Salt Lake City, UT 84114-6741~~

Nevada State Board of
Pharmacy. UK

Dear ~~Madison Paskett~~:

The following information is a personal narrative as to what happened at the time of incident's in regards to APRN application for Lonny Krause.

On October 14, 2013, myself, Lonny Krause, along with multiple others, around 10-14, were at an acquaintance's house. It was visible that there was alcohol in the house, with no one over the age of 21 at the time. No alcohol was ingested by Lonny Krause. That night, police showed up and gave unlawful for minor to possess an alcoholic product to all individuals, whether they were drinking or not because no one was over the age of 21. No blood alcohol level test was performed or breathalyzer was preformed. The case went to the Wayne County Justice Court system on September 24, 2014. Lonny Krause plea not guilty and the case was dismissed on September 24, 2014.

On February 16, 2014, myself, Lonny Krause, along with two others were driving in a car. One passenger was 26 years old and the other 18. Police officer D. Brinkerhoff pulled the car over and explained that the 12 pack of beer was against the law to have in the car to the 26 year old, because the underage was not family. No alcohol was open, no alcohol was ingested. Officer cited myself, Lonny Krause, along with another underage individual with Possess by minor measurable amounts. Lonny Krause plea not guilty to offense on February 02, 2015, and the case was dismissed on February 02, 2015.

On January 24, 2010, myself, Lonny Krause was riding a snowmobile with an expired registration. I was pulled over, and given a citation for operated or transporting w/o current registration. The fees were paid and all actions taken care of in timely appropriate manor. Case dismissed on February 03, 2010.

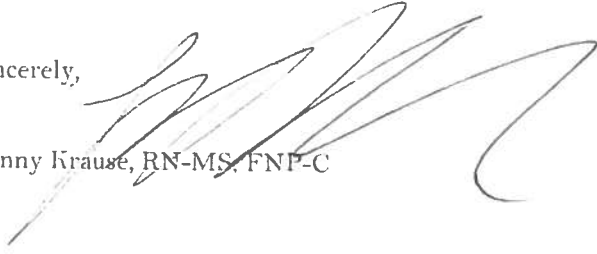

On August 09, 2015, I was arrested with Impaired Driving. That night I was consuming alcohol, later to find out that one of my friends had not been heard from after driving home in a non-cellular reception spot. I went to look for my friend, to find him needing medical help, crashed in a canyon. I activated the 9-11 response. When they arrived they asked if I was drinking, which I honestly told them. They arrested me. On May 31, 2016 the case was dismissed.

It seems that most of these cases I was at the wrong place at the wrong time. I have learned as getting older and getting more education that it is important to know who you are with and what is going on. Simple decisions can affect you as a professional. It has now been 4 years since any issues with the law. I follow my nursing standards and will continue to do so.

The information given in this letter is accurate to my knowledge. If you have questions feel free to contact me at anytime.

Sincerely,

Lonny Krause, RN-MS, FNP-C

A handwritten signature in black ink, appearing to be 'Lonny Krause', written over a light blue horizontal line.

Dear Sir or Madam,

I want to convey the circumstances behind my conviction for wet and reckless driving in violation of VC23103 in case No. 19M1022316 (see attached court documents). In addition, as a result of this conviction the California Board of Registered Nursing has filed an accusation (the hearing is pending and is set for March 23, 2020). The board administrative action/accusation is not considered at all practice related and therefore my California RN license and FNP license remains, active, valid, and unrestricted.

The wet and reckless driving event occurred on November 2018 shortly after I graduated from University of California San Francisco (UCSF) with my Doctor of Philosophy Degree (PhD) in Nursing (see attached CV).

Please know that two years before my arrest, I became a father, and my son was delivered prematurely at 27 weeks weighing 2lbs 9oz in Toronto, Canada. Unfortunately, my wife went into emergent labor 3 months early and my son remained in a neo-natal intensive care unit for approximately 3 months while we were visiting. Although we lived and continue to live in the Sacramento area, we had to spend the first months of my son's life in Toronto.

As a new father I decided to optimize my health and well-being—with a desire to be able to spend as many healthy and happy years with my son. Thus, I started to engage more regular physical activity and a healthier diet, and I made a personal decision to limit alcohol during this time. I shared these goals, my motivations, and aspirations with my wife, sister, mother and other family members and friends who welcomed my new focus on my health.

This focus brought profound benefits to all aspects of my life. I subsequently lost over 50 pounds, and I was able to successfully finish my PhD (see character reference letters) from UCSF and was promoted to Co-Director of our nursing program on our Sacramento campus—in partnership with the VA Northern California Health Care System (see additional character reference letters attached and CV).

The event that occurred that serves as foundation for this letter happened on November 1, 2018. I had not had any alcohol in a long time (birth of new son description above and note I had also lost a significant amount of weight—described above). That night I was out celebrating my new accomplishments—my PhD, new Co-Director role at the University of San Francisco, and all that I had worked for in the past 20 years let along the past few years--after work. I had consumed 2 beers with colleagues and friends. Clearly, I made a mistake in judgement when I got behind the wheel after this short celebration. While I was driving, I decided to stop driving, and I exited the freeway and approximately ¼ mile after exiting the freeway--pulled off the road and fell asleep in my car.

When the officers arrived (they said that someone had called about a car that they assumed had mechanical problems)—I was extremely cooperative, and I submitted to a blood test and later it was determined I had a blood alcohol level of .09 and the charge was subsequently a wet and reckless violation.

This event is not reflective of all I have accomplished and worked for the past 20 years--including my paramount and demonstrated commitment to the nursing profession and to serve those with the greatest need (see attached CV) and my last 14 years as a registered nurse serving those with the greatest need--with a completely free of any events affecting my RN licenses.

I realize my actions were very wrong and I am not going to make any justifications. I have complied with my legal responsibilities to include completion of a 3-month first offender program, and court fine payments. I have now have completed the education and counseling required as a result of this violation (see attached Notice of Completion Certificate-Breining Institute). I have found the education insightful because it has-among many other things- provided insights into the pathophysiology of the health effects of alcohol consumption and the pathophysiology of all forms of substance abuse. This is important to me personally because of my focus on my own health and wellbeing and for me professionally to help others. Also, the counseling is important to me-as it helps me recognize the situation as it is and provides a realistic perspective because the stress of this violation is difficult-an it helps me help others. I also recently attended a MADD Victim Impact Panel (see attached proof of completion) that I also found insightful as it helps me better understanding the potential impact of the situation and potential consequences—and to help me serve others. In addition, I have completed 26 CEUs relative to management and treatment of related substance abuse CEUs to better my commitment to help others and myself understand this phenomenon. The certificates of completion and brief descriptions of the three courses are attached.

