B. Sav-on Pharmacy #6060 (15-039-PH-S)

Noor Dudekula, pharmacist, and Liliana Bernardino, pharmaceutical technician, were sworn by President Basch prior to answering questions or offering testimony.

Amy Cotton-Peterson was present as counsel representing the Respondent.

Mr. Edwards explained that in June 2015, Board Staff received a complaint alleging that Sav-On dispensed another patient's medication to patient R.K. On March 25, 2015, R.K.'s

daughter picked up a refill of R.K.'s levothyroxine from Sav-On. On March 29, 2015, R.K. received a call from Sav-On that her medication was available for pick up. The call prompted R.K. to examine the medication bottle that was dispensed to her daughter on March 25, 2015. She observed another patient's name on the prescription label.

Mr. Edwards stated that R.K. went to Sav-On where Mr. Dudekula identified the medication as hydrochlorothiazide 12.5 mg. tablets instead of the levothyroxine 25 mcg. tablets as prescribed. Mr. Edwards added that pharmacy video surveillance footage shows Ms. Bernardino assisted R.K.'s daughter at the pharmacy out window on March 20, 2015, and that Ms. Bernardino admitted in a written statement that she mistakenly gave R.K. another patient's medication.

Mr. Edwards stated that R.K. ingested one tablet per day for approximately five days and began to experience headaches and dizziness. She was treated on March 30, 2015, at the University Medical Center Urgent Care for symptoms related to dehydration induced by the medication.

Mr. Edwards presented a Stipulation and Order regarding Sav-On. The Respondents admit that evidence exists to establish a basis for the violation alleged in the Accusation.

Sav-On shall receive a Letter of Admonishment from the Board's Executive Secretary, shall pay a fine of \$1,000.00 for the First Cause of Action and shall pay an administrative fee of \$495.00.

Mr. Dudekula apologized to the Board and to the patient for the dispensing error that occurred.

D.	CVS/pharmacy #8791	(13-056-PH-S)

Chris Scalzetti, CVS District Pharmacy Supervisor, and Ronald Horvath, pharmacist, appeared and were sworn by President Basch prior to answering questions or offering testimony.

Mike Dyer was present as counsel representing Mr. Horvath and CVS.

Mr. Edwards presented a Stipulation and Order regarding Mr. Horvath and CVS for the Board's consideration. The Respondents agreed that evidence exists to establish a factual basis for the violations alleged in the Accusation.

Mr. Edwards explained that on September 21, 2013, patient K.C. received bupropion 150 mg. SR (sustained release) tablets rather than the bupropion 150 mg. XL (extended release) tablets as prescribed.

Mr. Edwards added that pharmacy records show that the filling error originated when pharmaceutical technician Kellie Batallones selected the incorrect medication at data entry. Ms. Batallones completed the filling process and staged the final product for the pharmacist's verification. Mr. Horvath performed the final product verification, but failed to identify the medication error. Patient K.C. ingested thirty tablets of the incorrect medication over a thirty day period with no reported adverse effects.

Mr. Dyer agreed with the facts Mr. Edwards described to the Board

Mr. Horvath shall receive a Letter of Reprimand, pay a fine of \$500.00 for the First Cause of Action and shall complete two additional CE on the topic of error prevention.

CVS Pharmacy shall pay an administrative fee of \$495.00.

Mr. Dyer agreed with the Stipulation and Order presented.

Ms. Blomstrom asked if the pharmacy technician, Kellie Batallones, was present. Mr. Dyer explained that Ms. Batallones was present as a witness for her involvement in the case.

Ms. Blomstrom stressed the importance of pharmaceutical technician's role in the practice of pharmacy.

Mr. Edwards reviewed the case for the Board. He explained that on October 10, 2013, patient W.K.'s physician prescribed a quantity of one-hundred twenty (120) Navane 10 mg. tablets with instructions to take one tablet by mouth every morning and three tablets at bedtime. On October 31, 2013, it was discovered that W.K. received Norvasc (amlodipine) 10mg. tablets instead of Navane 10 mg. tablets as prescribed.

