

State-Wide Integration

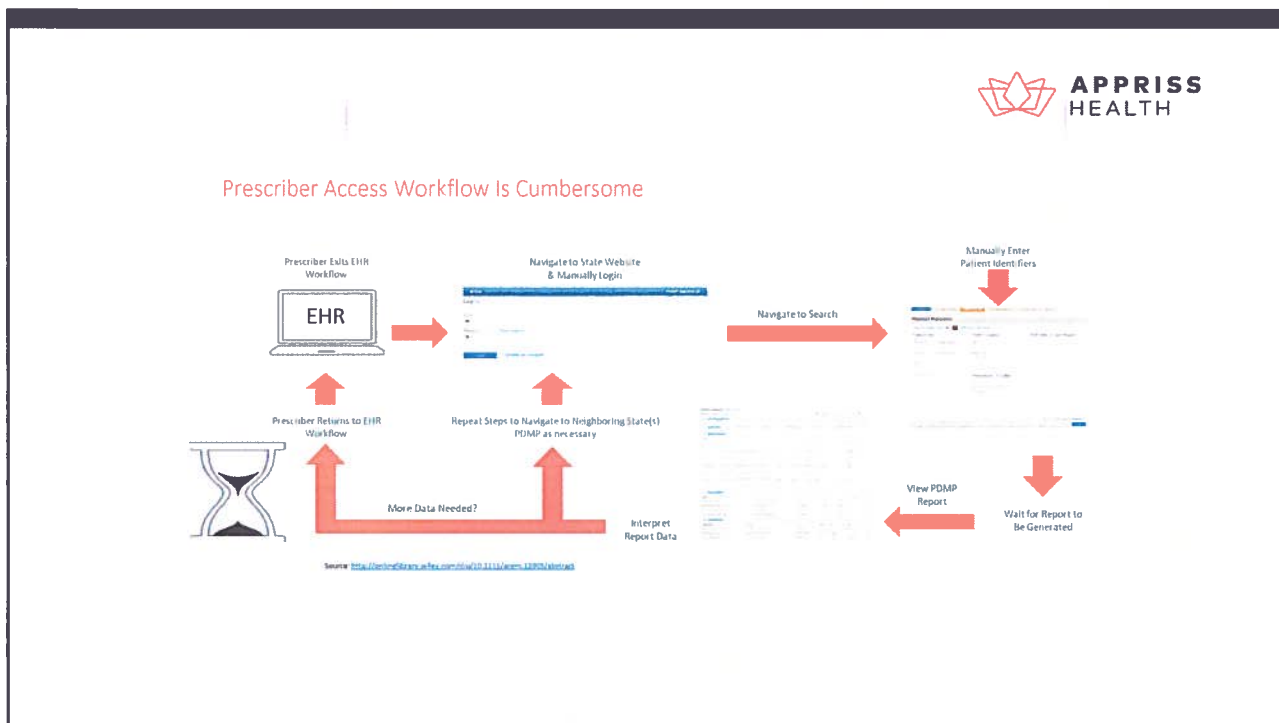

December 4, 2019

1

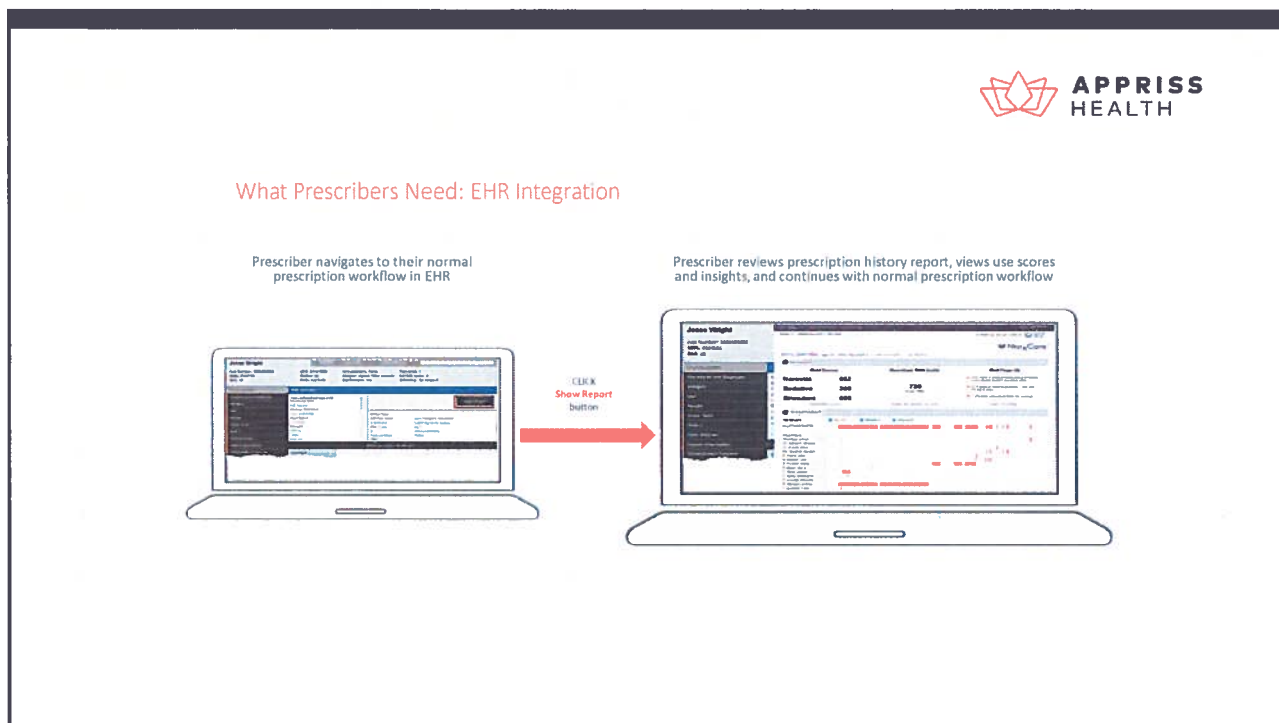

State-wide Integration

- State-wide integration launched Feb. 11, 2019 in partnership with DHHS.
- Integrates access to the PMP into each practitioner's/clinic's internal EMR system.
- PMP data will present as a tab within each practitioner's internal EMR system.
- Eliminates the need for separate log-ins.
- Goal is to make integration available to all Nevada practitioners but it is not mandatory to integrate the PMP into the EMR. Providers will still be able to sign into the PMP to review patient PMP reports.