These actions along with a daily focus on my health and wellbeing reflect my personal choices to negate this event from ever occurring again. By personal choice, I have not had any alcohol since my arrest. I recognize that I made a mistake, this is the only mistake I have made of this nature in my 14 years as registered nurse and I am sincerely remorseful for this action. I have also attended counseling to better myself and acupuncture, massage, and meditation to best deal with stress and focus on my health. In addition, I have recently completed a profoundly useful Zen Leadership intensive training to stay grounded in this moment and all moments of stress that happen inevitably in life. All these actions have been extremely helpful to me as I process this difficult time and stay focused on continuing to be a strong and effective leader, father, and Registered Nurse.

I hope the Nevada Board of Pharmacy will consider my contributions to the nursing profession and the foundations I have put in place to ensure no such actions occur in the future. I hope that the board will consider my letters of character reference from those who supervise me in direct patient care and leadership roles and who have guided and directed me as a registered nurse (RN), a nurse practitioner (NP), and a doctoral prepared nurse (PhD) as I have served the underserved locally and throughout the world in my work.

Finally, a short summary of events that occurred long before I ever became a registered nurse or nurse practitioner in any state. These events occurred 16 and 17 years ago respectively:

Maricopa County, AZ—September 4, 2003—Case#: 20032080189—Court: North Mesa
Maricopa County Court—Explanation/Short Summary of Events:

- Was in going through a very difficult break-up with my girlfriend at the time and had decided to sleep in my car instead of driving—after consuming alcohol.
 - I recently have attempted to have this case “set aside” due to the event happened long ago, currently after having contacted and paid an attorney this is the response and the only documentation for this event available at this time.

From: Brian Sloan <brandsloan@yahoo.com>
Date: October 8, 2019 at 6:29:24 PM PDT
To: Attorney Brian Sloan <MCDUI@MCDUI.com>, Jason Speaks <jasonspeaks@help2serve.care>
Subject: Re: Time Sensitive—Jason Speaks—quick email request—

I have filed a Motion to Set Aside the Conviction.

The court has notified me that they have “purged” your file due to the age of the case. Basically, they are saying that they shredded your case file.

I want to reach out to them to tell them that that isn’t an excuse to not Set Aside the Conviction.

Attorney Brian Sloan

Dear Attorney Sloan:

Can you please respond via summarizing quickly your efforts in regard to the delay on you effort to expunging this case below. I just need to know you have contacted the court and the are telling you

Basically can you share as you did on the phone that —they said the case is too old—and the court documents have been purged—again as you clarified on the phone. This quick email would be helpful for now as you work on the process!

Jason Thomas Speaks

Davidson County, NV—April 22, 2002—Case#: GS57357—Court: Davidson County
Court—Explanation/Short Summary of Events:

- Was out with friends and I had consumed alcohol and was pulled over while driving home.
 - See attached documentation

Sincerely,

Jason Thomas Speaks, PhD, MS, BA, BS, APRN-C, FNP-BC, RN

To: Board of Registered Nursing Re: Letter of Support and Character Reference

To the Board of Registered Nursing:

I am writing this letter to provide support and a reference for Dr. Jason Speaks. Jason is a RN, a practicing Family Nurse Practitioner and a graduate of the doctoral program in Nursing from University of California, San Francisco. I have known Jason over the past five years since he enrolled in graduate school at UCSF. I worked closely with Jason as his advisor for his dissertation research at UCSF. Jason has always demonstrated excellent character and professional behavior in all of my interactions with him including in the classroom as a student, when he has taught students in the classroom, and during our weekly meetings over the period of a year when he was completing his dissertation study.

Jason is committed to nursing and educating the next generation of nursing professionals. Throughout his time as a graduate student at UCSF he maintained a faculty role at the University of San Francisco. In this role I have directly observed Jason with his group of RN students when they were conducting their clinical training hours at UCSF Moffit hospital. On the several occasions where I observed Jason in this nursing faculty role, his attention to his students was complete and consistent and what I mean by that is he oversaw their practice and provided hands on education and feedback. When I met these students and he introduced me as his professor, his students always spoke about how lucky they felt to have him as a faculty mentor as they were being trained to enter the field of nursing practice.

In all of my interactions with Jason he never demonstrated any actions or behaviors of alcohol use or abuse, nor have any faculty or other students, or nurses in the UCSF medical center brought this to my attention. I have interacted with Jason in clinical settings with students, and in the classroom and individually as part of our teaching sessions and during these times Jason has always demonstrated the highest level of ethical and professional behavior. Jason is an excellent faculty member and brings an important perspective and professionalism to nursing education.

At no time has Jason Speaks demonstrated anything but the highest level of professionalism with an intense focus on patient outcomes that is expected of our profession. Jason is an outstanding nurse and exemplary model for our students and colleagues as a leader.

Jason spoke to me weeks ago about his violation, the history of events, and the potential effect this could have on his nursing license from the BRN. In this situation, just like in every interaction I have had with Jason he has responded with integrity and honesty, and as such, Jason is taking every step as directed to better himself as an individual. He by choice is also attending counseling to

better himself and because of his honesty with himself and others has created a network of support, both professional and personal, that provide him insight into the circumstances that lead to this situation and to best manage this and all stressful events in life—now and in the future. For Jason to be able to serve the community and contribute to educating the next generation of nurses, it is important for him to have a full and unrestricted license. I am advocating that Jason Speak's actions over the past many years as well as his self-motivated and direct response to this situation be favorably considered and that Dr. Speaks be allowed to practice nursing as an advanced practice nurse and contribute to his community and family.

I declare under penalty of perjury that the foregoing statements are true and correct to the best of my knowledge.

To the Board of Registered Nursing

Ref: Letter of Support

Nursing Board,

I was recently asked to provide a letter of support for Dr. Jason Speaks. As the Nurse Manager of the Medical Surgical Unit (MSU), over the last three years I have had the opportunity to get to know Dr. Speaks. He is one of our collaborative partners from the University of San Francisco (USF). His role has grown from clinical instructor and professor to Co-Director of the Sacramento Campus Nursing Program with USF.

Over the last three years, Dr. Speaks has made multiple contributions to the nursing profession while at the VA Sacramento Medical Center. In addition to him grooming and growing some of our star nurses, Dr. Speaks was a major contributor in several quality improvement initiatives. Some of the projects included our Delirium prevention bundle and Aspiration prevention bundle. This collaborative effort resulted in the VA's Sacramento Medical Center earning the "Most Improved VA" Award in 2018.

In the course of our collaborative work, I was able to get a measure of his character. Jason is diligent, organized, intelligent, trustworthy, responsive, and responsible. Additionally, Jason is a very passionate and personable nurse who cares about his students, peers, and patients. He never hesitates to voice a concern or congratulate a job well done.

Recently Jason has shared with me the details about being ticketed with a "wet and reckless" and the lengths he has gone to rectify the situation—and the details of his entire situation. Jason has satisfied court fines, is going to classes and meetings. He is clearly frightened at the consequences of his actions, and has owned the mistake.

