# INTRODUCTION

## NRS 639.060 BIENNIAL REPORT TO THE GOVERNOR

Before September 1 of each even-numbered year, for the biennium ending June 30 of that year, the Board shall report to the Governor upon the condition of pharmacy in the State of Nevada.

The report must contain:

1. A summary of the proceedings of the Board for the year.
2. The names of all pharmacists registered under this chapter.
3. A complete statement of all fees received.

The Board's focus is provided by NRS 639.070, which sets forth the general powers of the Board. The Board concentrates on four areas to enhance the practice of pharmacy and to protect the public: 1) proper credentialing, regulation, and inspection of licensees; 2) adoption of regulation as necessary to further legislative intent; 3) providing timely access to accurate information in Nevada's Prescription Monitoring Database; and 4) investigation of complaints filed with the Board on activities within the Board's jurisdiction.

## SUMMARY OF THE PROCEEDINGS OF THE BOARD

The Board has eight (8) regularly scheduled public meetings every year. Historically, the meetings were evenly split, alternating between the north (Reno) and the south (Las Vegas). In 2020, the Board made a change to its meeting schedule that will maintain the same number of meetings annually, however, the Board will meet 6 times in Las Vegas, and only 2 times in Reno per calendar year.

The Board held a total of sixteen (16) regular public meetings during the biennium, with one of those meetings being held telephonically due to the Covid-19 pandemic. In addition to its regularly scheduled meetings, the Board held one emergency public meeting during the biennium, which was in the month of March, 2020.

During the regular public meetings, 92 disciplinary cases were heard resulting in 19 license revocations, 5 of which were subsequently stayed; 1 license cancellation; 3 license suspensions, 2 of which were subsequently stayed; 12 licenses surrendered; 5 licenses placed on probation; 16 people were required to complete additional continuing education courses; and 22 licensees

were given a letter of reprimand. Of the 92 disciplinary cases, 26 cases were stipulated and 2 were dismissed; 57 parties (some cases included more than one licensee) were ordered to pay fines totaling \$125,000, which are paid into the State's general fund; while 58 parties were ordered to partially reimburse the Board for its costs associated with the case. Fifteen (15) licensees were subject to show cause. Two-hundred and forty-four (244) appearances for licensure were held with 192 licenses approved, 11 licenses denied, 1 license surrendered, and 40 tabled or withdrawn applications for licensure. Additionally, the Board approved 786 licenses without an in-person appearance.

During the biennium ending June 30, 2020, the Board held a total of twenty-seven (27) public workshops and nine (9) public hearings on the Intent to act upon a regulation. Two of the public hearings were held by telephone, one of which being an emergency meeting to act upon an emergency regulation as it related to the prescribing and dispensing of hydroxychloroquine in response to COVID-19. The aforementioned hearings resulted in the adoption or modification of eighteen (18) regulations.

Public workshops and public hearings are noticed pursuant to NRS 233B.061, and provide the public an opportunity for input on proposed regulation(s) both orally or in writing. While the addition of new regulation is often a result of legislative changes to NRS requiring the Board to adopt new regulations, modification of existing regulation oftentimes begin when a licensee requests a regulatory change. The later usually results in a discussion and determination by the Board to decide if a regulatory change might be necessary, and generally provides an opportunity for public comment even before the regulatory change process commences.

At each meeting, the previous meeting minutes were approved, sometimes with modification(s), and there was an opportunity for public comment at beginning and end of each meeting day pursuant to NRS 241.020.

## THE NAMES OF ALL PHARMACISTS REGISTERED

At the conclusion of this biennium, the Board had a total of seven-thousand, six-hundred, and eighty (7,680) pharmacists registered pursuant to chapter NRS 639. See **attachment 01** for a full list of registered pharmacists.

## A COMPLETE STATEMENT OF ALL FEES RECEIVED

The Board receives no State general fund money. Revenue is primarily from licensing, certification, and registration fees. The Board does receive money from grants that offset some of the costs of administering various programs, such as the Prescription Drug Monitoring Program (PMP). See below for a list of all fees received by the Board for each fiscal year of this biennium.

The Board's revenue is on a 2-year cycle, with each even-numbered year during the cycle having a larger revenue than the odd-numbered year. This is the result of the number and type of licensees that renew during the even versus the odd year. Pharmacists renew their license every 2 years on the odd-numbered year, while all other licensees renew their license on the even-numbered year. In comparison, registered pharmacists totaled 7860 at the end of the biennium, whereas all other licensees totaled 26,625.

### JULY 01, 2018 – JUNE 30, 2019

CREDIT CARD PROCESSING FEE	99,907
CHANGE OF PHARMACY MANAGER APPLICATION FEE	5,850

LATE FEE	19,155
PAPER USE FEE	10,439
REGISTRATION FEE	756,145
RENEWAL FEE	1,410,759
<b>Total Income</b>	<b>2,291,607</b>

# **PRESCRIPTION CONTROLLED SUBSTANCE ABUSE PREVENTION TASK FORCE**

## **CONTROLLED SUBSTANCE ABUSE PREVENTION TASK FORCE**

Created in 1997, the Nevada Prescription Controlled Substance Abuse Prevention Task Force, now known as the Nevada Prescription Monitoring Program Advisory Board (PMP Advisory Board) is administered by the Nevada State Board of Pharmacy. The PMP Advisory Board consists of participants from SAPTA, NDI, healthcare licensing boards, Medicaid, professional organizations, pain management practitioners, impaired professional help groups and industry. The panel meets biennially to set policy and to discuss the operation of the PMP.

## **PRESCRIPTION MONITORING PROGRAM ENHANCEMENTS**

December 17, 2018 the PMP launched NARXCARE. NARXCARE aggregates and analyzes prescription information from providers and pharmacies and presents interactive, visual representations of that information, as well as advanced analytic insights, complex risk scores and more to help physicians, pharmacists and care teams to provide better patient safety and better patient outcomes. NarxCare is a tool and is not intended to replace a practitioner's professional judgement in making prescribing decisions.

State-wide integration launched February 11, 2019. Integrates access to the PMP into each practitioner's/clinic's internal electronic medical record (EMR) system. PMP data will present as a tab within each practitioner's internal EMR system which eliminates the need for separate log-ins. The goal is to make integration available to all Nevada practitioners but it is not mandatory to integrate the PMP into the EMR. Providers will still be able to sign into the PMP to review patient PMP reports.

In partnership with DHHS, OpenBeds will be launched late August 2020. OpenBeds is a platform that provides real-time treatment services availability, connection to social support services, evidence-based assessment tools, and therapy offerings. It acts as a conduit between practitioners and open beds at treatment centers, allowing the practitioner to see what open beds each facility has. If a practitioner and patient, through discussion, determine that the patient would benefit from entering into a treatment center, with the patient's consent, the doctor can send a referral to the treatment facility.

## LOOKING FORWARD

The Board will continue to scrutinize the minimum standards required to provide safe pharmaceutical care to the residents of Nevada.

The Board will continue to collaborate with law enforcement and other occupational licensing boards to take action against unlawful, unsafe and/or unlicensed activity.

The Board will adopt regulations as necessary to enhance the pharmaceutical care provided to the residents of Nevada.

The Board will adopt regulations as required by the Nevada Legislature and continue to promulgate regulations as the practice of pharmacy advances.
