet or hopper;
   —(b) If a container for waste disposal is used, placing the controlled substances in the water in the container for disposal; or
   —(c) If the controlled substance is stored in a vial, ampule or other glass container, breaking the container and placing its contents into a container for waste disposal.] in accordance with 21 C.F.R. Parts 1300, 1301, 1304, 1305, 1307 and 1317 and any other provision of federal law governing the destruction or disposal of controlled substances.

Sec. 7. 1. Except as otherwise provided in subsection 2, an outsourcing facility is not required to be licensed as a pharmacy.

Sec. 8. NAC 639.609 is hereby amended to read as follows:

639.609 As used in NAC 639.609 to 639.619, inclusive, unless the context otherwise requires, the term “manufacturer” has the meaning ascribed to it in NRS 639.009. The term includes an outsourcing facility as defined in section 4 of this regulation.