Knowing Dr. Speaks' situation, and the actions he is taking, I am confident the public is safe. I think it is note worthy to mention, Dr. Speaks behavior, in my observation, has not been erratic, reckless, or impulsive. He has not demonstrated unsafe or poor professional judgment over the years I have known him and I expect this demonstrated exemplary behavior to continue. My hope is that my account of Dr. Speaks character,

contributions, and situation is taken in to consideration, as he has proven to be invaluable to our nursing community.

I declare under penalty of perjury that the foregoing statements are true and correct to the best of my knowledge.

To: Board of Registered Nursing

Ref: Letter of Support

To the Board of Registered Nursing:

This letter of support is written on behalf of Jason Speaks, PhD, FNP, RN. I have known and worked with Mr. Speaks since he started working with us here at the VA Northern California Health Care System 4 years ago in partnership with the University of San Francisco. He has always been a dedicated, sincere, kind, thoughtful and caring Registered Nurse, professional, and leader. His leadership has brought monumental changes to how our system delivers care to the elderly and our collaborative practice approach, and his dedicated efforts have directly enhanced patient outcomes throughout the healthcare delivery system at the Mather VA.

He created many initiatives to address the needs of our patient population and to enhance the practice of our providers of care (RNs, CNAs, and Doctor of Medicine and beyond). For example, he helped initiate, create, lead, secure funding for and mentor and guide the creation of a Nurses Improving Care for Health system Elders (NICHE) system to serve hundreds of Veterans. This among many contributions demonstrates how he has profoundly changed the way we deliver care to support our elderly and most vulnerable Veterans at the VA.

In my years of knowing Jason he has never demonstrated any sign of alcohol abuse nor has anyone who also works with me reported any concerns regarding behavior exhibited by Mr. Speaks. I have worked with Jason directly on the units with nurses, nursing students, and patients. I have also worked directly with him at various times throughout his shifts and participated with him in meetings with the highest levels of leadership within the VA Northern California Health Care System. At no time has he demonstrated anything but the highest level of professionalism with an intense focus on patient outcomes that is expected of our profession. Jason is an outstanding nurse and exemplary example for our staff as a leader.

Also, I have had the opportunity to come to know Jason professional as he also served as my daughters' faculty when she attended nursing school at the University of San Francisco—Sacramento Campus. She recently graduated and throughout my daughter's time as a student she regularly reported to me that Dr. Speaks was an outstanding professor, extremely caring, and an exemplary example as a nurse and leader for her and her peers.

2.

Jason shared with me this unfortunate violation and we spoke about this and the entire situation and history in depth and about all the things he has done and continues to do to better himself to remain an outstanding nurse, professor, and new father. Jason has taken ownership of correcting the issue by seeking out and attending classes and counseling to better himself. To maintain his service to our Veterans he needs to have a full and unrestricted license and I am respectfully advocating that this issue be put to rest and Mr. Speaks be allowed to continue give back to his community by his daily service to our Veterans and beyond.

I would like to add that Mr. Speaks has chosen to treat this matter confidentially, and I have advised him a few letters is sufficient. But please know that my peers and all that I know who know Jason would repeat similar accolades and also confirm that he is an exemplary professional and an outstanding nurse and a service to this profession, the underserved, and our Veterans. If you have any further questions or need any more clarification or information, please do not hesitate to call me at: 916- 843-7332.

Sincerely,

Jacob Nur *MSN, RN*
Chief Nurse, Acute Care Services

EMPLOYMENT

Principal Positions Held

2013 to Present	U.S. Department of Veterans Affairs—Northern California Health Care System/University of San Francisco—Veteran Affairs Nursing Academic Partnership (VANAP) Family Nurse Practitioner, Co-Director VANAP, and Associate Professor
-----------------	--

San Francisco and Sacramento, California

- ◆ Serve Co-Director, lead provider of care, and faculty lead for the development and delivery of direct patient care; including an entire curriculum centered on Veteran Centric care.
- ◆ Lead in providing Veteran Centric patient and family health education with a focus on self-management, prevention, and wellness, based on the patient's goals.
- ◆ Bring a wealth of expertise and have continually demonstrated a focus on outstanding Veteran Centric patient outcomes while providing direct patient care and supervision of care to ensure the completion of history and physicals, including appropriate diagnosing and treatment plans based in evidence-based practice—while operating within my scope of practice for all patient interactions.
- ◆ Focus on the provision of excellent quality Veteran Centric care, while also providing direct patient care and student/faculty oversight and mentoring for Veteran Centric preventative health and wellness care—across acute, episodic, chronic and end of life care for Veterans.
- ◆ Responsible for recruiting and creating a cohesive and diverse Veteran Centric faculty and Veteran Centric administrative team who focus on serving Veterans, supporting diversity, and a commitment social justice and a strong sense of unity to optimize Veterans' patient outcomes.
- ◆ Direct responsibly for hiring, onboarding, mentorship and oversight for all Veteran Centric didactic, simulation, and direct patient care components of the VANAP/USF Nursing Program—Sacramento Campus.
- ◆ Complete responsibility for Veteran Centric curriculum development, curriculum congruency, and evidenced based course design and content VANAP/USF Nursing Program—Sacramento Campus.
- ◆ Encourage and demonstrate caring and service to Veterans, while fostering, promoting and demonstrating embracing diversity, while focusing on the ethical principles of equity and social justice for Veterans.
- ◆ Create and support a diverse student population (including Veterans) and a faculty (including Veterans) that is reflective and sensitive to serve those we serve—and especially the underserved and marginalized Veterans in need.
- ◆ Encourage faculty and students to become lifelong learners and examples in their field through demonstrating passion and a commitment to excellence, ethics, embracing diversity in service to Veterans and always demonstrating professionalism when interacting with our Veterans.
- ◆ Actively and passionately engage in service and research that promotes the wellbeing of marginalized and underserved Veterans.
- ◆ Apply the principles of evidence-based practice, patient centered care, quality care, and attention to detail in protocols and guidelines in a wide variety of settings (e.g., VA Northern California Health Care System, San Francisco General Hospital, Kaiser, UCSF, USF, and multiple other large health care systems).
- ◆ Demonstrate through action to create an environment the embraces, creates, and encourages a philosophy that our primary purpose among faculty and students is to serve those Veterans

with the greatest need.

