If Respondent Nguyen successfully completes the conditions of the probationary period, then after 1 year, Respondent's Certificate of Registration No. 15913 shall be fully restored. In addition, Respondent Nguyen agrees to stipulate to the following penalties and/or conditions:

A. Respondent Nguyen shall pay a fine of Three Thousand Dollars (\$3,000.00) for the violations; and

B. Respondent Nguyen shall pay One Thousand Dollars (\$1,000.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs.

Hello Mr. Keegan,

Yes I would like to seek dismissal of this case. I can call you, I live in Florida.

Thank you for the opportunity to present supporting documents to you in defense of my innocent position. I was, in fact, the pharmacist at my former employer, a non-resident pharmacy called Complete Pharmacy, located in Florida, however, the facility was not conducting any business into the State of Nevada.

Complete pharmacy was a FDA registered 503B outsourcing facility and was not conducting business as a pharmacy but rather as an outsourcing facility. According to the FDA and in our resident state of Florida, in a 503B outsourcing facility, the Pharmacist has not legal authority or jurisdiction over any quality related matters of the pharmacy. A 503B facility is considered a manufacturer, under GMP regulations, and the leading authority in the facility is the Quality Assurance Director and the Quality Control Department NOT the Pharmacist. This is the same law that the Florida board of pharmacy has for Florida pharmacies who operate as a registered 503B Outsourcing facility and not a pharmacy. A Pharmacist or PIC cannot even supervise quality control staff members and the Pharmacist cannot approve, oversee or conduct corrective actions for any quality related issues in a 503B outsourcing facility. The Florida Board of Pharmacy law requires that these duties are required to be done by the Quality Assurance Director and the Quality Control Department team. And this has to be an Independent Quality Control Unit function.

As the Pharmacist, I did make serious and urgent recommendations to correct all of the deficiencies that were noted in the inspection but I had no authority to mandate any changes or corrections related to those quality issues in the facility. This is exactly how many of my fellow pharmacist colleagues get into stressful situations like this with their respective boards of pharmacy because the State and Federal pharmacy laws mandate responsibilities and authority to Quality Assurance Director and Quality Control Department and NOT the pharmacist. In a traditional 503A compounding pharmacy, the pharmacist has fully authority and supervision over quality related facility matters and medication batch record release,

however, in a 503B outsourcing facility, the Quality Assurance Director and Quality Control Department team has full authority and supervision over all quality related matters and medication batch record release. In a 503B outsourcing facility (which dispenses office-stock medications, not patient-specific prescriptions), the pharmacist cannot give final batch release approval of medications and is legally only responsible for the receipt and possession of drugs in the facility and supervising the technician doing the compounding. Pharmacists are not even needed to dispense medications or check purchase orders, because 503B facilities do not process prescriptions. There is the huge disconnect as to the legal and responsibility function of a pharmacist working in a 503B outsourcing facility because Pharmacists don't have the traditional authority to mandate any changes or corrections related to any quality control related issues in the facility. The harsh reality and issue is the fact that the Quality Assurance Director and all of the Quality Assurance Team members do not hold any state licenses with the boards of pharmacy, so all of the legal responsibility falls back on the PIC, even those the PIC has no power or authority. Complete pharmacy had 1 Quality Assurance Director, 1 Quality Control Manager and 8 Quality Control technicians that are required by Florida Board of Pharmacy is act as an Independent Quality Control Unit. The Pharmacist are NOT allowed to be a part of the Quality Control Department with is not ethical or right because the Pharmacist are the only ones with the licenses with the boards of pharmacy and end up taking the blame. All of the allegations contained within the inspection as quality related matters and were under the direct supervision of the 10 member Quality Control Unit and I was not even legally able to be a decision maker to make any corrective actions changes related to these quality assurance matters.

Below is proof that Florida Board of Pharmacy Law does not give any authority to the pharmacist within a 503B Outsourcing facility.

