Assistant General
Counsel

INTRODUCTION

NRS 639.060 BIENNIAL REPORT TO THE GOVERNOR

Before September 1 of each even-numbered year, for the biennium ending June 30 of that year, the Board shall report to the Governor upon the condition of pharmacy in the State of Nevada.

The report must contain:

1. A summary of the proceedings of the Board for the year.
2. The names of all pharmacists registered under this chapter.
3. A complete statement of all fees received.

The Board's focus is provided by NRS 639.070, which sets forth the general powers of the Board. The Board concentrates on four areas to enhance the practice of pharmacy and to protect the public: 1) proper credentialing, regulation, and inspection of licensees; 2) adoption of regulation as necessary to further legislative intent; 3) providing timely access to accurate information in Nevada's Prescription Monitoring Database; and 4) investigation of complaints filed with the Board on activities within the Board's jurisdiction.

SUMMARY OF THE PROCEEDINGS OF THE BOARD

The Board has eight (8) regularly scheduled public meetings every year. The Board held a total of sixteen (16) regular public meetings during the biennium, with seven (7) of those meetings being held only via phone or remote livestream due to the Covid-19 pandemic. The remainder of meetings were held by both remote livestream and personal appearance at a public location in Las Vegas. During the regular public meetings, disciplinary cases were heard as well as appearance and non-appearance requests for licensure.

During the biennium ending June 30, 2022, the Board noticed a total of twenty-five (25) public workshops and twenty-six (26) public hearings on the Intent to act upon a regulation. Public workshops and public hearings are noticed pursuant to NRS 233B.061, and provide the public an opportunity for input on proposed regulation(s) both orally and in writing. While the addition of new regulations are often a result of legislative changes to NRS requiring the Board to adopt new regulations, modification of existing regulation oftentimes begin when a licensee requests a regulatory change. The latter usually results in a discussion and determination by the

Board to decide if a regulatory change might be necessary, and generally provides an opportunity for public comment even before the regulatory change process commences.

At each meeting, the previous meeting minutes were approved, sometimes with modification(s), and there was an opportunity for public comment at the beginning and end of each meeting day pursuant to NRS 241.020.

THE NAMES OF ALL PHARMACISTS REGISTERED

At the conclusion of this biennium, the Board had a total of nine-thousand and twenty (9,020) pharmacists registered pursuant to chapter NRS 639. See **attachment 01** for a full list of registered pharmacists.

A COMPLETE STATEMENT OF ALL FEES RECEIVED

The Board receives no State general fund money. Revenue is primarily from licensing, certification, and registration fees. The Board does receive money from grants that offset some of the costs of administering various programs, such as the Prescription Drug Monitoring Program (PMP). See below for a list of all fees received by the Board for each fiscal year of this biennium.

The Board's revenue is on a 2-year cycle, with each even-numbered year during the cycle having a larger revenue than the odd-numbered year. This is the result of the number and type of licensees that renew during the even versus the odd year. Pharmacists renew their license every 2 years on the odd-numbered year, while all other licensees renew their license on the even-numbered year.

JULY 01, 2020 - JUNE 30, 2021

RENEWAL FEE	4,575,930.00
REGISTRATION FEE	881,389.00
RECOVERED COST	28,919.00

SUPPLEMENTAL INSPECTION FEE	750.00
INTEREST INCOME	5,751.00
LATE FEE	18,810.00
TOTAL INCOME	3,341,266.00

**PRESCRIPTION CONTROLLED SUBSTANCE ABUSE
PREVENTION TASK FORCE**

CONTROLLED SUBSTANCE ABUSE PREVENTION TASK FORCE

Created in 1997, the Nevada Prescription Controlled Substance Abuse Prevention Task Force, now known as the Nevada Prescription Monitoring Program Advisory Board (PMP Advisory Board) is administered by the Nevada State Board of Pharmacy. The PMP Advisory Board consists of participants from SAPTA, NDI, healthcare licensing boards, Medicaid, professional organizations, pain management practitioners, impaired professional help groups and industry. The Prescription Monitoring Program (PMP) is a database that contains information regarding controlled substances listed in Schedule II, III, IV and V that are dispensed to patients in Nevada.

PRESCRIPTION MONITORING PROGRAM ENHANCEMENTS

December 17, 2018, the PMP launched NARXCARE. NARXCARE aggregates and analyzes prescription information from providers and pharmacies and presents interactive, visual representations of that information, as well as advanced analytic insights, complex risk scores and more to help physicians, pharmacists, and care teams to provide better patient safety and better patient outcomes. NarxCare is a tool and is not intended to replace a practitioner's professional judgement in making prescribing decisions.

State-wide integration launched February 11, 2019, which allows practitioners to access a patient's PMP report within the practitioner's electronic medical record (EMR). PMP data is presented as a tab within the practitioner's EMR which eliminates the need for the practitioner to log into the PMP's web-based program. While it is not mandatory for practitioners to integrate the PMP into their EMR, the goal is to make integration available to all Nevada practitioners. Providers will still be able to sign into the PMP web-based program to review patient PMP reports.

LOOKING FORWARD

The Board will continue to scrutinize the minimum standards required to provide safe pharmaceutical care to the residents of Nevada.

The Board will continue to collaborate with law enforcement and other occupational licensing boards to take action against unlawful, unsafe and/or unlicensed activity.

The Board will adopt regulations as necessary to enhance the pharmaceutical care provided to the residents of Nevada.

The Board will adopt regulations as required by the Nevada Legislature and continue to promulgate regulations as the practice of pharmacy advances.

Nevada State Board of Pharmacy Registered Pharmacist Name List as of June 30, 2022