- ◆ Continued service for the Groups/Committees:
 - In 2019-2020-Faculty Advisor: Sacramento Nursing Student Association (USF Student Group)
 - In 2019-2020-USF Faculty Lead: PBNR Accreditation and Faculty Mentor
 - In 2019-2020-Charter—USF Diversion, Equity, and Inclusion Committee

2013 to Present	MEDXM Santa Ana, California	Nurse Practitioner & RN-Provider
-----------------	---------------------------------------	---

- ◆ As a **Bi-Lingual** (Intermediate Medical Spanish) Family Nurse Practitioner with dual national certifications (NP-C & FNP-BC) and an RN responsible for performing duties independently within the scope and limitations of licensure.
- ◆ Responsible for ensuring the delivery of exemplary service for multiple agencies under the affordable care act (e.g. Aetna, BCBS, Healthnet, etc.).
- ◆ Provide high quality comprehensive primary care to patients including taking histories, performing physical examinations, ordering laboratory tests, diagnosing and determining/providing or referring for appropriate treatment for common and complicated illnesses and injuries at both the NP and RN level.
- ◆ Supervisory experience in reviewing prescribed medications and referring for medications to be dispensed.
- ◆ Provide timely and efficient patient flow, support of medical staff, scheduling staff, interpreters, and autonomously coordinate patient care with multiple providers and entities.
- ◆ Oversight and coordination of referrals and independent implementation of health education programming.

2013 to 2016	KAPLAN NCLEX Preparation San Francisco, California	Professor of Nursing
--------------	--	-----------------------------

- ◆ Provide excellent presentation & communication skills.
- ◆ Exemplify a proven ability to motivate and engage others.
- ◆ Demonstrate a passion to teach clinical judgment and NCLEX success strategies among diverse and dynamic populations to amplify student achievement on national licensure exam.

2006 to 2012

Colorado Community College Professor of Nursing
Westminster, Colorado

- ◆ As a non-probationary (equivalent to tenure at the Community College level) nursing instructor, I was as lead faculty for two course and thus responsible for curriculum development, clinical instruction, lab instruction, and traditional didactic content and delivery.
- ◆ Responsible as clinical instructor for all care within scope of practice for all patient interactions and provision of care including skilled nursing care, applying evidence-based, patient centered care, and quality care reflective of federal government and VA, Kaiser, and multiple other agency guidelines protocols. Also responsible for oversight of RN students for all assigned skilled nursing care and patient interactions including applying evidence based, patient centered care, and quality care reflective in medical surgical nursing, obstetrics, and pediatrics.
- ◆ Worked as the lead faculty mentor/leader for high fidelity simulation integration; responsible for high fidelity simulation integration for all courses throughout the nursing curriculum.
- ◆ Responsible for program and curriculum development, evaluation, and course management for all assigned courses.
- ◆ Worked as Faculty Advisor for student government on the Front Range Community College-Westminster Campus and served other departmental, school, and college wide committees.
- ◆ Worked as Faculty Advisor for student Study Abroad for Health Professions Club.
- ◆ With advanced education focusing on health issues across the life span, worked as a mentor and instructor teaching Medical Surgical Nursing I and II, Fundamentals of Nursing, Pharmacology, Pediatrics, Obstetrics, and beyond through simulation and clinical experiences.
- ◆ Instrumental in our full accreditation by the NLNAC, Spring of 2011.

1999 to 2003

Doyle Occupational Health Director of Services
Nashville, Tennessee

- ◆ Directly responsible for coordinating and providing the direct patient care for all health screenings and follow up visits; including drawing blood, giving vaccinations, patient History and Physicals, attaining vital signs, answering health related questions, etc.
- ◆ Hired, trained, motivated, and managed health care and support staff, which included PAs, APRNs, RNs, Phlebotomists, and CNAs, etc.

- ◆ Developed, created, and directed wellness programs; offered position of part owner within two years as a result of our success.
- ◆ Through dedication, perseverance, and use of experience, developed, implemented, and achieved short and long range strategic objectives to grow business by 300% in two years.

1996 to 1999

MI Home Products, Inc.
Gratz, Pennsylvania

Director of International Development

- ◆ Complete international development, operations, and management responsibilities, reporting directly to COO and owner of .5 billion-dollar company.
- ◆ Created independently a distributor network throughout Europe, increasing our product distribution by 2000%;
- ◆ Responsibility for all international strategic planning for business development, marketing, sales, and long-term feasibility and structure and all management decisions including office management, budget management, report generation, and report editing.
- ◆ Responsible for website management, network drive management, application management, reports editing, and report generation
- ◆ Directly responsible for developing and managing the strategic implementation of productivity improvements, controls, and processes company wide, including production planning and forecasting module, standardized production data system, process controls (batching and eliminating bottle necks) and automating production.
- ◆ Networked in challenging international environment to create new products and innovative services to unite providers and create partners to support services throughout Europe.

1995 to 1996

United States Peace Corps
Budapest, Hungary

Volunteer

- ◆ Full responsibility for the creating and managing international network of NGOs to support similar initiatives in our region including extensive grant management skills.
- ◆ Developed contacts, worked with, directed, and created major impact statements for major multi-national organizations: USAID, UNIDO, ICMA, Hungarian Ministry of Economic Development, AT&T, Ford Europe, Shell, Mobile Oil, General Electric, Hungarian Ministry of Environment, Ghana Ministry of Economic Development, IFOR, EPA, Ghana Ministry of Environment, etc.
- ◆ Launched and jointly directed special small business development and environmental projects throughout South Eastern Hungary

- ◆ Implemented and taught strategic planning to major influential parties in the region; resulting in working groups which were sustained because of clearly outlined objectives, tasks, and thus desired results.
- ◆ Within the bounds of diverse cultural challenges, analyzed, outlined, assigned, and implemented tasks to very successfully achieve short and long term organizational objectives.
- ◆ Developed and managed marketing and PR projects at both a local and international level.
- ◆ The primary NGO for which I worked received the *International Sustained Development Award, Hungary*; presented by Nelson Mandela.

STATEMENT OF ACHEIVEMENTS

Research

My PhD research focuses on serving the populations of the world that combined--are often referred to the "bottom billion". The populations that make up this "bottom billion" are often the most marginalized, underserved populations concentrated in Asia, South America, and Africa. In advancing my commitment serving those with the greatest need, the nursing profession and the international community—my specific area of interest for research began in 2006-2007 when I had the opportunity to work with the United Nations Higher Commission of Refugees in Addis Ababa, Ethiopia. Working with medical faculty from Penn State University and local implementing partners we received funding to conduct the preliminary foundations for a study to evaluate the role of survey-based methods and exposure monitoring to carbon monoxide as health assessment tools for women (and children) exposed to smoke from biomass cooking fuels.

In Ethiopia in 2007 with local implementing partners the team successfully carried out the implementation of the preliminary efforts. As part of my continued commitment to nursing education and to improving the lives of the underserved I took this opportunity to teach local refugee student nurses to become community health workers focusing on primary and urgent care, obstetrics, and pediatrics. I helped develop partnerships with local colleges and NGOs to teach these refugee nurses, and these nurses went on to serve in their own severely underserved refugee community.