503b - Outsourcing Inspection Quality - 21CFR part 211 subpart B (Florida)

- 1- Firm has an independent Quality Control Unit.
- 2- The QC unit has the authority and responsibility to approve or reject all components, drug product containers or closures, end process materials, packaging materials, labeling and drug products.
- 3- QC unit reviews and approves/rejects: SOP's, Batch Records (completeness and accuracy, components, API's, materials, OOS results).
- 4- QC unit reviews production records to assure that no errors have occurred, or if errors have occurred, that they have been fully investigated.
- 5- Adequate laboratory facilities for the testing and approval (or rejection) of components, drug product containers, closures, packaging materials, in-process materials, and drug products are available to the quality control unit.
- 6- The quality unit approves or rejects all procedures or specifications impacting the

identity, strength, quality, and purity of the drug product.

7- The responsibilities and procedures applicable to the QC unit are in writing and such procedures are followed.

8- QC unit personnel are qualified through training and experience

IN SUMMARY

I have been a honest and hard-working pharmacist for 17 years without any previous complaints from any board of pharmacy. Yes, I was previously employed by Complete Pharmacy, an FDA 503B registered outsourcing facility, for 8 years without prior incident. The company had a full team of 10 Quality Assurance employees that had full legal FDA authority of the deficiencies noted in the inspection. Under FDA outsourcing facility laws, the pharmacist have zero authority or supervision over Quality Assurance employees and/or Quality control management team, yet the board of pharmacy holds the PIC to be fully legally responsible without any power. I assumed the Pharmacist responsibilities not knowing how powerless the PIC is when employed in a 503B outsourcing facility and I am dearly paying the price for it years later. The inspection occurred 3.5 years ago. The pharmacy is now bankrupt and has been shut down for almost 4years now, and I quit the pharmacy due to do my lack of authority, poor employee treatment and lack of salary payments.

Please allow me to continue serving the patient community and helping to improve the quality of health care to those in need. Lessons have been learned, retraining has begun, and accountability is now noted. Once again, Complete pharmacy has not conducted any business in Nevada. I also never plan to utilize my Nevada pharmacist license and will not seek renewal once it expires.

Thank you for taking the time to read.

Sincere Blessings,

Subject: Amazi Harris Pharmacy Technician Licensing

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello,

This is Amazi Harris and I am waiting to get approved or denied for my Pharmacy Technician licensing. I had ran into a few issues with my criminals records and needed to disclose that. I sent an email a few days ago disclosing the information that I had not disclosed, due to miscommunication from Northwest Career College. I have sense had legal advice from my lawyer and wanted to disclose additional information about my cases.

Case #: 21-PC-007272

I had a girl's night out with some of my high school friends that I hadn't seen in a long time. We went out for dinner, drinks, and had plans to go clubbing. When we finished dinner, we went to the bar, where we had drinks and conversed with each other and people at the bar. My friends had different intentions then I was aware of and were making different plans then to go to the club. My friends had got up to leave and I followed them, where they were lead to be arrested. I was at the wrong place at the wrong, where I was also arrested with them too. I was in the booking area for about 7 hours and let go after that. The appointed lawyer to my case went to court for me and got my case closed. After seeking legal advice I was also told to begin to get my record seal and am in the process of doing that as well. The friends that I was with did not allow me the chance to decide for myself if I wanted to hang out with them considering what they were involved in. Now I am having to defend myself for a situation that was the repercussions of hanging out and catching up with friends I hadn't seen in a while. I ask that you give me empathy in that I am trying to be of service to the world and make a good impact in my life and the lives of the people around me.

Case #: 21-CR-028933

I was trespassed from the casino following the incident that happened in the case disclosed above, but that case had been denied so I did not think I would have any problems going back into the casino months later. However, because they were never aware of what had happened to my case I was still considered to be trespassed. I was to stay off of the premises and because I came back I was arrested and in the booking area of jail again for the same amount of time, about 7 hours. I have learned my lesson and have sense gotten legal advice on how to handle the situation so that this doesn't happen again. I've gotten myself caught up in an incident that could potentially mess up my life. No matter what I am so excited to jump start my career in Pharmacy and continue my education. My intentions are to create a beautiful life and make my family proud. I intend on living up to that expectation, because I am not my friends and I have learned my lessons.