Mr. Edwards added that the dispensing error originated with Ms. Soleymani, who performed the data entry for W.K.'s prescription. Ms. Soleymani completed the filling process and performed the product verification. She did not detect the medication error during final product verification. Patient W.K ingested four tablets a day of the incorrect medication for approximately three weeks with no reported adverse effects.

W.K. returned the incorrect medication to Huntridge Drug where Ms. Walker returned the medication to stock rather than returned to quarantine for appropriate disposal.

Mr. Edwards presented a Stipulation and Order regarding Ms. Soleymani and Huntridge Drug. The Respondents admit that evidence exists to establish a basis for the violations alleged in the Accusation.

Ms. Soleymani shall receive a Letter of Reprimand, pay a fine of \$500.00 for the First Cause of Action and complete two additional CE on the topic of error prevention.

Huntridge Drug shall pay a fine of \$500.00, pay an administrative fee of \$495.00 and within 30 days of the Order, shall provide policies and procedures designed to prevent similar errors from happening in the future.

Mr. Hafter apologized for the error on behalf of Ms. Soleymani. He explained that due to scheduling issues she was not able to appear, but assured the Board that both Huntridge Pharmacy and Ms. Soleymani are taking this error very seriously.

The Board thanked Ms. Walker for attending the meeting.

Lindsey Walker was sworn by President Basch prior to answering questions or offering testimony.

Ms. Walker stated that the error could have been prevented if multiple people would have been available to check the prescription instead of only having one person process the prescription from start to finish.

19. Notice of Intent to Act upon a Regulation for Possible Action:

**Amendment of Nevada Administrative Code (NAC) 639.620, 639.6282, 639.6305 – Third-Party Logistics Providers** – The regulation amends the definition of third-party

logistics providers (3PLs) to be consistent with the Federal Drug Quality and Security Act (DQSA). The amendment requires that a 3PL obtain a license as an authorized warehouse, rather than being licensed as a wholesaler as they have historically been licensed.

Cheryl Blomstrom disclosed that she had a discussion with the AG's office to clarify the conditions for recusal and felt that she did not have a conflict participating in this matter. However Ms. Blomstrom recused from participation in this matter due to the fact that she recused during the Workshop at the October 2015 meeting.

Mr. Edwards and Mr. Wuest provided a brief background for the Board's information and explained that the intent of the amendment is to license 3PLs and wholesalers separately as well as to clarify the definition of 3PLs.

Mr. Wuest mentioned that Board Staff received a letter from the Healthcare Distribution Management Association expressing support of the proposed amendments

Mr. Edwards added that Paul Enos, CEO Nevada Trucking Association, submitted a letter expressing concerns on the proposed regulation as well as a proposed draft of the regulation. He added that Mr. Enos would discuss the letter during Public Comment.

President Basch opened the Public Comment.

Paul Enos, CEO Nevada Trucking Association, appeared and was sworn by President Basch prior to answering questions or offering testimony.

Mr. Enos thanked the Board for tabling this matter in October 2015 to allow time for the release of the Federal guidelines. He explained that even though the Federal guidelines have not been released to date, he believes that having a single federal license instead of 50 separate state licenses with different requirements in each state would be more efficient and would provide uniformity for the 3PLs.

Mr. Enos requested that if the Board decides to take action on a regulation regarding 3PLs, it considers the proposed draft, including clarification of the definition for "dispenser," that he submitted on behalf of the Trucking Association.

President Basch closed the Public Comment.

The Board expressed concern that if 3PLs were not licensed by the State, there would be no ability to take action if a 3PL violated the law.

After discussion, the Board agreed that there was concern that, when released, the Federal guidelines may change the current definition of 3PLs. However the Board felt that it is in the public's best interest to move forward with the proposed amendments at this time.

Board Action:

Motion: Kirk Wentworth moved to adopt the proposed amendment as presented and move forward to the Legislative Commission.

Second: Jason Penrod