Based on this experience and my continued exploratory research I recently published with co-authors an article in the Journal of Community Health Nursing (November, 2012). This manuscript serves to increase nurses' awareness of the impact of household air pollution from cooking fires on women and children's health outcomes. The article promotes the need for nurses to act in key roles to develop and support research that focuses on this global healthcare priority, which was the 4th (now the 7th) largest health risk factor contributing to disease and death in the world. I am honored to have received the following awards and opportunities to present while pursuing my PhD research at UCSF:

- 1) 2014-Sigma Theta Tau, Alpha Eta Chapter Research Award (UCSF);
- 2) 2014-Llewellyn Research Award-Center for Occupational and Environmental Health (UC-Berkeley);
- 3) 2015-Presenter Sigma Theta Tau 26th International Nursing Research Congress;

- 4) 2018-Poster Presenter Society for Research On Nicotine and Tobacco (SRNT) 24th Annual Meeting.

Education

As I pursued my PhD in nursing I continued to be an extremely passionate nursing professor and family nurse practitioner, always focusing on serving those in need. This dedication to improve the lives of diverse underserved populations is what motivated me to further my education to become a nurse, a nursing professor, and Advanced Practice Registered Nurse, and now a doctoral-prepared nurse. Early in my pursuit of higher education I was honored to become a Friend of Nursing Scholar, and to receive an Academic Excellence Award along with induction into Sigma Theta Tau International Honor Society of Nursing from the University of Colorado – Anschutz Medical Campus. I was also honored to be chosen as the honorary speaker to represent my graduating class for the Master's of Nursing Program, University of Colorado – Anschutz Medical Campus May 2010 Commencement Ceremony. I am honored to have received the UCSF Graduate Dean's Health Sciences Fellowship in both 2012-2013 and 2014-2015.

Service

I have a passion to serve in demanding underserved populations. As a United States Peace Corps Volunteer in Hungary, I found this to be one of the most rewarding times in my life. I believe this experience as a United States Peace Corps Volunteer promoted a growth and understanding of human nature, compassion, and commitment like no other experience could. I found that no matter how much I tried to give, the rewards of giving were far greater. Today I still continue to expand my ability to give spiritually, mentally, and physically to students and disadvantaged patients and make the most out of every encounter to improve myself and others.

In the summer of 2010, I was the project leader for a United Nations pilot project, and served two months in the Dominican Republic leading a health education program with college student volunteers. In late 2010 I developed with a sister campus a service learning nursing course and in Summer 2011 lead health profession students and active health professionals to Belize to serve the underserved. In the fall of 2011 I founded my own not-for-profit organization, help2serve.care, to help connect health profession students and new health profession graduates with international service opportunities to facilitate their passion for serving others. In the summer of 2012 I led another group of health profession students, new graduates, and practicing professionals to Nicaragua to serve those in need. In the summer of 2013 I volunteered again to be part of another international effort in Ethiopia, assisting local nurses and UCSF graduate students to better serve in international environments as community health workers focusing on primary and urgent care, obstetrics, and pediatrics, this work was also part of my preliminary PhD dissertation work.

Locally I also directly served the underserved while working in Edwards, Colorado in the Eagle Care Clinic, an indigent care clinic. This patient population has no insurance and represents the homeless population, the migrant and immigrant population, the mentally challenged, and the psychiatric population in the area. From one visit I was speaking Spanish to an expecting teenage mother and in the next visit helping a young homeless gentleman living in his car with his mentally challenged wife. Now local in San Francisco, I participated actively to address diversity and retention issues within the UCSF nursing program and work with local underserved to improve access to health care, and generally on a daily basis work to improve the lives of the underserved.

I believe beyond my day to day commitment as a Co-Director and Faculty, I am also pleased to have

created the foundation for an Ethiopian immersion course for USF health profession students. This effort took more than a year to develop and its development was approved under the guidance of the USF nursing expertise. As a result of this year long effort it is my intention to present to the curriculum committee and beyond within the next month an immersion curriculum to lead USF students to Ethiopia in late summer 2015. This experience focused on serving the health needs of the underserved during an approximate three-week immersion experience in Southern, rural Ethiopia. For this opportunity to serve others I again thank USF for their dedication to the underserved. I hope this, along with all my other efforts, is demonstrative of my long-term commitment to make a difference, serve the underserved and marginalized.

NURSING HONORS AND AWARDS:

2006-Academic Excellence Award

PUBLICATIONS/PRESENTATIONS

Speaks, J. T., Thomas, E. C., & Thompson, L. M. (November, 2012). Household air pollution from cooking fires: A challenge for nurses globally and a call to action. *Journal of Community Health Nursing*, 29, 236–244. doi: 10.1080/07370016.2012.726837

Abstract:

The global burden of disease from exposure to household air pollution related to cooking fires is ranked as the 6th leading cause of death, primarily impacting poor women and children in low-income countries. Globally, smoke exposure from household air pollution is attributed to approximately 1/3 of chronic obstructive pulmonary deaths, 1/4 of pneumonia deaths, and 3% of lung cancer deaths. Nurses are increasingly working in global health arenas but are typically ill-prepared to address this complex environmental health problem. Nurses can play a key role in education, practice, and research to develop and support interventions, both in the United States and abroad, which may reduce this substantial burden of disease.

LAST NAME: Spears

MADD CALIFORNIA VIP REFERRAL/PROOF OF COMPLETION

Register at www.madd.org/sacramentovip

Or call 800-426-6233 - 24 hours a day/7 days a week

Defendant Name (Last, First, MI): Spears, Jason TCourt Case #: 18MC022316Driver's License #: U5009249County, State of DUI: Sacramento CAMailing Address: Malcolm Dixon RdCity: El Dorado HillsST: 1191Zip: 95762

Telephone: _____

The Mothers Against Drunk Driving (MADD) Victim Impact Panel (VIP) session has been mandated by the Court or County as an Additional County Requirement. All County participants that enroll, transfer-in, or are reinstated shall comply with this requirement.

1. A MADD-VIP referral form and a MADD VIP class schedule for these meetings has been provided at the intake interview appointment. DUI Participants are responsible for scheduling the VIP session and/or rescheduling a missed session. Any questions, concerns, or disputes regarding the VIP session attendance, completion, or payment should be directed to the client's local MADD office.
2. The fee is \$25.00 payable to MADD. The client can pre-pay and register online for the meeting by visiting www.madd.org/sacramentovip. If client chooses not to pre-pay by credit card when registering, they must bring payment to the scheduled meeting. Money order is the only form of payment accepted on site. There will be a \$10.00 fee to re-schedule a missed session without a 48-hour prior cancellation notice. There is a \$10.00 fee for a replacement of lost proof of completion forms. For Clients on General Assistance with proof (General Assistance Award Letter) the session fee is reduced to \$10.00. Pre-registration is strongly encouraged as walk-in's are not guaranteed a space. Contact your local MADD office with questions.
3. Your sobriety during this panel is **MANDATORY**. No one will be admitted after the program starts. You are required to sign-in prior to the start of the program and again upon completion. You will not receive credit for attending if you fail to sign-in and sign-out of the program.

