NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 - Reno, NV 89521 - (775) 850-1440

Medical Gases, Equipment and Gases (MDEG) Inspection: Instruction Sheet and Form (Revised 10/2022)

The NVBOP's established self-assessment inspection process provides management the opportunity to review the standards by which the board inspects your operation. The process recognizes you as the responsible person to implement and review policies and procedures necessary to provide a quality standard of pharmaceutical services.

Please have the self-assessment form completed and available for review by the first day of the month listed on your inspection notice. An inspector will review the form with you and inspect your facility during the month listed on your inspection notice.

To minimize any disruption to your facility during the inspection process please have the following available:

- 1. Completed inspection form along with prior year inspection form
- 2. Documentation of training for non-clinical staff installing and giving instructions on respiratory equipment. Training shall be completed by a person who is acting within the authorized scope of their practice
- 3. Accreditation certificate(s)
- 4. Current liability insurance certificate
- 5. List of current employees including job functions/titles
- 6. License(s) for clinical staff members (RT, RN)
- 7. O2 analyzer calibration documentation (if applicable)
- 8. Equipment cleaning and/or repairing log (if applicable)

	Is the facility clean and maintained in an orderly manner?			
	Does the facility have a current MDEG registration with NVBOP?			
	Facility has restroom with sink containing hot and cold running water?			
	Does your company have an internet web site?			
	If yes, provide website:	_		
	Does your company provide any products that require a prescription via the web site?			

Records				
Citation	Question	Yes	No	NA
NAC 639.695	Are records kept on site at facility?			
	Are records kept for a minimum of 5 years?			
	Records are kept in a file, chart, or other storage system allowing the record to be retrieved			
	by reference to the name of the consumer, the name of the practitioner, the date the			
	product was provided, or the type of medical product?			
	Practitioner orders kept in an orderly and readily retrievable manner?			
NAC 639.6952	Records of communications with health professional including consumer's physical,			
	functional, and associated need and/or therapeutic or ameliorative objectives for equipment,			
	product, or service provided?			
	Records of consumer assessment including: safety of the equipment where the equipment			
	will be used, ability to comply with instructions, and ability to clean and maintain the			
NAC 639.6951	equipment or product? Records of consumer communications including: delineation of the commercially available			-
NAC 639.6951	choices, the set-up and use of the equipment or product, and the maintenance, servicing,			
	cleaning, and repair of the equipment or product?			
NAC 639.6946	Does the facility repair equipment on site?			
	If yes, please have a repair log available for review that identified the following:			
	Type of medical product			
	Manufacturer			
	Model or model number			
	Serial number			
	Date of repair			
	Specific repair made			
	Name of person who made the repair			
	Certification that repair brought medical product back to manufacturer's specification			
	If repairs are not done on site please list where they are sent:			
	in repairs are not done on site piedse list where they are sent.			
	Proof that calibration or testing equipment is accurate and maintained according to			
	manufacturer's directions and specifications?			

Citation	Question	Yes	No	NA
NRS 630.047	A person who installs medical equipment for respiratory care that is used in the home and			
(1)(K)	gives instructions regarding the use of that equipment if the person is trained to provide such			
	services and is supervised by a provider of health care who is acting within the authorized			
	scope of his or her practice is exempt from the statutes listed in NRS 630.			
NAC 639.6954	Stocking only medical grade gases?			igsquare
	Service records regarding all equipment?			
	Verification that equipment has been checked and is defect free before the equipment is dispensed?			
	Checking that equipment has not been modified in any way that would affect the effectiveness of the equipment?			
	Checking that the equipment does not present a fire or shock hazard?			
	Checking that the equipment has all warning labels and tags?			
	Records tracking all gases dispensed, including the lot numbers?			
	Records regarding recall of gases?			
	System to track and locate all gases and equipment dispensed?			
	Records of serial numbers and model numbers of all equipment dispensed?			
	Safety data sheets for solutions and products used in cleaning and disinfecting equipment?			
	Designated area for clean and dirty equipment with signs posted?			
	Designated area for quarantined equipment with signs posted?