VIP PANEL AGREEMENT

I UNDERSTAND THAT, IN ADDITION TO THE ABOVE, I AM REQUIRED TO ATTEND THE MADD VICTIM IMPACT PANEL PRESENTATION AND PAY THE REQUIRED FEE. I MAY BE REQUIRED TO SUBMIT PROOF OF ATTENDANCE TO THE COURT, DUI PROGRAM PROVIDER, AND/OR OTHER AGENCIES AS REQUIRED.

I UNDERSTAND THAT BEING UNDER THE INFLUENCE OF ALCOHOL OR DRUGS, OR BOTH, IMPAIRS MY ABILITY TO SAFELY OPERATE A MOTOR VEHICLE. I UNDERSTAND THAT IT IS EXTREMELY DANGEROUS TO HUMAN LIFE TO DRIVE WHILE UNDER THE INFLUENCE OF ALCOHOL OR DRUGS, OR BOTH. I UNDERSTAND THAT IF I CONTINUE TO DRIVE WHILE UNDER THE INFLUENCE OF ALCOHOL OR DRUGS, OR BOTH, AND AS A RESULT OF MY DRIVING, SOMEONE IS KILLED, I CAN BE CHARGED WITH MURDER.

THS ADDICTION CONSULTATION for Jason Thomas Speaks 11/4/019

To Whom It May Concern:

I, Mark F. Towns M.D FASM, am a physician who is licensed in the state of California (Med License # A100676). I actively practice Addiction Medicine and Internal medicine and I am board certified in both specialties. For over 10 years, I have devoted more than 75% of my working time to my practice of Addiction Medicine and Internal Medicine. I have been the CEO and Program Director for Towns Health Services Inc. (THS), for over 10 years as well. I am an Addiction Fellow in the American Society of Addiction Medicine (FASM).

In my role as administrator for THS, I deal with employee behavioral issues regularly. I am in charge of the THS Credentialing, Peer Review, Quality Review, and Utilization committees. I am also the Medical Review Officer for drug testing at all of the THS facilities and Hayes Chiropractic Services.

I have been asked to evaluate **Jason Thomas Speaks**, and to conduct a full independent addiction consultation and assessment of him to assess him for dependence on drugs or alcohol that might reasonably affect the safe practice of nursing or nurse practitioner.

I hold a valid unrestricted California medical license, which includes scope of practice to conduct a clinical diagnostic evaluation. I have at least 3 years of experience in providing addiction evaluations of health professionals with substance abuse disorders or issues, and, I have been approved by the Board of Registered Nursing to conduct my examinations and evaluations of healthcare professionals which will include **Jason Thomas Speaks**, who is a registered nurse and certified nurse practitioner.

I have received a copy of and have reviewed the **Accusation Against Jason Thomas Speaks Case No 2020-163**, thoroughly.

Jason Thomas Speaks was thoroughly examined by me **11/04/2019**.

The goal of this examination was also to determine if **Mr. Speaks** is able to practice safely as a nurse and or nurse practitioner. His evaluation included a **Substance Abuse Assessment**, which included a complete **Physical Health Examination**, and **Mental Health Examination**.

Jason Thomas Speaks Registered Nurse License Number 824970, Nurse Practitioner Certificate No. 22258

This is a 49-year-old male with a medical history of pulmonary embolism, Factor V Leiden, and GAD, who presented for a comprehensive addiction evaluation. He received his Registered Nursing License on July 20, 2012. On or about August 16, 2012, the California Board of Registered Nursing issued his Nurse Practitioner certificate.

At the beginning of the interview a **CURES report** was pulled and it was negative.

He did not smell of alcohol and his 12-panel urine drug test was negative. His alcohol breathalyzer test was negative. Confirmatory testing was sent and the results were negative. He received a copy of the definition of a standard drink prior to the interview and the definitions were discussed with him.

We also reviewed **the job description for a nurse and nurse practitioner** with him which included:

Nurse Job Description:

- Identifies patient care requirements by establishing personal rapport with potential and actual patients and other persons in a position to understand care requirements.
- Formulates a nursing diagnosis through observation of the patient's physical condition and behavior, and thorough interpretation of information obtained from the patient and others, including the health team.
- Formulates a care plan, and collaboration with the patient, which ensures that direct and indirect nursing care services provided for the patient safety, comfort, hygiene, and protection, and for disease prevention and restorative measures.
- Performs skills essential to the kind of nursing action to be taking, explains the health treatment to the patient and family and teaches the client and family how to care for the patient health needs.
- Delegates tasks to subordinates based on the legal scope of practice of the subordinates and on the preparation and capability needed in the task to be delegated, and affectively supervises nursing care being given by subordinates.
- Evaluates the effectiveness of the care plan through observation of the patient's physical condition and behavior, signs and symptoms of illness, and reactions to treatment and through communication with the client in health team members, and modifies the plans as needed.
- Acts as the patient's advocate, as circumstances require, by initiating action to improve healthcare or to change decisions or activities which are against interest or wishes of the client, and by giving the client the opportunity to make informed decisions about healthcare before it is provided.

- Establishes a compassionate environment by providing emotional, psychological, and spiritual support to patients, friends, and families.
- Promotes the patient's independence by establishing patient care goals; teaching patient, friends, and family to understand condition, medications, and self-care skills; answering questions.
- Assuring quality of care by adhering to therapeutic standards; measuring health outcomes against patient care goals and standards; making or recommending necessary adjustments; following hospital and nursing division's philosophies and standards of care set by state board of nursing, state nurse practice act, and other governing agency regulations.
- Resolving patient problems and needs by utilizing multidisciplinary team strategies.
- Maintaining safe and clean working environment by complying with procedures, rules, and regulations; calling for assistance from health care support personnel.
- Protecting patients and employees by adhering to infection-control policies and protocols, medication administration and storage procedures, and controlled substance regulations.

Nurse Practitioner Job Description:

According to the American Association of Nurse Practitioners (AANP), nurse practitioners provide high-quality primary, acute, and specialty care health services across the lifespan and in diverse settings. Although an NP's job description would differ slightly based on the population they serve and the setting in which they work, all NPs have a number of things in common:

- NPs are licensed, independent practitioners that practice in ambulatory, acute, and long-term care settings as primary and/or specialty care providers.
- NPs may work autonomously or in coordination with other healthcare professionals.
- All NPs possess advanced clinical training and competency to provide care beyond the scope of registered nurses.
- All NPs possess a graduate education, possessing a Master of Science in Nursing (MSN) or higher.
- NPs diagnose, treat, and manage acute and chronic illnesses.

Health Care Services

- NPs focus on health promotion, disease prevention, and health education and counseling.
- NPs order, conduct, supervise, and interpret diagnostic and laboratory tests.
- NPs prescribe pharmacological agents and non-pharmacologic therapies.
- NPs help patients make better lifestyle and health choices.
- NPs also often serve as healthcare researchers, consultants, and patient advocates.

According to a 2012 National Survey of Nurse Practitioners conducted by the Health Resources and Services Administration (HRSA) Bureau of Health Professions National Center for Health Workforce Analysis, nurse practitioners reported that they were “most likely” to perform the following direct patient care services:

- Counsel and educate patients and families: 85.6 percent
- Conduct physical examinations and obtain medical histories: 83.9 percent
- Prescribe drugs for acute and chronic illnesses: 80.4 percent
- Order, perform, and interpret lab tests, x-rays, EKGs, and other diagnostic studies: 75.4 percent
- Diagnose, treat, and manage acute illnesses: 68.3 percent
- Diagnose, treat, and manage chronic illnesses: 60.9 percent
- Provide preventive care, including screening and immunizations: 55 percent
- Provide care coordination: 53.3 percent
- Make referrals: 46.1 percent
- Perform procedures: 26.2 percent

Standards of Practice for Nurse Practitioners

The American Association of Nurse Practitioners' (AANP) describes the standards of practice for nurse practitioners as encompassing these processes, priorities and responsibilities:

Process of Care: Nurse Practitioners use the scientific process and national standards of care as a framework for managing patient care. This includes:

- Making an assessment of a patient's health status
- Making a diagnosis
- Developing a treatment plan
- Implementing a plan that is consistent with the appropriate plan of care
- Following up and evaluating the patient's status

Care Priorities: Nurse practitioners follow an established practice model, which emphasizes:

- Facilitating a patient's entrance into the healthcare system
- Patient and family education
- The facilitation of patient participation in self-care
- The promotion of optimal health
- Continuity of competent care
- Promoting a safe environment

Interdisciplinary and Collaborative Responsibilities: Nurse practitioners participate as a team leader and member of the healthcare/medical team.

Accurate Documentation of Patient Status and Care: Nurse practitioners maintain accurate, legible, and confidential records.

Responsibility as a Patient Advocate: Nurse practitioners act as advocates of health policies that benefit communities and individuals at the local, state, national, and international levels

Quality Assurance and Continued Competence: Nurse practitioners participate in continued learning throughout their career as it pertains to evolving standards, their particular patient population and specialty niche, ethics and pharmacotherapeutics.

Adjunct Roles of Nurse Practitioners: Nurse practitioners serve as mentors, healthcare providers, researchers, managers, and consultants.

Research as Basis for Practice: Nurse practitioners support research that supports evidence based practice specific to their patient population focus, as well as in the areas of pharmacology, disease prevention, epidemiology, medical technology and more.

Doyle Occupational Health Director of Services, Nashville Tennessee
1999-2003

United States Peace Corps Volunteer Budapest Hungary
1995-1996

Educational History

1994: **B.A Environmental Science/Pre-Medicine**, at California State University, San Bernardino, CA

2006, **B.S.N, Colorado State University Nursing Program**, Pueblo Colorado

2010 **M.S. Nursing: Family Nurse**, University of Colorado Practitioner, Denver Colorado.

2018; **PhD Nursing. University of California San Francisco**, San Francisco California

He had his had his first drink at the age of 16 years old. He has no PMH of drug use. He has no cravings for alcohol or history of violent or sociopathic behavior.

In high school he drank 1 time per month perhaps 3 beers on occasion. Thereafter, after high school, while in college, he would drink roughly 1 time per week drinking 3-4 beers per sitting.

He received a DUI, at the age of 31years old, on 04/22/2002. He had been out drinking with friends and had driven home after dinking. Then, at the age of 33 years old, he received another DUI September 2003. He had been in an unhealthy relationship and had driven after drinking heavily secondary to that bad relationship.

After this, he would only drink 1-3 beers one time per 1-2 months. This drinking pattern continued until he became 47 years of age in 2017 when he had his son. He stopped drinking altogether because he wanted to be a good role model for him.

Then, on or around November 1 2018, after successfully obtaining his PhD from UCSF, his dean visited his school and Mr. Speaks went out to celebrate his accomplishment and he had 3 beers. He was driving home and he was tired so he pulled over off of the road and was sleeping in his vehicle. The police arrived to check on him and he was found to have a blood alcohol level of 0.9. He was subsequently convicted of a wet and reckless violation. He subsequently completed DUI education and counseling courses. He has quit drinking altogether since that incident.

He recently received an Accusation from the Board of Registered Nursing.

He has no family history of alcoholism or substance abuse. He has never done any illicit drugs. He denies having any cravings for alcohol. He has had no depressed mood or suicidal or homicidal ideation or psychiatric problems.

His story is consistent with the events outlined in the Accusation **Case No. 2020-163**. He has been charged with violation of **Business and Professions Code (Code) 2761 (a and f) and 2762 (b and c)**. He is also subject to **Code 490 (a, b, c, and d) and 125.3**.

The Accusation also made note of the following important information: **Causes for Discipline:**

-Conviction of a crime

-Dangerous Use of Alcohol

-Conviction regarding the Consumption of Alcohol

-Matters in Aggravation (on April 14, 2014) Code 498 secured license by fraud, deceit, or knowing misrepresentation of a material fact. In addition, violation of Business and Professions code 2761 (e) making or giving false statements or information in connection with the application for the issuance of a certification or license.

Methods:

His **CURES** report was obtained upon arrival.

His **CURES** report was reviewed, and, it was negative. He did not smell of alcohol and his 12- panel urine drug screen and alcohol saliva test were negative. Confirmatory testing was sent and it was negative. He did not appear to be intoxicated or under the influence of drugs.

Scoring for the Simple Screening Instrument for Substance Abuse was administered to the patient and his total score was 1 which confers minimal to no risk for substance use disorder.

Psychiatric screening including a full mental status exam and Psychiatric Assessment Form with Folstein's Mini-Mental Status exam were performed, and both were unremarkable. Psychiatric Addiction Screening Questions were unremarkable. The State of California health questionnaire was completed and reviewed and he had a full history and physical. They were unremarkable.

Alcoholism risk factors were assessed using the Adverse Childhood Experiences (ACE). His score was 0. T-ACE Screening tool was unremarkable with a score of 0. Being a male confers a 17% lifetime chance of meeting criteria for alcohol dependence. The DSMV Alcohol Use Disorder Criteria Checklist was negative.

Corroboration:

Consent for release of confidential information to contact three persons was obtained:

I called **Mrs. Krista Speaks**, his sister, on **11/10/19**. She answered all of the addiction consultation phone interview questions with no concerns. She reported that Mr. Speaks was a very kind, considerate, and good person. He thinks of others and loves his work. He is compassionate with others. She has no concerns about him.

I then contacted his aunt, **Mrs. Nancy Melander**, on **11/13/19**. She answered all of the extensive addiction consultation phone interview questions with no concerns. She thinks that Mr. Speaks is a great guy. She has spent a lot of time with him at various social gatherings and she has never seen him intoxicated. He does not drink much at all. He is on a big health kick right now.

I called **Mr. Ryan Melander**, Mr. Speak's cousin, on **11/14/19**. He, too answered all of the addiction consultation phone interview questions with no concerns. He is impressed with Mr. Speaks. He feels that Mr. Speaks can stop drinking at will and has had no history of violent or sociopathic behavior. He has made positive life changes by investing in his health.

Review of Reference Letters of Support:

I reviewed the impressive letter from **Mario R. Frias MSN, RN, CNL** written on May 6, 2019. He has worked with Mr. Speaks over the past 3 years. He reports that Mr. Speaks has owned his mistakes and is a diligent, organized, trustworthy, and responsible person. He is not a threat to the public and he has

not shown any erratic, impulsive behavior, or poor or unsafe judgement. He is an invaluable asset to the nursing community.

I also reviewed the excellent letter of support from **Carol-Dawson-Rose, RN, MS, PhD, and FAAN** from the UCSF School of Nursing, written on 5/10/2019. She has known Mr. Speaks for the past 5 years. She reported that Mr. Speaks has never demonstrated any actions or behaviors consistent with alcohol use or abuse. He has always demonstrated the highest levels of ethical and professional behavior.

Methods:

Examination Methods: Review of the **Accusation Against Jason Thomas Speaks Case No 2020-163, and the Statement to the Respondent** thoroughly. In addition, his **CURES search Summary and 12-panel POC Urine drug testing**, (which was sent for confirmatory testing) were both appropriate. Comprehensive confirmatory testing was also appropriate. His **alcohol breathalyzer test** was negative. For the **interview and historical information**; information was gathered from the patient, **Physical examination and History; Psychiatric Assessment Form; Brief psychiatric rating scale; Folstein's MMSE, THS simple screening instrument for substance abuse self-administered: CRAFT/adverse childhood experience (ACE) risk factors** for alcoholism and/or substance abuse questionnaire were administered. The **State of California Health questionnaire; DSM V alcohol Use Disorder Checklist; and corroborative phone calls** were also used. To assess the current mental health status of **Accusation Against Jason Thomas Speaks Case No 2020-163, and the Statement to the Respondent** thoroughly.

We have conducted: a **psychiatric evaluation** which includes **screening questions, brief psychiatric rating scale, and simple screening instruments** along with a **complete Mental Status Exam, and physical exam**, as well as corroborative efforts.

We have reviewed the job description for a nurse and nurse practitioner
See above.

Summary and Recommendations:

After my full psychiatric, mental, and physical examination of **Mr. Speaks**, and subsequent thorough review of the information obtained in the examination methods, along with extensive corroborative efforts, substance use disorder, based on **DSM V criteria for Alcohol Use Disorder, Substance Use disorders have been ruled out.** Corroborative efforts verified that he has had no not met the criteria for Alcohol Use Disorder. He In addition, has had no social problems except for DUI in college on 04/22/2002, another DUI related to a bad relationship on September 4 2003. After a period of over 15 years, in November of 2018, after celebrating his accomplishment of getting a PhD, he received a Wet Reckless with a BAL of 0.9. He has no objective evidence of alcohol use disorder after thorough evaluation and corroboration. .

He is at low risk for the development of alcohol use disorder and does not satisfy the DSMV criteria for Alcohol Abuse Disorder.

In addition, based on my complete evaluation, he is mentally stable and he has no history of violent or sociopathic behavior.

Recommendations:

I recommend that he thoroughly review the pamphlet "**Rethinking your drinking**," published by the National Institute of Health. It thoroughly explains the limits on alcohol intake for males and at risk drinking limits. In addition, he is to not drink alcohol and drive under any circumstances. He can get and Uber or have a sober 3rd party drive for him, if he plans to drink at a party, or other celebratory occasion in the future. His prognosis is good and I will not be prescribing any medications for him. He is definitely capable of safely performing the functions of a registered nurse and nurse practitioner in a safe and competent manner and has been doing so.

Mental health examination requirements:

1. A statement confirming that Dr. Towns has reviewed the Board Accusation or Statement of Issues. Also include the examination date(s). I have reviewed the accusation or statement of issues thoroughly with the patient.
2. The patient was examined by me on **11/04/19**

- .The patient does **not** meet the criteria for a diagnosis of Alcohol Use Disorder per DSM-V criteria. See **DSM V Alcohol Use disorder checklist**.
3. A description of the **methods used in my examination** See above.
 4. The background and current mental health status of the nurse we have concluded from her psychiatric evaluation, screening questions, brief psychiatric rating scale, and simple screening instruments with physical exam, as well as corroborative efforts, **the mental health status of the nurse is normal**.
 5. We recommend no specific changes in the nurse's work environment and defer to the Nursing Board.
 6. The patient's prognosis is good.
 7. My opinion is that **Jason Speaks**, based on my extensive evaluation, can perform the functions of a registered nurse in a safe and competent manner.

Physical health examination requirements:

1. A statement confirming that you have reviewed the Board Decision or Stipulated Settlement and the Accusation me that incident with accusation or Statement of Issues. Also include the examination date(s).
I have reviewed the accusation or statement of issues thoroughly.
2. A description of the length of time you have cared for the probationary nurse and for what reasons.
I have cared for patient **Jason Speaks** for 3 hours on 1 visit which includes this particular evaluation on **11/04/2019**
3. A description of any symptom(s), condition(s) or disease(s) that may require treatment.: **None**
4. A description of any past or current use and/or abuse of any drugs including alcohol. **See history.**
5. A description of any medication(s) you have provided prescribed or will be prescribing: **None.**
6. Your **diagnosis, prognosis and treatment plan**, including any recommendations for substance abuse treatment, practice restrictions, or other recommendations related to the licensee's rehabilitation. Se
7. Your opinion as to the probationary nurse's capability to perform the functions of a registered nurse in a **safe and competent** manner.

After my full psychiatric, mental, and physical examination of Jason Speaks including extensive corroborative efforts, I believe that he is not

Towns Health Services Inc.

Health Care Services

dependent upon drugs or alcohol, or has had problems with drugs or alcohol that might reasonably affect the safe practice of nursing, **he can perform the functions of a registered nurse in a safe and competent matter.**

To the Examiner:

Your statement assuring the Board that you meet the criteria shown above in the "To the Examiner" paragraph.

I, Mark F Towns M.D., have reviewed and have met all of the criteria stated in the "to the examiner. "This includes holding a valid unrestricted California medical license, which includes scope of practice to conduct a clinical diagnostic evaluation. I have least 3 years of experience in providing evaluations of help professionals with substance abuse disorders/issue stated in the Board's decision, stipulated settlement, accusation and/or statement of issues. And I have been preapproved by the Board prior to conducting my examination.

Mark F Towns M.D.:

A handwritten signature in black ink, appearing to read "Mark F Towns" followed by a stylized "M.D." or similar initials.

Date:
